BINGHAMPTON, N. Y. August 16, -A special from the editor of the Binghampton Republican, dated at El Paso says: "We visited the American Consul at Paso del Norte to-day. Judge Brigham had nothing further to communicate than has already been given to the public. He says, however, that Cutting was unfairly tried by star chamber proceedings, and that neither he nor Cutting Knows just what the proceedings in the Court were or what Cutting was tried for-It is suspected that the Court records will be tampered with to cover some offenses. Cutting was interviewed today. He is firm in his course, and pins his expectations to the American eagle. There is some excited talk here, but the reports about war preparations either here or across the river are all nonsense. El Paso and Paso del Norte are two of the most quiet cities to be found. There are 300 soldiers doing police duty at Paso del Norte but the Mexicans are sitting around saloons in utter ignorance of any feeling. There is more evidence of life and animation on the American side of the river, as is natural for the more bustling Yankees, but no war talk is indulged in or thought of The war is all further away, in Kansas, Missouri and New Mexico, where war is wanted by certain classes for speculative purposes."

Knights of Labor Convention.

WILKESBARRE, Pay, August 16 -General Master Workman Powderly in a lengthy interview to-day talked about the coming Convention of the Knights of Labor. Mr. Powderly be attended by 1000 delegates. We have 1,000,000 members in our Order Every trade will be represented. The Knights of Labor are nota menace to trades-unions. No Anarchists will be admitted to the Knights of Labor, and at the coming Convention no member of any other organization than the Knights shall have a voice. will be to effect such legislation as will bring industrial people in closer relationship; such as will gather bad assemblies that are now isolated togeth. er under State jurisdiction. The Constrikes, and instruct assemblies not to go out unless as a last resort. The beycott should not be used unless necessary. The ballot after all is the great weapon. The million men who are Knights of Labor are to-day studying the science of government. They in turn will be teachers of other millions, and if the parties of to-day do not heed the hand-writing on the wall and make laws for the American people, the millions so instructed can form a party that will heed the rights of the people in this country.
