

Cincinnati Quiet.

CINCINNATI, May 9.—Outwardly there is very little change in the strike situation. The city employees have been voted to ten hours' pay for eight hours' work and a number of individual manufactories have made settlements with their men, but the great mass of strikers remain idle. There is but little indication of a strike on the streets. There are no crowds, and business seems to be progressing as usual.

Orderly processions of strikers have passed through the streets every day, but the very pronounced denunciation of violence and particularly of Socialist methods has given to the public a sense of freedom from danger of riot. This feeling has not been shared by the authorities. For several days the First Regiment of Ohio National Guards has been on duty night and day at its armory, near the Court House.

Several hundred special policemen have been appointed and safety organizations have been made all over the city at the Mayor's request. Four regiments of militia have been ordered here by the Governor. The explanation of all this precaution was made to-day for the first time. It is that the Police Commissioners have discovered that Socialists to the number of six hundred are organized, armed with effective rifles; that they control here the manufacture of dynamite bombs; that the one used in Chicago was made here and they have now on hand for use a supply of these infernal machines. The Commissioners claim that they have found the name of the manufacturer—William Haines, of Covington, Ky. This, in connection with the rumor that Herr Mott was in Covington last night, gives some plausibility to the fears of the authorities and accounts for the apparently unusual precautions taken. The troops will probably be quartered in the suburbs.

At 9 o'clock yesterday the shopmen, carpenters and section hands of the Cincinnati Southern Railroad held a meeting at Armory Hall in Ludlow and determined to stand by their demand for eight hours' work and ten hours' pay. "The official tells us," said one, "that we can work at the old wages or put on our coats and go home. We are determined to put on our coats and stay with 'em." The freight handlers at a meeting to-day appointed a committee to negotiate for the most favorable settlement of the strike if possible. It is believed all will return to work tomorrow.

To-day has been one of marked quiet throughout the entire city, no processions occurring and the police not even called upon to disperse any large assemblages. The situation in the lumber district which has been the scene of many disorders during the week, was such as not to require the dispatching of a single patrol wagon to quell a disturbance during the day. Officer Flavin and Sheehan have died from their injuries. Kruger, the Socialist shot by Officer Madling, died this morning, and Frank Lannis, a member of the rioting Communists, during the afternoon. No work was attempted at any of the railway freight houses.

SHARON, Pa., May 10.—Chris. Peters a desperado, was captured here to-day for a burglary at Brookfield, Ohio, on Saturday. When arrested he made a strong show of resistance and endeavored to shoot the officer. He has served long sentences in the penitentiary in Ohio, Iowa and Pennsylvania. He also attempted to set fire to the Sharon jail.

OLC CITY, May 10.—Early this morning William Brush shot and killed his brother Philip at the latter's residence near Wilcox, Elk county. The brothers lived together on a farm. An old feud had existed between them. The coroner's inquest charges William with murder.

OSWEGO, N. Y., May 10.—This morning Norman Lonsbury, aged 78 years, a farmer near here, in a fit of jealousy, shot and killed his young wife, aged 16 years, and her relative, Horace Payson, aged 35 years. He then shot himself before officers arrived to arrest him. They are all dead.

CHESTER, Pa., May 10.—The employees of the Rose Valley Worsted Mills have struck because one of their number, a Knight of Labor, was discharged. The discharged workman, it is said, offered Mr. Potts, one of the proprietors, who refused to take him back. Hence the strike.

Hydrophobia in Milk.

LITTLE ROCK, Ark., May 11.—A dog belonging to Mr. A. S. Hall, a farmer, living near Cabott, near this city, went mad last week, and among animals which it wounded in its wanderings about the farm was a milk cow. The cow showed no signs of being affected by the wound, and it was thought that hydrophobia would not result. Yesterday, however, the animal began showing the symptoms of the dreaded disease, and at the same time the farmer's two little children who had been nourished with the cow's milk exhibited similar symptoms, and are in a critical condition, suffering the most terrible agonies. The other members of the family are also ill, but their symptoms are not as alarming as those of the children, and some hope is entertained that they may recover.

