Fiddler the feathery editor of the Beaver Coupon Ogan, reminds us of the darkey who tries to ride the kicking mule at a circus. He gets on and tries to ride facing the mules ears, and not being a success he turns and takes hold of the tail. Fiddler belongs to the Knights of Labor and attempts to advocate their just, and acknowledged rights upon one side of his paper, and upon the other he would robb them of every foothold they have gained, by heartily advocating the store order Coupon and "pluck-me stores business." You can not successfully carry water upon both shoulders. If you are an advocate of capitalists, and their mode of transacting business, then advocate the store order trade coupon. If you are a Knight of Labor and have their interests at heart, be honest to the trust and confidence reposed in you, and stand by them like a man. If the store order mule kicks your brains out, don't ask support from those whom you are slyly trying to injure. The laboring men have rights which are bound to be respected.

The busy hum of these industries will soon be heard and Bellefonte, the Birmingham of the North, will no doubt justly lay claim to the title. Then when the Beech Creek road has been completed to this place, and the new contemplated road from Mauch Chunk to New Castle, passes through Bellefonte, this beautiful town will boom so rapidly that within two years you will think it is a second Chicago. Of course we cannot level the hills but we will build around them and upon the top of them.

The following is the report of the Grand Jury: The Grand Jury beg leave to direct the attention of the commissioners and Court to the very defective condition of the water closets and sewerage immediately in the rear of the Court House. During the session of the Grand Jury, the offensive odor from this quarter prevailed the room where their deliberations were conducted, so that their testimony in this direction should receive the prompt and intelligent attention of the commissioners of the county, to whom is entrusted the care of the county's property, and whose duty it is to provide good and healthful accommodations and ventilation, for the transaction of the county's business.

There is no reason why there should not be almost perfect freedom from the slightest impurity connected with these water conveniences where the facilities for complete drainage and cleansing are so apparent.

The Grand Jury suggest that the commissioners should employ the ordinary water conveniences that are found in private dwellings, hotels, etc., and especially in this a safe suggestion since an abundance of heat can be furnished from the steam heat in the Court House to prevent the freezing of water in pipes. This would require a larger house than the one now in use, and to carry out this accommodation it will be necessary to have a complete drain from Court House to creek. And the Grand Jury also recommend that this system of sewerage be extended to Jail building.

The Grand Jury, in their visit to the Jail, found nothing to recommend. There is a want of furniture, especially chairs. The rooms above and below need a larger supply of lime. The jail yard is in a slovenly condition and also the cellar.

We recommend that the commissioners repair at once the first county bridge below Howard, as it is a very old wooden structure in a dangerous condition, and should be replaced by a new one as soon as possible. Also that the county property lying between the Court House and Jail should be beautified and improved, and made that it no longer bears the appearance of a waste and a discredit to a wealthy, populous county, but rather an ornament to the capital of the county, populous with citizens of taste and intelligence.

Also that the supervisor and surveyor go over the line of public road represented by Michael Myers, pros., and the line of the road view marked out, as from the evidence before us, the line of the road view seems to be almost entirely obliterated.

S. S. Lyon, Foreman.

Hastings. The Centre County Bar Association and Constans Commandery attended in a body. The Sunday School passed the following resolutions.
