ADDITIONAL LOCAL.

—ANOTHER HANDSOME BUILDING.—The building to be erected by Mrs. D. G. Bush on the site of the burned Arcade will be a handsome and substantial structure. A description of it appeared in the Daily News, which is as follows: It contains seven separate store rooms on the first floor with basement store in the rear on Water street, and each store will have plate glass show windows and the rear of each will be lighted with skylights, affording good light to the entire inside of the store. The store floors will be level from front to rear. The second floor is divided into office rooms which are connecting and lighted with large plate glass windows and with occasional bay windows. These rooms will be of the most pleasing description with separate entrances to each room. The stair halls are large and well lighted, while the third story is to be divided into "halls" or lodge rooms to suit parties renting. The front of the buildings will be built of Philadelphia press brick laid in red mortar and artistically trimmed with Hambleton brown stone, Pennsylvania blue marble and Pennsylvania pearl brick of various designs. The main entrance to the second and third stories on High street is handsome and inviting, and crowned with a tower. In addition to this tower which is in the centre of the building, the skyline is broken right and left by bold breaks along the cornice and walls.

The windows are so arranged as to form a very picturesque appearance as variety of outline is artistically applied forming a continuous block of building which will add to the appearance of High street by a permanent and enduring structure. The building when finished will be the handsomest block in Bellefonte and one the owners may feel proud of. The architect of this building is Mr. P. A. Welsh, of 429 Walnut street, Philadelphia, and the owners are to be congratulated upon the selection of a gentleman of such large ex-

perience and acknowledged ability as an architect. The entire erection of the Arcade will be under the immediate eye and direction of Mr. Welsh, which is every guarantee of a successful and early completion of this work, which will now go forward as rapidly as may be consistent with perfect workmanship. The foundation walls will be started Tuesday morning, this work already being in the hands of Harry D. Verger of this place. The annex to the new Arcade will make a complete front on Water street, in which there is also an entrance to the second and third floors of the building. In the rear of the Arcade will be an Opera House. The entrance and surroundings are so arranged as to accommodate this building, but the work will not be pressed to completion until the Arcade is finished.

—THEIR BUSINESS BOOKING.—Probably no one thing has caused such a general revival of trade at J. Zeller & Son's Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

—On last Sabbath evening, Rev. Snyder of the Reform church of this place preached to a large and appreciative audience, the subject of his discourse was "Success or Failure in Life," his text was taken from Num. 14:28. In the course of his remarks which were very interesting and instructive, he gave some plain yet striking illustrations from the annals of history, how men with a purpose and a determination accomplished arduous tasks, while others with the same capabilities and advantages could not succeed because they looked on the dark side of all their undertakings until failure was written on all their works. His application of these to a christian life were of marked importance and especially to young men. The reverend gentleman will at some time in the future preach a sermon to young men, and as he is an able minister we hope when this is announced the young men will encourage him by their presence.

—A dangerous counterfeit of the silver dollar is made of ground glass combined with tin lead and other metals. Experienced bank tellers say they can not easily detect this counterfeit. These glass dollars are brittle. If held in the palm of the hand and rapped vigorously with the handle of a knife the dollar is easily split. They have the metallic ring of a genuine dollar, are the correct size and nearly the exact weight.

—The Phillipsburg Ledger says on Thursday afternoon, during the heavy thunder storm that visited this neighborhood, a shaft of lightning struck a house at Empire Mine, and Jean Baptiste Boiere and his daughter who were standing in the kitchen at the rear of the house, were knocked down and rendered unconscious. It was first supposed they were killed. Dr. Harman, the mine physician, was summoned by telephone and found that Boiere was partially paralyzed and his nose split open. The daughter, who is only ten years old, has her right side paralyzed, her lungs are congested, and it is feared that she will lose her right eye and perhaps die. They are French people who lately came to this county and cannot speak English.

The same paper is also informed that on last Saturday a week, during the Methodist festival at Port Matilda, Zane Woodring, a young man, son of farmer Jesse Woodring, of near Port, was run into upon a street crossing by a runaway team, inflicting injuries by which he lost the sight of one of his eyes. Strange and sorrowful, the unfortunate young man's brother received a like affliction some years ago from being hit in the eye with a stone.
