Seven Fold Gibbet.

CHICAGO, Sept. 17. - Preparations were begun to day for the execution of the seven Anarchists in the county jail on Friday, November 11. Sheriff Matson will receive \$700 for that day's work as the county allows him \$100 for every man baoged. Just how the big job will be accomplished has not yet been decided. The three Italian murderers were hanged together on one scaffold, and that bit of enterprise taxed to the utmost limit the existing hauging capacity of the jail. One scheme is to bang the men in pairs, leaving Albert R. Parsons to the last as the seventh or odd man. The law says the men must be executed between the hours of 10 in the morning and four in the afternoon, and it is thought that the intervening time will suffice for the work on this plan. If this mode is adopted the modern weight will be used. Sheriff Matson is opposed to the plan because of the long-drawn out agony of a day's work at hanging, and favors the oldfashioped platform, trap and drop. There is just enough room in the jail corridor to erect an extension gibbet 28 feet long, allowing four feet space for the drop of each body. Seven ropes will hang from the cross-beam which in turn will be supported by five iron arms. The trap will be arranged to drop from a long bar extending the length of the platform, by which the seven traps can be released simultaneously and the Anarchists be all launch-

ed into eternity together. The extension gibbet will be erected privately in some secret place during the next fortnight, and experiments will be made until it works in a satisfactory manner. If the condemned anarchists reallye hope for success in appealing to the Federal Supreme Court, or to Gov. Oglesby, their hope is not shared by Sheriff Matson, Jailer Folz, or State's Attorney Grinnell, and all necessary preparations for the execution of the sentence will proceed rapidly.

Family Burned.

NEW ORLEANS, Sept. 18 .- The grocery tore and dwelling of D. M. Messina were burned early Friday morning and the family of six persons were roasted to death. They were : D. M. Messina, thirty-two years old ; Mrs. Messina, aged tweniy-six; Placide, aged five;

At Humes' Hall on Friday, Sep't 23d, Richard O'Gorman, the brilliant channes er comedian, in conjunction with a number of almost equally clever artists, wild give the first rendition in this city of Frank Dumont's celebrated Yankee comedy. "Human Nature." The piece is said to be one of the most thoroughly amue ing comedies ever presented. It is replete with ludicrous situations and deftly drawn climaxes. It possesses a well conceived and carefully executed plot, and oves with a dash and a vim usually foreign to playsof its kind.

Excellent singing and various other specialties will be heard at frequent inter-vals during the performance. A high kicking oow, an animated calf, and a vi-cious bull will also participate in the programme. The company carries a brass-band and orchestra. The latter being absolutely essential, on account of the difficult nature of the music necessary to the proper presentation of the comedy. "Human Nature" will very likely be largely patronized.

county prison here yesterday morning-While Wardon Kellegher was on the rounds of the corroidors opening the cell doors he came to the one occupied by Elijah Mumma. It did not open with its accustomed ease, and a sudden jerk brought with it the dead form of Mumma. During the night he had made a rope from the sheet of his cot and hung himself to the door. He was from Mt. Carmel, and plead guilty last week to stealing \$450 from William F. Metz, of that place. He afterwards ran away and was tracked to Michigan. The Governor of Pennsylvania said to the Governor of Michigan that it was a long while between boodlers and he was duly returned. The court gave him three years at hard labor. He adopted the only means known whereby Judge was held and the body sent to friends.

Defence of The Coasts.

WASHINGTON, Sept, 18 .- The Naval Board appointed to consider plans for floating batteries, rams and other means of naval defence of the coast, met at the Naval Department yestereday. The law gives them latitude in their work, the object being to get a reliable system of defence for the great cities of the coast against foreign ironclads. A number of plans and letters of inquiry were received and were referred to sub committee appointed to examine them. There are separate boards on special branches of the work, such as torpedo and dynamite board, but this board has control of the general system of defence. There are \$2,000,000 available for "types" of any plan they may recommend, and after these have been decided appar the Loard is to report to Congress, which will decide what further steps to take. Many mavalofficers consider that a complete naval harbor defence is all that is now neccessary and that their is no need to hasten the wark of constructing vessels for offenive mar

Captain, Phythian said that there are more pressing necesity than people imagine for the construction of defences for barbors. Vessels suited for coast defence, would be nothing like as floats used by the Pennsylvania Railbe provided with suitable defences for nor Beaver made an eloquent speech, all work. Justice Mil'er on the Chipago Anarchists.

CHIBAGO, Sep. 20 .- Justice Miller, of the United States Supreme Court, to whom the Anarchists propose to present their case, was interviewed to-day and said: "Such a case is usually taken before one of the Justices, as a rule before the Justice of the district. In this case Justice Harlan should be seen. He is not in Chicago now, but in Washington, where he will remain for some time.
