

Death of Levi W. Munson.

On last Thursday night there died in this community, one of its best and oldest citizens. A man whose whole life, from start to finish, has been an example of upright and integrity, and who has gone to his grave full of years and honor, and whose name will be remembered by his fellow-citizens in Phillipsburg and all over Centre county, with the warmest affection. Levi W. Munson was born at Great Bend, Susquehanna county, Pa., April 12, 1822, and consequently was 64 years, 5 months and 22 days old, at his decease.

He was one of eleven brothers and sisters, of whom five are living. When he was two years old his parents removed to Tomkin Co., N. Y., and lived there until Levi was 17 years old, when they returned to Great Bend. When he was 21 years old he came to Phillipsburg and lived at Bowman's mill, below town, where his brother Chester was engaged in lumbering. Three years later he was married to Margaret, daughter of David and Lucretia Adams, of Clearfield, and began his married life, settling near Clearfield Bridge, on the Phillipsburg and Curwensville turnpike. To them thirteen children were born, of whom nine with his wife, survive the loss of the best of fathers and husbands. Twenty-five years ago he came to Phillipsburg and lived here without interruption, until his election to the Sheriffship of Centre county, on the Democratic ticket, which occurred in 1875, when he went to Bellefonte, served his term with satisfaction to the people, with credit to himself and honor to his party. When his term expired he returned to Phillipsburg. About four years since he took the management of the large lumbering operation belonging to his brother, Judge Chester Munson, at Munson's Mill on the Beech Creek railroad, near town, and has served his brother with the same fidelity and honesty of purpose which has characterized his whole life. Several months since he fell ill and was confined to his bed when the fire occurred, June 29th, 1886, which destroyed his house. The alarm and confusion attending the burning of his home, increased his ailment and hastened his death. Although he has lingered on the verge of the grave for weeks, his iron constitution stoutly resisted the attacks of the grim destroyer. He bore his sufferings and met his end with a quiet heroism which few men possess. He had done nothing to make him fear death, and he waited his Maker's will with simple, touching confidence. To his pastor and spiritual advisor, the Rev. Dr. Evans, of the M. E. church, he expressed his full hope of pardon and salvation, and spoke in the clearest manner of his trust in his Redeemer. His faith never faltered for an instant, his confidence never shook, and thus calmly and quietly he passed into the dark Beyond.

A post-mortem examination showed that his death was the result of cancer of the pancreas, the swelling of which had stopped up the outlet from the gall bladder, which was distended to many times its natural size. His funeral took place on Sunday afternoon, and was the largest demonstration of the kind ever seen in this place, showing the universal esteem in which the deceased was held. Seventy members of the Moshannon Lodge, No. 391 A. Y. M., to which Mr. Munson belonged, attended in a body, and buried him with the rites of Masonry. The funeral cortege was nearly three quarters of a mile long and could not all enter the cemetery. Ninety of his connection by marriage and nine of his own relatives were present. The large funeral was a fitting testimonial of the appreciation of his friends and neighbors for his upright, exemplary life, and their deep sorrow at his removal by death.

Attempted Assassination of a Priest.

PITTSBURG, Pa., Oct. 11.—About 11 o'clock yesterday morning an attempt was made to assassinate Rev. Father Mikewitz in the little Polish church on the South side at the head of Fifteenth street, while he stood at the altar. Mass had been said, and the priest was about to turn to address the congregation when a bullet crashed through the window on the south side of the church flat, tending itself against the wall on the opposite side. For a minute confusion reigned in the church. Women screamed, choir boys shouted and many of the male members of the congregation either pressed forward to see if Father Mikewitz was injured or rushed outside to find whence the bullet came. The priest showed great coolness, notwithstanding that the missile must have passed within six inches of his body. He turned and with a gesture waved his flock to their seats. No trace of the perpetrator of the deed could be found. There has been a good deal of trouble between different factions in this church in the past, the most recent case being with a company of Hussars whom the pastor refused to recognize.

Ending of The Season.

The league season ended yesterday and the result of the games at Philadelphia decided the championship. Had Chicago lost to Boston, and had Detroit won both games at Philadelphia, the pennant would have gone to Detroit. But the unexpected did not happen and Chicago again carries off the honors. Not a league club has completed its schedule. Chicago has postponed games with Detroit, Philadelphia, and St. Louis, and Detroit with Chicago, Philadelphia, Boston and St. Louis.

