 Centre Lodge No. 153, I. O. O. F., meet every Thursday evening at 7 o'clock at L. O. O. F. Hall, opposite Bush House.

Very Lively Times.
 CHICAGO, June 26.—Train wrecking, riot and bloodshed have marked the progress of the Lake Shore strike to day.

Shortly after the strikers blockaded the line last night, by throwing a lot of empty cars across from the Rock Island tracks, the night express, consisting of eleven coaches and carrying the United States mail, ran down the west bound track, but, finding the way blocked, ran back, was switched on the east bound track and started down at the rate of about eight miles an hour. At Fifty-first street a man ran out and turned the switch as the train came along. The locomotive immediately jumped the track, carrying the tender and the forward truck of the first coach with it. For a minute there was a terrible jarring and knocking about, and then the train came to a standstill. The locomotive had run over the bars for more than a hundred feet, and finally, pushing two of them apart, sank in the mud. The lever was reversed and efforts made to back upon the track, but without success.

The engineer of the express, although not suspecting that such a fateful attempt would be made upon his train, nevertheless went at only half speed, and by doing so probably prevented a most serious wreck and great loss of life. After a half hour's work the locomotive, tender and coach were again placed on the rails. The cars and engine were examined and, after being found not to have been injured by the accident, again started on the journey, being about an hour and a half late.

The officers of the company early put men at work clearing the blockaded tracks, and shortly after twelve o'clock two engines were run out of the round house at Forty-third street under a strong police guard, attached to two cabooses and started south toward Englewood. There was a large and excited crowd at Forty-third street, supplemented by a large number of idle men and boys. In the cabooses were a number of the town of Lake police and several Pinkerton specials, about forty officers all told. The train proceeded at a rate no faster than a walk until it arrived in Englewood, when the officers mounted on the cowcatcher and the platforms of the cabooses, and the train started off at the rate of about two miles an hour.

Soon a Chicago, Milwaukee and St. Paul engine and one belonging to the Nickel-Plate road passed the crowd. The engines were on their way to the Englewood yards to do some switching for the road to which they belonged, but as they passed the crowd they were boarded by a hundred furious men, who without ceremony, took undisputed possession. The captured locomotives were coupled together, the throttle valves pulled wide open and, with the whistles shrieking and the frenzied mob yelling, bore down on the slow moving train.

The engineer of the Lake Shore train was signalled to go ahead at full speed, and then began one of the most exciting races on record. Faster and faster flew the Lake Shore train and faster and faster came its pursuer. Thirty, forty and then fully fifty miles per hour was covered by the pursued, and still the pursuers crept up. Matt Pinkerton jumped to his feet on the hind platform of the last caboose and a revolver flashed in his hand. As they drew nearer the faces of the strikers could be seen through the dense volumes of smoke left behind by the engines of the Lake Shore train it tore along.

The pursuing engines arrived within a few feet of the caboose when the town of Lake police jumped it side and closed and locked the door behind them, leaving Matt Pinkerton and three of his men with the newspaper reporters on the rear platform. A huge lump of coal sailed through the air, followed by three or four coupling pins, and a Pinkerton man fell headlong from the platform. Crack! crack! went Matt Pinkerton's revolver and a striker fell off the engine.

Another shower of stones which smashed the windows of the caboose, without doing serious damage to any one on the platform, and more revolver shots, apparently without effect, were fired by the officers, and just then the pursuing engines caught up and coupled on the Lake Shore train. The strikers' engines were reversed and the coupling pins snapped like so many pieces of glass. The Lake Shore train was stopped just as the engines again approached at a full head of steam and struck the rear caboose a blow that threw the thoroughly frightened policeman to the floor and shivered every pane of glass in the cars. The police left the dangerous ground and held a parley with the strikers, the result of which was that the four engines and two cabooses were pulled back to the Root street crossing.

