

Cuba Conyulsed.

NEW ORLEANS, August 29.—Ad vice received from Havana, via Key West, indicate that that city is on the verge of a revolution, occasioned by the recent acts of Captain-General Marin in taking possession of the custom house and placing the officials under arrest. The city is in charge of regular troops, and the situation daily becomes more desperate, recalling the events attending the massacre of the medical students in 1871. A reign of terror prevails and it is expected that Havana will be declared in a state of siege. Already several conflicts have occurred between the troops and civilians, resulting in the killing of some and the wounding of others. The captain-general has issued his proclamation calling on the rioters to maintain order, and severe measures will be adopted to uphold the law. Daily conferences are held with his military chiefs and measures adopted to prevent a general uprising which is eminent. The colonies of all volunteer regiments were called to gether at the Plaza and ordered to disarm their forces; otherwise they would be held responsible for what might occur. The volunteers, who are opposed to Marin, had encouraged therein by political leaders desirous of his removal, have joined the rioters. Several meetings have been held in the park, where cheers of "Viva Salamanca" were given with cries of "Down with Marin!"

The city is marinated with a call for a general mass meeting in the park and requesting all to bring arms. The call is believed to have emanated from the volunteers and serious trouble is expected. So far the captain-general controls the situation with the regular troops, which have been distributed throughout the city prepared for any emergency. Artillery has been placed in commanding positions, while the troops stationed in the towns adjoining Havana are kept under arms, ready to move at a moment's notice. Those in Havana have been quartered in barracks several days. The battalion of Isabel Segunda and the forces of the queens regiment are under arms at the Cabanas and Castillo Del Principe, and a company of artillery are at the armory in Composita street. Orderlies are hurrying in all directions conveying secret orders.

All confidence appears to be gone. Even the capable officers are suspected, and military are placed in charge to prevent dispatches being sent of what is occurring. All important dispatches between officials in Havana and the authorities in Madrid are conveyed to Key West by special messenger for transmission, the replies being also sent to that office. Those acquainted with General Marin state that he will carry out his policy of purifying public service regardless of consequence, and already a feeling of uneasiness permeates every branch thereof.

Alexander Gonzales Alvarez, independent general of customs of the island of Cuba, has resigned and sailed for Spain. Four custom officers and several other employes passed through Key West last night, en route also for Spain.

DON'T EXPERIMENT.—You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption's Coughs, and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottles at J. Zeller & Son's Drug store. Robbed in A Train.

Two pickpockets who succeeded a few days ago in relieving a Philadelphia gentleman of several hundred dollars were captured in Baltimore on Tuesday are now safe in jail. Watson Rose, a prominent builder, who lives at No. 1811 Marshall street in this city, entered a parlor car on the Reading Railroad at Atlantic City last Sunday night to return to this city. As he passed through the smoking department he was surrounded by six or seven men who seized him and before he could call for assistance or in any way to defend himself his pocket-book containing \$525 in cash and documents worth sev-

eral hundred dollars more, was taken from him. Mr. Rose notified Detective Hamlin of the Reading Railroad, who learned that George Bradley and Richard Griffin, two notorious crooks had suddenly left Atlantic City. He afterwards located them at Baltimore, where he arrested them in the Putnam House on Tuesday night. On Wednesday Mr. Rose and a friend who was with him at the time of the robbery went to Baltimore and identified the men.

Gladstone Moves His Resolution.

LONDON, Aug. 25.—Mr. Gladstone was greeted with cheers in the house of commons this evening, when he arose to move his resolution that a humble address be presented to the queen representing that the viceroy of Ireland has proclaimed the national league a dangerous association, that no information has been furnished parliament to justify the proclamation, by virtue of which her majesty's subjects are to be rendered liable to be punished as criminals, without judicial inquiry into the nature of their acts, and that this house in the absence of such information, prays that such proclamation shall not continue in force as to the association named and described therein.

NEW BRUNSWICK, N. J., August 25.—A colored servant employed in the family of Dr. H. R. Holmes, of Cranberry, was taken suddenly ill on Monday night. The two doctors called could not afford any relief, and on Wednesday morning she died. County Physician Rick was asked to make a post-mortem examination, when he discovered that the woman's heart had split about three-quarters of an inch from the top. She had lived all that time with a severed heart.

Grand Jury Report.

To the Honorable Court of Quarter Sessions in and for the County of Centre: The Grand Inquest of the Court of Quarter Sessions in and for the county of Centre, State of Pennsylvania, August term, 1888. After having disposed of all the indictments presented under the direction of the Court, we have examined the public buildings and find the court room and the several offices and vaults in the basement of the court house to be in good condition. We find the bridge leading from the rear of the Court House needing some repairs on account of some of the flooring being rotten, and we would respectfully recommend the repairing of the same.

We find the water closets at the rear of the Court House to be in a miserable condition, so much as to render it a nuisance, and would recommend the entire removal of it and its contents, and a suitable substitute erected with sufficient drain and water pipes to render it a suitable place for the purposes for which it is intended.

In the case of the county jail we found the part occupied by the Sheriff and his family, together with the Sheriff's office, in good condition, except in the hall under the bath room, where the water has run through from the bath room above and caused the plastering to become loose. We also find a pile of filth and rubbish near the northeast corner of the jail yard, which we think should at once be removed. In the part of the jail occupied by the prisoners we find some of the cells damp and wet, appearing to have been caused by defective water pipes, and we find a damp and unwholesome smell pervading the whole of that part of the building, caused by the want of proper ventilation and lack of attention. The water closets in the different cells are we think, another cause of the condition of building, and would recommend the removal of said water closets. And we also recommend that all the vermin and filth be removed from the building. We further think that a proper water closet should be erected for the use of the jail with proper drainage pipes leading from it to the general drainage pipes of the town. We also recommend some suitable bath room for the use of the prisoners.