The following shows the standing of the clubs, yesterday's games included:

Table with columns: Club, Won, Lost, Per Ct. Rows include Chicago, Detroit, New York, Philadelphia, Boston, St. Louis, Kansas City, Washington.

A Gulf Hurricane.

NEW ORLEANS, October 12.—The wind was blowing a gale here last night. Dispatches from towns on the Mississippi coast report a gale prevailing all day on the Mississippi Sound. The steamer Chalmette, Captain Bryne, from New York, which arrived yesterday, reported that she came by the inside route along the Florida coast and encountered heavy easterly gales, with heavy rain. From Tortugas to Port Eads heavy gales were experienced with high, irregular seas. On Sunday, October 10, she encountered several hurricanes lasting seven hours and backing from east to north, thence howling to the south. The sea ran mountain high, continually flooding the vessel's decks, and also her state rooms for and aft.

Lake Pontchartrain was filled with water from the gulf, and a gale yesterday from the same direction caused an increase of the lake tide, the water overflowing the marshes in the rear of the city and filling the canals bank full. A break in the old basin levee on Broad street was reported at midnight last night. The velocity of the wind was thirty six to forty miles an hour and still increasing. A dispatch from the Washington Signal service office says: The storm centre yesterday morning south of Pensacola has moved slightly to the southwest and is now central south of Louisiana. High northwest winds are reported from the coasts of Florida, Alabama, Mississippi and Louisiana. Severe northeast gales are reported for to-night off the coast of Texas.

The Anchoria in Port.

St. John's, Oct. 11. The overdue steamer Anchoria, has arrived safely at St. John's being towed in by the steam tug Favorite. The Anchoria left Glasgow on the 18th for New York, with seven hundred souls on board. Four days out she encountered a heavy sea, and the shaft of the propeller was broken. This was repaired on the 6th but broke again on the 8th, and the steamer had to trust then to her canvas, making only about five or six miles an hour. There was great anxiety among the passengers, but the officers calmed their fears, and assured them their was no danger of sinking. When the steamer arrived within eighty miles of St. John's a life boat with a volunteer crew was sent out for assistance. The life boat arrived safe and the steamer Miranda and the steam tug Favorite were dispatched to her aid. The tug arrived first and brought the disabled ship into port all right, at 3 o'clock yesterday morning. The ship is now waiting orders from her owners, until the receipt of which no repairs will be made. There were two deaths and two births during the voyage. One of those who died was a Polish Jew, and the other a Scotchman. They were buried at sea. The newly born infants and their mothers are doing well. The passengers who landed at Pouch Cove arrived here at 1:30 o'clock this morning.

SHENANDOAH, Pa., October 12.—This town and the entire Mahoning valley is threatened with a water famine which must result in serious loss to business. But one shower of rain has fallen here in nine weeks and the streams in the valley are almost wholly dried up. The water supply at the collieries now supplied from the Girard dam will be compelled to suspend operations. The town supply is also running short, and the prospects of an entire exhaustion of the supply is causing great alarm among the people.

There are about 10,000 Socialist voters in Chicago. The election in that city next month promises to be close. The Republican managers are already dickering about pardon for the condemned Anarchists with the Socialist politicians, the consideration being the votes of the party which are directed by a head centre. There is nothing surprising in this to those who remember how, in Hartranft times, the bosses in this State traded on the Molly Maguire convicts for votes and then cheated the poor devils.

Sunday at Richmond.

RICHMOND, Va., October 10.—The majority of the Knights of Labor here attended morning services at some one of the numerous churches. To-day and this afternoon they drove and strolled about the city. Mr. Powderly went to High Mass at St. Patrick's church this morning, but this afternoon was kept busy attending to numerous matters connected with the work of the convention to which it was necessary to give his personal attention, and in consultation with members of the Executive Board. Tomorrow will be devoted wholly to the parade, banquet ball, and other entertainments provided for the visiting delegates by the Richmond Knights. Mayor Carrington has issued a proclamation that the city offices be closed tomorrow to allow employees to attend, and has requested, on behalf of the local committee of Knights, that merchants and employers give their employees a holiday.

