#### OF FLOWERS.

[Maurice Egan in Town Topics.] were no roses till the first chil i died, alets, n , i almy-breathed heartsease, No heliotrops, nor buds so dear to bees, The honey-hearted woodbine, no gold-eyed And white-la hed daisy-flower, nor, stretch-

And white ing wile Clover and cow lip-cups, like rival seas, Meeting an ! parting as the young Spring

breez Runs gid ly ric's playing seek and hide; For all flowers died when Eve left Paradise, And all the world was flowerless awhile, Until a little child was laid in earth; Then from its grave grew violets for its eyes, And from its prose-petals for its smile, And so all flowers-from that child's death took birt .

## Cats for the Coming War.

(Chronisle "Undertare

They are busy training carrier pigeons ur pe for the coming war. They are exper menting with balloops and things. have been requested on behalf of a friend of mine to publish his suggestion, which is worthy of the attention of mili-tary anthorities. It is cats. My friend says t. a a cat will always go back to the p.a e you take it from. I know myself that cats will always come back to a place a boot ack has disloged them from. I know that a cat will never give up hu ting a place where it has once been hap y, however emphatic may be the remenstrances from the owner of the bedroom bei w or above. But the joke about cats is now exhausted. However, this fr.end of mine says he once took a cat in a closed bag from Los Gatos to San Francisco by train. Well, that cat walked quietly back to I os Gatos.

My friend points out the wonderful value of this pe uliarity in cats to an army to carry dispatches and do all sorts of use-fu, work. He suggests that every soldier should carry a cat in his kit. Some peopie have beard of kits in a cat, but that is now matter. There are several points, however, my friend has not considered. If the army were beleaguered the cats would have to be eaten. Well, that is, a. er all, an advantage, for sometimes they do not even have cats. But cats have a way of taking their time that would not sut a war. There would be constant troub e between the sexes, too, and after ail, perhaps, arrier pigeons and balloons are better. He substantiates his position by an ther story of a cat, which, when the family moved in town, went back gramme of the usual oncert. I suppose, in lusted that old time favorite, "Home Again. '

> Persian Barber-Shops. ceign Corresponde eal

In Persia the barber shops are entirely open. One of the common sights in the streets of Tcheran is a man scated on the pavement against a wall, while a barber shaves the crown of his head. The barbers trade is among the most important in lersia. The customs enjoined by the Koran, or religious law, makes it indispensible that barbers should abound in the country. The Koran makes it honorable for a man to wear a beard, but commands the shaving of the head

There are two great sects among those who accept the Mohammedan faith-the Sheas and the Sunnees. The latter are all Turks and they shave the whole crown, excepting a tuft in the center, by which the archangel may draw them out of the grave. But the l'ersians are Sheas, and hey shave the center of the head from the forehead to the ne k, leaving a long curl on each side. It is curious so see even little boys with their heads thus polished. The Persians consider it a great lisgrace to lose their side curls. As they ali wear turbans, or black conical caps of Astrakhan lambskin, no one would suspect the head to be shaven until the cap is taken off. Then, indeed, the appearance of the head is exceedingly grotesque.

It is evident that the care of the hair is very important question in Persia. But

### Applications for Space.

CIC . Advices from New Orleans state that applications for space in the various buildings of the American Exposition to open en Nevember 10th, are daily rouring in from States, cities and arge Lus ness firms in all parts of the United States; while the countries of Mexico, Central'and South America, as well as important places in Europe, are sending in a large quota. In fact, where at the outset, the filling of the oceans of vacant space caused the promoters of the enterprise no inconsiderable amount of anxiety, the situation has in the past few months been entirely reversed and the management deem it their duty to inform those intending exhibitors who have not yet applied for space to do so at.once ere it be to late. While this is, of course, a very gratifyibg state of affairs, that the management is able to anounce, still it shows the necessity of city and individual exhibitors who have thus far failed to make their applications for space doing so immediately. There is no longer any question of the success of the American Exposition ; it has been constructed upon sound business principles; it is of ersted by business men, to solve

the commercial problem of the day-the securing of an outlet for our surplus manufactured products.

-The great army of Brakemen on freight trains would hall with delight the introduction of a patent car coup. ling that would relieve them of the dan: ger attending their vocation in coupling cars. A patent has been granted to Mr-Peale, of this city, son of ex:Senstor Peale, for an automatic, self acting coupler that is likely to put an end to the dangers of the brakeman. The device is simple, yet complete in its operation. A working model may be seen at the office of the Hon. S. R. Peale in this city .- Clinton Republican.

-We desire to call particular attention to the Boot & Shoe business conducted by A. C. Mingle. He is deter, mined to enter the fall trade at the head of the list. During the summer he reduced his stock, so as to enable fall and winter, and how well he succeeded, we will let the public judge-Mr. Mingle has had a long experience in the business, and is intimately acquainted with many of the best manufacturers in the country thereby giving him an advantage in selecting the styles at manufacturers prices, which enables him to sell goods as low as small dealers (who are seldom in the market,) must pay jobbers or middle men for older and inferior goods. Goods are cheaper this fall than they were ever

#### To Physicians.

We do not find fault, reproach or condemn the practice of any regular physi-cian-this is not our mission-but we do claim that if he were to add PERUNA to his prescriptions, as directed in our book on the "Ills of Life," (and furnished gratuitously by all druggists), he would cure

all his patients. Mr. Henry C. Reynolds, Ironton, Law-rence County, Ohio, writes: "My wife has been sorely distressed for many years. Her disease or diseases and the symptoms of them have been so varied that an attempt to describe them would be more than I feel able to undertake. I have paid over a thousand (1,000) dollars for doctors and medicines for her, without any satisfactory results. We read so much about your PERUNA that I was forced to try it. She has now taken five bottles; they have done her more good than all the doctors and medicine that she has ever made use of. PERUNA is certainly a God-send to humanity."