About half past 4 p. m. another train was made up. A number of Lake police and Pinkerton men, as well as railroad officials, mounted it. It moved slowly down to Englewood, followed by about one thousand strikers. At Englewood the train pulled out fast, and it had not gone beyond Grand Crossing when an engine filled with strikers was seen in the distance. The train pulled out faster and faster, but the strikers gained. When however, they had almost caught up their steam gave out, and they fell back to the depot at South Chicago, while the train of four freight cars proceeded to its destination.

In the superior court this morning Judge Sheppan issued an injunction restraining seventy of the strikers named therein from interfering with the property of the road and from trying to induce employes to leave the service of the company. The officers of the road will also apply to United States Judge Gresham for similar injunctions, on the ground that the strikers are interfering with interstate commerce.

FAIRMONT, W. Va., June 28.—A man who claims to be a minister of the gospel, and styling himself Rev. Dr. Baker, but who is familiarly known as "Devil John," has for some time been engaged in what he terms missionary work at Llewellyn school-house, this county, and has made several converts. The other night Baker and two of his disciples became intoxicated, and all three engaged in a pitched battle, in which Ham New had one lip and half his cheek torn off, making a terrible wound while the "reverend gentleman" and Lincoln Thuharty, the third party, were badly hurt.

Remarkable Surgery.
 BUFFALO, N. Y., June 24.—A remarkable surgical operation was successfully performed at the General Hospital this week, the patient being a woman 46 years old, who came to the Hospital a few weeks ago, to be treated for an obstruction in the oesophagus, which made it difficult for her to swallow. The diagnosis made indicated that the obstruction was a tumor. About the first of the year the swelling had grown so that the woman could swallow no solid food, and lately it had increased so that even liquid food could not be forced down her throat by a syringe through the smallest tube made. To save her from starvation it became necessary to perform an operation which it was finally decided should be to make an opening directly into the stomach. Cocaine was employed to prevent pain and the operation was performed by Prof. Roswell Park, formerly of Chicago. An incision was first made over the line of the stomach just below cartilages and outside the median line, through the abdominal walls. The large intestines were pushed to one side and a fold of the stomach sewed to the abdominal wall, so that a portion of the stomach the size of a 25 cent piece was exposed to view. After three days a galvanocautery was used to burn away the remaining tissue, and an opening into the stomach was thus made. Food has since been passed into the stomach directly. No ill effects have yet been noticed from the operation.

Excitement in Texas.—Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A tall bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; he had taken two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottle of this Great Discovery for Consumption free at J. ZELLER & SON.

—During one-third of our time the processes of digestion must go on in our bodies, and if the stomach and bowels are not well, nothing is well. To be dyspeptic is to be miserable; dyspepsia is the foundation of fevers and diseases of the blood, liver, skin and kidneys. Dyspepsia invariably yields to the virtues of Dr. Walker's California Vinegar Bitters.

A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times: "How can Brown's Iron Bitters cure anything? Well, it doesn't. But it does cure any disease for which a reliable physician would prescribe IRON for which a reliable physician would prescribe IRON. Physicians recognize iron as the best restorative agent known to the profession, and inquiry of any leading chemist will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This alone conclusively that iron is acknowledged to be the most important element in the human system. It is, however, a remarkable fact, that, prior to the discovery of BROWN'S IRON BITTERS, no perfectly satisfactory iron compounds had ever been found. BROWN'S IRON BITTERS does not irritate the stomach, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Nerves, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments iron is prescribed daily. BROWN'S IRON BITTERS not only cures in a moment, like all other medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscular force increases, the digestion improves, the bowels are active, the effect is usually more rapid and marked. The eyes learn to see, the skin clears up, healthy color comes to the cheeks; nervousness disappears, functional derangement becomes regular and if a nursing mother, abundant nutriment is supplied for the child. BROWN'S IRON BITTERS is the ONLY iron medicine that is not injurious. Physicians and Druggists recommend it. The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

FISHING TACKLE OF ALL KINDS
