—On Thursday morning last some fifteen or twenty men and boys were seated on and about the side track in the rear of the Sterling mines stable. Near by themstood two cars, and while seated laughing and talking these cars were struck violently by a train which was being backed in, and ploughed their way through the crowd maining in shocking manner four persons. Thos. Loyd, Geo. Peddicord, Frank Rodgers, and a Swede whose name we have not learned. The accident happened about 7 o'clock, and about 9 young Loyd died of his injuries. The others were at last accounts in a fair way to recover from their injuries, some of which are very bad. By this accident, which may be attributed to carelessness in great part a family mourns the loss of a son, and three others are likely to feel the injuries received during the remain ler of their lives:—Houtzdale Record.

Narrow Escape.

Jackson, were driving down the main thoroughfare of the city when one of the guy wires which supported the overhead cable of the electric street railway broke and fell to the ground, striking the governor's horse. The wire was heavily charged with electricity and the horse becoming entangled was shocked and burned to death in a few minutes. Of course a second later the wire would have struck the govener and Mr. Jackson instead of the horse. The accident has created great uneasiness about the safety of the electric car system.