Mrs. O. L. Gregory, Las Vegas, San Migvel County, New Mexico, writes: "I think PERUNA and MANALIN saved my life

Mrs. Cora Engel, First House on Lazelle street, near Rich, Columbus, Ohio, says. "It affords me much pleasure to state to you the benefit I have received from your PERUNA. I had been troubled with kidney complaint and dizziness in my head for eighteen years. I tried different kinds of patent medicines, and consulted a number of physicians, but received no benefit whatever. About three weeks ago I commenced taking PERUNA. I began to get better before I had taken half a bottle. The dizziness has disappeared, and the other affection has so much improved that I am positive, after I will have taken another bottle, I will be entirely well. I feel like a different person already. A number of my friends have used it, and they think it is a wonderful remedy. My husband says it is one of the best medicines for a cough that he ever took

A. W. Blackburn, Wooster, O., writes: everal weeks ago a man came to me, all broken down, terribly nervous, stomach without any power to digest food. Had tried four doctors; none did him any good. Asked me to do something for him. I recommended MANALIN. He told me to-day that he has been taking it regularly, and is now almost well. Said he would sound the praises of MANALIN far and near."

PE-BU-NA is sold by all druggists. Price \$1.00 per bottle, six bottles \$5.00. If you cannot get it from your druggists, we will send it on receipt of regular price. We pre-fer you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order from us at once as directed S. B. HARTMAN & Co.

Columbus, Ohio.

If you are already settled in business, send us the names of two or more good agents and in return we will send you the enser: two months. Write at once, W. H. THOMPSON & CO.,

404 Arch Street, Philadelphia, Ps.

#### Every Farm an Experimental Station.

The best analysis of any fertilizer is in the farmer's own hands. Soil tests are reliable tests to determine the value of any manure. An analysis is only an intelligent suggestion, but actual trial by the farmer proves conclusively whether a fertilizer will give good crops or not. For six years our \$25 Phosphate has stood severe field tests. The best results have been obtained by intelligent farmers who use it season after season in preference to any other brand. If you have not used it yet, we hope you will do so this season.

this is not all. One rarely sees a gray beard or gray locks in Teheran. Even Even the most venerable men have dark red hair. The reason is because OF all, from the highest to the lowest, dye their hair. This is done first with benna, which gives it a reddish tint. Many prefer to leave it thus. But many add to the henna a second stain of indigo, and the combination of the two colors imparts to the hair a dark brown tint.

#### Czar Nicholas in Love. [Chicago Tribune.]

How princes make love is told in the "Reminiscences of the Marquis Custine, which have just appeared in Faris. When the Czar Nicholas was 13 years old he spent two days in Berlin, where he saw the Princess Charlotte, two years younger, and of a delicate beauty which at once attracted him. She, however, showed no signs of reciprocating his affection.

The evening before his departure he sat next to the princess at dinner. "I shall leave to morrow," he suddenly remarked. She did not show any surprise, but quickly answered, "We shall all be sorry that you leave so soon. Cannot your de-parture be delayed?" "That depends on you." "How so?" asked the princess. The prince now declared his love, some-what to her embarrassment, as she thought they would be overheard. As a piedge of her love he asked for the ring she wore, suggesting that no one would notice it if she took it off, and pressing it into a piece of bread pushed it toward his plate. The ring, however, was not hers, but belonged to her governess, who had received it from the empress of Russia. And in taking it off to give it to the prince she read for the first time on the inside the inscription, "Empress of Russia."

#### To Learn How. [Whitehall Times.]

If you want to know what a sermon should be-ask some one who never wrote or preached one.

If you want to know how to keep a hotel, ask some one who never tried to

If you want to know how to run a dry goods store, ask some one who is unable to tell the difference between calico and

If you want to know how to manage a steamboat, ask some one who can not tell you the difference between a gunwale and

a rudder post. If you wish to listen to an interesting agricultural address, engage a man to deliver it, who never planted his foot on a

If you want to know how to edit a newspaper, ask the first man you meet; that is, if he never had any experience about a sanctum.

Foundation of Consumption.

[Hall's Journal of Health.]

The foundation of three-fourths of all cases of consumption is laid before the age of 25 years; in women, during their teens.

#### A Novel Arrangement.

A new Fresbyterian church in Carroll Lowa, has a novel arrangement for the ac-commodation of bables. The corners of the auditorium are curtained off, and behind each are cradles and rocking-chairs

known to be in the history of the trade. While other merchants cry hard times, Mr. M's sales are continu; ally on the increase. What he promises and intends to carry out is this: he will give you just as good shoes at as

will give you just as good shoes at as low prices, as can possibly be had at any store in America and better and cheaper than you will find in most of them. This manufacturing department deserves mention. It is managed by Mr. H. Robb, a work man of large experiance, with the best workmen under him. The work turned out from this shop, is second to none in the State. Persons desiring hand made goods, will do well by trying Mr. Robb at Mingle's. His work can be seen at the store which will tell better than we can write it.
When in the Wrong Channel.
The bile wreaks grievous injury
a true and exact copy as given by he by the by the partner with the state. So and subscribed before me this bit day of Just and subscribed before me this bit day of Court of Common Pleas of Miffin connty, Fa. May 30, 185.
