The following letter of Chairman Mc-Clain on Congressional, Judical and Senstorial Conferee system was written in reply to one from Murray Rush Eig, Chairman of the committee appointed by the State Central Committee to devise an uniform system of Congressional, Judicial and Senatorial nominations in districts composed of more than one county. The Committee is to report to the State Con-

BELLEFONER Pa , June 25th 1887, MURRAY RUSH, Esq., Randor, Deleware

Co., Pa.

Dear Sir: -Replying to your favor of the 20th inst., would say that I have very radical views as to what the Committee of which you are the Chairman should submitt to the State Convention, and through it to the people, touching the subject of an uniform plan of Senatorial, Congressional and also Judicial nominations in Districts Composed of more than one county.

I presume no section of the State has suffered more from the Conferee System in District nominations, than we have in our Judicial (49) Senatorial (34) and Congressional (29) (formerly 20) Districts, in the last ten years.

There does not seem to be any power vested in either the State Committee or State Convention to adopt an uniform plan and compel observance by the districts and any action by either body will simply be advisory, which should, ever, do much to bring the subject home to the careful consideration of the people in the several districts and thereby possibly bring about desired reform.

From an experience of ten or twelve years had with conferees and conferences, I am clearly of the opinion that representation in district conventions should be enlarged to one delegate or conferee in stead of 3 delegates for each county,) for eacn 500 votes or majority, fraction thereof, said delegate or conferee to be elected by single districts to be erected in each county, the boundaries of said single districts to be defined by their respective

County Committee. The County Convention should have nothing whatever to do with district conferrees or delegates, and when a single district is composed of more than one election district, the members of the County Committee for each election district embraced in single district, meet as return Judges and certify to the Chairman of the County Committee the result of the dele-gate election in said single district, and the Chairman of the County Committee to certify the same to the President of the district Conventions.

Each county in the several Congressional, Senatorial and Judicial districts in the State to be apportioned, based on the last Presidential vote, of compact and contiguous territory. No ward, borough or precinct or township should be divided in the formation of a single district.

I enclose you the paper sent me filled out as directed, which I trust is satisfartory. I shall endeavor to be at Allentown and hope to see you personally, trusting your Committee can accomplish a step forward in the mode of district nomination, I am Yours Very truly,
Jas. A. McClain,

Chairman.

The following resolutions endorsing the above letter were unanimously passed by the County Committee at its recent meet-

WHEREAS. The manner of nominating Congsessional, Senatorial and Judicial candidates by means of the conferee system which gives to each county that may be contained in a Congressional, Senatorial or Judicial district regardless of the number of Democratic votes cast by each county, equal representations in the said conference, is injurious, unwise, foreign to our system of representative government, and has proven a great injury to the peace and harmony of our party in every part of our state, is a fruitful source of fractional fights and continually breeds discord in our ranks, therefore it is hereby

A Gentle Stimulus

Is imparted to the kidneys and bladber by Hostetter's Stomach Bitters, which is most useful in overcoming torpidity of these organs. Besides infusing more activity into them, this excellent tonic endows them with additional vigor, and enables them the better to undergo the wear and tear of the discharging function imposed upon them by nature. Moreover, as they are the channel for the escape of certain impurities from the blood, increases their usefulness by strengthening and healthfully stimulating them. In cerant organs, they fall into a sluggish state, which is the usual percursor of disease. What then can be the greater service than a medicine which impel them to greater activity when slothful ! No maladies are more perilous than those which affect the kidneys, and a medicine which averts the peril should be highly esteemed.