—An exchange uses the following pointed and sensible remarks: "Young man, when you jeer at a lady passing along the street or taunt and startle her with your glances, does it ever occur to you that some other scoundrel might insult your sister or your wife, or in coming years, your daughter, in the same infamous manner? How would you like that? Would you think it smart? Would you regard it as merely an evidence of blood? If so, you ought to be knocked from one end of the continent to the other, and horse-whipped back again."

—Items from the Centre Hall Reporter. The borough schools will open Monday September 19, and every boy and girl in town should be there.

Work on the foundation for the new Presbyterian church, in this place, has been temporarily suspended, in view it seems of some changes to be made. Spring Mills excursion to Snow Shoe, which had been appointed for last Saturday did not come off, for what reason we did not exactly learn. Some say because there were not enough

tickets sold, others because of a misunderstanding with the railroad company.

On account of failure of the wheat crop in the valley, our mills must be supplied from other sections. This week nine car loads of hard red winter wheat were ordered from Indiana by Kurtz & Son. This grain they find makes the finest flour and can be had at same price delivered at the mill as grain from the valley.

The next annual re-union of the Centre county Veteran club, will be held in the woods at Coburn station and the folks down there are going to make it one of the best yet held for the boys. There will be a big time, lots of good things for the inner man, and a general good time for the boys in blue and all the rest. The reunion will be held in a few weeks.

We hear from good authority that parties in Bellefonte, in the interest of the Penn. R. R., are negotiating with the Longs for the sale of the cave and hotel property. The difference of a sale is about five thousand dollars, which may be adjusted, in which event the place will become one of the most famous resorts in the state, and a point towards which tourist and admirers of the wonders of nature will wend their way. There is a future in store for that place and should it become the property of the railroad company our prediction would soon be realized.

—The following complimentary circular has been addressed to the National Guard of Pennsylvania. It was issued from Division Headquarters at Philadelphia, on August 16th:

Soldiers of the National Guard of Pennsylvania: You have been assured by the experienced and illustrious soldier commanding the army of the United States, after a personal inspection and review, that you have attained the main object of your past labors in real availability for actual service as a compact military organization. The Major General commanding desires to add to this high professional recognition of the military efficiency of the division as a body his commendation of the hard work and unremitting zeal of the individual officers and men, which have brought about this result, and made each encampment an improvement on the precedent one. The inconveniences overlooked by all and the real sacrifices made by many of the troops to be with their colors, their cheerful submission to necessary restraint, and intelligent acceptance of military distinctions and subordination, and their unflinching performance of drill and camp duties, are best known and appreciated by your commanding officer. He rejoices with you that the hardly won respect of your fellow citizens has quickened, under the influence of your soldierly conduct and the accumulating evidences of your undiminished zeal into a glowing popular pride in the incontestable pre-eminence of the citizen soldiery of Pennsylvania. To belong to the National Guard of Pennsylvania is therefore, now on honor of which all are justly proud and which none may forfeit without disgrace.

Convinced of your intelligence and earnestness, it is scarcely necessary for the Commanding General to caution you not to lose sight, in the general satisfaction, of the many minor deficiencies, known only to yourselves or seen only by professional eyes, or individual duties and ceremonies, which still demand careful study and steady practice. This is the real school of the soldier, and the General feels sure that the knowledge that the reputation of the Guard and the honor of the Commonwealth must, in the future, be committed to those trained in the rank and file of this school, will be certain to enlist the continued efforts and devotion and every officer and man of the command.

You have done well, but you can do better; let your resolve be that no neglect of yours in the present, will leave you in the future, unequal or unworthy to uphold the martial glories and momentous interests of the State or Nation committed to your care.

By command of Maj. Gen. JOH F. HARTMANFF.

G. H. NORTH, Assistant Adjutant General.

A SOUND LEGAL OPINION.—E. Bainbridge Munday Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. An satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: He positively believes he would have died had it not been for Electric Bitters. This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver, and Stomach Disorders stands unequalled. Price 50c, and \$1 at J. Zeller & Son's.

LOCK HAVEN NORMAL.—The fall term of the Central State Normal school opens Tuesday, Sept. 6th. The student who prepares himself

for the work of teaching receives aid from the State. And why should not all prepare to teach?

Everyone, rich or poor, should have a trade.

The ability to teach will answer for a trade.

To those who prepare to teach the State gives fifty cents a week towards defraying the expenses of tuition; and to those who graduate fifty dollars additional.

The day student who attends the Normal two full years and graduates in the profession course, pays, in all, \$105 and receives from the State \$92, so that the net cost for two years of instruction and training is only thirteen dollars.

Again in order to meet the wants of a number of citizens, a College Preparatory course has been established. Students desirous of preparing for college can rest assured that they will receive the best of instruction in the subjects of that course.

NEW YORK, August 28.—Rev. Dr. Joseph Parker, of the City Temple, London, who for years was a bosom friend of Rev. Henry Ward Beecher, and entertained that gentleman and his wife when they visited Europe last summer, arrived here this morning on the steamer Umbria. He was driven from the dock to the Everett House, where he was met by Mrs. Beecher. They breakfasted together. Dr. Parker has come here to deliver a course of lectures. Replying to an inquiry as to what kind of trip he had, the doctor said: "Anything but pleasant." On being asked if there were any truth in the report that he had come in response to a call to fill the pulpit of Plymouth Church, the doctor replied: "None whatever."