HARRISBURG, May 11.—The failure of the Attorney General thus far to file indictments in the Dauphin County Court against the Soldiers' Orphans' School syndicate and others connected with Soldiers' Orphans' Schools has caused an impression in some places that the purpose to punish the wrongdoers has been abandoned. There is no ground for this impression, as the indictments are in process of preparation in the Attorney General's office and will all be completed within a week. Great care is being taken to make them proof against all technical objections that may be made to them. The Auditor General still declines to pay the claims of the Mercer, Mt. Joy, McAllisterville and Chester Springs Schools for the quarter ended February 18 last, amounting in the aggregate to \$37,568.18.

A terrible railroad accident occurred between Johnstown and Conemaugh on Monday evening. About 9:30 o'clock the brakes on a lot of freight cars standing upon a siding were loosened by some malicious individual and the entire train dashed out on to the main track at a speed of about 50 miles an hour, and came in contact with an eastern bound freight, causing a general smash up, killing engineer Mowry, aged 38 years single, fireman Meyers aged 22 single, and conductor Connor married, leaves a wife and two children.

An Indian Fortress Captured.

GUAYMAS, Mexico, May 9.—A courier from General A. Moring reports the capture by Mexican troops of Anil, the central defense of the Yaquin Indians. During the attack one Mexican officer and eight privates were killed.

—It has been ascertained that the anarchists who ransacked the drug store on Centre avenue and Eighteenth street in Chicago on last Wednesday, and drank what they thought was good whiskey and sherry wine, eight have died and four are beyond recovery. They got hold of a bottle containing poison. These fellows will not throw any more bombs.

—The manufacturer who hopes to hold his own in the fierce competition which characterizes modern industry must of necessity keep a sharp lookout for valuable improvements in machinery, and must introduce them promptly when they are presented. The movement of the industries is always forward. Thousands of ingenious minds are continually studying out methods for making processes easier and more economical. Every month some kind of a device for bettering the way of doing a thing, or for saving a little labor is patented. The manufacturer who simply ignores these things and runs along heedlessly in the old way, with the old devices, will be left behind and beaten as surely as the earth rolls around the sun. A mill built and filled with machinery twenty years ago, and left unimproved, could not begin to compete with a modern mill containing all the new mechanical improvements. And the way to keep a mill property from deteriorating is to add in every important improvement as it is put on the market. The most successful mills are the mills that do this very thing; and they succeed because they do it.—Textile Record.

DRIFTWOOD, Pa., May 10.—Another big well was struck at the Kane oil field this morning. It flowed at the rate of 500 barrels a day. This well is within a quarter of a mile of Kane and is the largest yet struck. Five other wells are expected to be opened in a few days, and as they are close to this last one it is believed that they will flow heavily. The oil men are wild over this last surprise.

ROYAL BAKING POWDER Absolutely Pure.

FACTS vs. PREJUDICE. Prejudice is hard to combat. It cannot be overcome in a day. More than likely it wasn't formed hastily. Indeed it may have been gradually strengthening its hold for years. For instance, some folks believe Rheumatism cannot be cured. Their fathers believed so before them. So did their grandfathers.

Now, RHEUMATISM CAN BE CURED, notwithstanding this prejudice, but the trouble is to make people think so. The only way we know to meet popular unbelief is to state the PLAIN FACTS, and then present the POSITIVE PROOFS that they are facts. It is a fact that the RUSSIAN RHEUMATISM CURE not only relieves but banishes Rheumatic Pain. There is positive proof of it too. It comes from those who have suffered untold agony with Rheumatism and have been completely cured by this remedy. All who have tried it had had this experience. Some of them permit us to print their testimony. It makes quite a little book, which we send free to any who are interested enough to ask for it. A complete Russian Rheumatism Cure, costs \$2.50. If mailed, add additional. If registered, 10c. more. You'll never need but one, so the price isn't high. Who wouldn't give \$2.50 to get rid of Rheumatism? As yet it cannot be found at the stores, but can be had only by enclosing the amount as above, and addressing the American Proprietors, PFAELZER BROS. & CO., 87 1/2 & 82 1/2 Market St., Philadelphia.
