-COUNTY INSTITUTE. - The program of the Fortieth Session of Centre County Institute presents such an unusually long list of able and experienced instructors that no one with a spark of will be kept open on Saturday evening professional zeal will find it possible to remain away.

The Directors' Day Session promises to be of unusual interest. The list of topics is practical and as the directors at their meeting last year resolved to hold an open session this year and discuss topics of special reference to their work, the public can expect a meeting of more than ordinary interest.

The opinion that the law requiring Boards of Directors to allow teachers pay for time spent at Institute, is still in force, and was in no way set aside by the law making the school month consist of twenty days actual teaching, has been endorsed as correct by both Judge Hoy and D F. Fortney, Esq., of the Bellefonte Bar.

To enable the families of teachers and directors to attand at reduced rates, orders for excursion tickets will be furnished to any such on application to Prof. D. M. Wolf at Spring Mills.

They had been out to the new furnaces and were returning when an engine on the branch road leading to the iron works happened along, blowing off steam at a lively rate. This frightened the animal and it took to its heels, and shying off to one side of the road overturned the sleigh. The ladies were thrown out, the sleigh falling upon them. The horse regained his feet and started off down the road but was captured before going very far. Mrs. Geo. Bible was considerably bruised, but fortunately no bones were broken. Mrs. Frank Bible and the baby escaped without injury. Altogether it was a narrow, but fortunate

-A report reaches us from a few points in the county in regard to two swindlers who hail from Williamsport. They are selling bogus jewelry and silverware, at astonishing low prices to some, and to others the same worthless article is sold for almost the value of a genuine article. The one gentleman it is said, is quite young, a mere stripling, who evidently has not seen much of the world, and in his attempt to palm off the bogus jewelry manufactures lies out of the whole cloth and makes the evidence of fraud so plain that few are caught. We warn the public against purchasing from the aforesaid swindlers. From the description sent us we venture to say we could give the correct names of the individeals despite the fact they register undervarious nom de plumes.