Uncle Sam's Worries.

WASHINGTON, October 12.—The collector of customs at San Francisco has informed the treasury department of difficulties encountered in the enforcement of the Chinese revenue law. It appears that seven Chinese in transportation from Hong Kong to Honolulu, have not yet departed from San Francisco although they have had ample time to do so. The collector expresses the apprehension that these persons do not intend leave the country, and that even if they do it is their purpose to fraudulently obtain return certificates in order to establish a right to come and go at will. The collector also calls attention to the practice of the federal courts in landing Chinese laborers on writs of habeas corpus and releasing them on bail after the collector has examined into the cases and refused to allow them to land. This practice, he says, is substantially an abrogation of the law.

Acting secretary Fairchild has written to the collector in reply as follows: "As the competency of the custom officers to enforce the restriction act terminates under law with the leading of the Chinese persons, it would seem that the duty to seek a remedy for the evils pointed out by you, pertain more especially to the province of the law officers of the government, and you are therefore advised to bring the facts stated by you to the notice of the United States attorney for the respective districts where such facts occur."

RALEIGH, N. C. Oct. 11.—At the state university, Chapel hill, Saturday night, Jacob A. Freeze, a student from Rowen county, was shot through the heart and instantly killed and another student named Fleming wounded by a negro named Brewer. In the early part of the night there was a quarrel between several negroes and young Freeze and two other students. About midnight the students went to Brewer's house for the purpose of renewing the quarrel and while the students stood at the door calling the inmates they were fired on from the upper windows. Freeze was shot through the heart and died in ten minutes.

CHICAGO, Oct. 11.—Shortly before 9 o'clock fifty of the beef killers, employed in the Fowler packing house stopped work and joined the main body of the strikers. Shortly afterwards the men employed to load the freight cars by the Armour house also stopped work, and the pressure from the strikers is so great that the fear is entertained that the strike will involve all the men employed about the yards, and occasion an entire cessation of work in all the houses.

CINCINNATI, O., October 10.—This morning, between 2 and 3 o'clock, August Becker's residence and tailoring establishment, at No. 67 Moore street, was discovered to be on fire. Fifteen minutes were wasted in an attempt to turn in an alarm, and by the time of the arrival of the Department the place was thoroughly cleaned out. In searching among the ruins two dead bodies were found. They were those of Margaret Link, aged 60 years, and her daughter, aged 18 years. They occupied rooms on the third floor, and had evidently arisen, but had been unable to force their way through the smoke and flames. The pecuniary loss will not exceed \$5,000.

High churchism makes rapid progress in England. In London and suburbs the Ritualists now claim two hundred and twenty-four churches, of which forty two hold the communion service daily, thirty-five have eucharistic vestments, fourteen burn incense, fifty-eight have altar lights, and nearly two hundred take the eastward position in prayer.

It has been philanthropically suggested that every right-minded man will have his life insured in order to give his successor in the affections of his wife a fair financial start in life. This is certainly a cheerful view of the subject; but the better method is that of the Irishman who determined to live long enough after his death to spend the money himself.

SCHAEFFER, Rhoads, Woodward, Meyer and Reifnyder helped elect to office several of the fellows who are now trying to turn the county over to the Republicans, and send two Republicans to the legislature to elect a Republican U. S. Senator.

When the baby was sick, she gave her Castoria. When she became a child, she clung to Castoria. When she was a young lady, she gave her Castoria.

MIRACULOUS ESCAPE.—W. W. Reed, druggist, of Winchester, Ind., writes: "One of my customers, Mrs. Louise Pike, Barton, Randolph Co., Ind., was a long sufferer with Consumption, and was given up to die by her physicians. She heard of Dr. King's New Discovery for Consumption, and began buying it of me. In six months' time she walked to this city, a distance of six miles, and is now so much improved she has quit using it. She feels she owes her life to it." Free Trial Bottle at J. Zeller & Son, Drug Store.

Of Interest to Ladies. The new treatment for ladies' diseases discovered by Dr. Mary A. Gregg, the distinguished English Physician and nurse, which has revolutionized the entire mode of treating these complaints in England is now being introduced into the U. S., under a fair and novel plan.
