## A Towns Bad Luck

MIDDLETOWN, N. Y. April 8 .- The village of Cochecton, Sullivan county is gain flooded for the fourth time this year. The warm weather and rain on Monday night made high water in the Deleware river. On Tuesday afternoon the water was running over Cochecton flats and at midnight had reached the Presbyterian church where the stream divided, a portion staking the main highway and the balance pouring through the village street past Beache's stores and Knapp's hotel. The stores and dwellings were inundated to a depth of three feet.

The ice in the river bed remains frozen, preventing the water from taking its natural channel. Two farms below Cochecton have been washed out. There is no communication between the railroad in Cochecton and the bridge over the Delaware except by boats. A number of boats have been wedged in the ice and many narrowly escaped being swept away.

Successful Steel Casting.

WASHINGTON, April 7 .- Naval officers are much plesed with the results of an attempt made at Thurlow, Pa., to cast a steel stem for the new cruiser Baltimore now building at Cramps ship-yard Philadelphia. The piece weighed 15, 000 pounds and was cast without a dedefect. Commander Evans has just examined and tested the casting and propounced it to be excellent. He says that is probably the best piece of steel casting ever done in this country, and the result of this casting is the more remarkable and encouraging from the fact that success was obtained at the first attempt.
