A. of this place and would be more beneficial and interesting to the public in general than a mock trial. -We tried to organize the borough council on Monday and Monday night, but were just one vote short. We could not figure the other fellows out as they did us in 1876. But coursge Democrats, the longest pole may yet be in your hands.

-The Lock Haven Democrat says: Luther Shaffer has probably had his last airing under the blue sky until the day of doom. When one thinks that ne is not yet 23 years old, one wonders how his life could have been thus wrecked in such a short time.

-A very funny thing, yet often seen, is, the blind making fun of the blind. Such was the case with two men in town Saturday night. They were both blind -drunk and one of them pointed the other out to his friends as such, when he, himself, was in the same boat and sailing down the same stream.

-The Gazette ran short of local matter last week and duplicated the April Court jury list, at the same time telling its readers that local matter had been crowded out but would appear next week, etc. That's an old dedge of our neighbor and one that its subscribers won't stand very long.

-Old Mr. De Long, familiar to many people of Pellefonte since their early childhood, died last week at the advanced age of 95 years, six months and -D. F. Fortney made a strong four days. He was a very remarkable temperance speech in court this week, old gentleman and in a measure bridged over the gap between the last years of the 18th and the last years of the 19th centuries. He lived during the term of every President of the United States: although he did not live through C evelands first term, yet he lived in the time of every President from Washington down. He died at his home in Sugar Valley, Clinton county.

-To the young men who are agitating the organization of a young men's Democratic association, we would say, wait. Come to the meeting of the Club next Monday night and hear its constitution and by-laws read. In the new organization the boys will find full scope for what they desire, and by remaining an integral part will be able to participate in the benefits of the central organization. If it is thought desirable by the young men to organize a marching legion or battalion, it can be done just as well as by a separate and distinct organization. When the new association is in full working order the executive committee or whatever it may be, will be ready to hear suggestions and to advise and consult with the younger members.

-Tuesday was a red letter day for the license court. Promptly at ten o'clock the W. C. T. U. to the number of fifty or sixty filed into court filling up the seats reserved for the grand jurors and the balance were accomodated outside the bar railing. Each lady wore the badge of her order, and a pleasant smile, which seemed to say to the social evil we have you now. Remonstrances were presented against the majority of the applicants, but in few cases were there specific charges of violation of the license laws. The ladies are determined to close up every hotel bar in the county if they can do it. The ladies were expected and of course a

crowd of gentlemen were drawn to the Court House through curiosity to know what the fair sex proposed to do. We rather suspected their object was to over-power the court by their awful presence, and coerce that honorable body into refusing to grant most of the licenses.

-Sheriff Cooke either took or sitempt ed to take improper liberties with Miss Kunes or he did not? The story comes from the girl's mother and from her sister and quite a number of others connected in one way or another with the family. Counsel was employed by the mother to prosecute Sheriff Cooke, but from some mysterious cause, neither Mrs. Kunes nor her daughter put in an appearance, but instead comes an affidavit of Mrs. Gross and Miss Kunes exhonorating Sheriff Cooke. Last week a gentleman connected with both the parties to the scandal made an affidavit A nolle pros will probably be entered in in which he swears that Clara Kunes his case and his speedy discharge may and others told him and his wife substantially the same story that Mrs Kunes told her counsel. Mrs. Kunes the mother of Clara makes no affidavit and why? Clara told her mother the story of Sheriff Cooke's assault, and that lady cannot deny it, and doubtless believes in the truth of Clara's first statement. If Sheriff Cooke is innocent, he should prosecute his slanderers. If he is guilty he should not attempt to shield himself at the expense of the good nature and reputation of Clara Kuues. -In the future prosperity of Bellefonte as in its present and continued growth and increase in populatione vrey young man is directly interested. You cannot wait on the fossils and moss backs to move, nor can you afford to hold back, because that class more than other may be benefited BUY If they have in the past fifty years or even less gobbled up most of the available buisness or manufacturing sites that need not deter any one in this age of steam and electricity. from investing in what remains. You can run opposition in every line of business, to the moss back and fossil and prosper. The general public is discriminating and only patronizes the ante-deluvian, merchant, banker, miller, etc., when it cannot buy of some one else. In the natural course of things the moss back will be gathered to his fathers, the fossil become fine dust and the wealth of both be dissipated to the four corners of the earth, but you can't sit down on the curb stone and wait tor that little millenium. You must be up and doing, taking no notice of the presence of pre-adimate humanity in your midst. When you run across a moss back treat him politely, he has his uses in this world, more, he is a bright and shining example to beshunned. If you want a board of trade Draper, Tourist Agent, 849 Broadway, to go to work and organize it from the New York. younger men and manufacturers. You must do the work of improving, building up and making Bellefonte known to the world yourselves, you can expect nothing from moss backs except discounts, complaints and high rents.

Miles Township School District. The citizens of Miles Township are to be congratulated over the peaceful, happy and sensible termination of the contest they had over the providing of proper school facilities in the dis-

trict. What the school district needs

more than anything else is a good sub-

stantial building containing three or four good school rooms and a good sized room or hall for the accommodation of the schools. This kind of a building, two-thirds and perhaps threefourths of the people of Miles Township wanted, while the other parties desired to erect a small wooden building about one-half mile to the south of Rebersburg which would have destray. ed school in Rebersburg and been the means of retarding the progress and advancement of the schools and pupils. The school board at a meeting held last Saturday by a majority vote, laid on the table the question of building a new, small wooden house at Kreamerville. This action was a great victory for the people as against the school board, which had at one time determined to build at Kreamerville. Rebersburg is to Miles township a centre of population. The school district of Rebersburg as it now exists is about one mile square, the distance to the schools not being over half a mile in any instance. No place in the county affords such a fine opportunity for the building of a school house that would be of so great advantage to the entire school district as this. All that is for the school board to fally size up to the actual wants and needs of the district,

the present and coming generation. Not Guilty.

and their schools will take a bound

forward that will result in great good to

The evidence in the trial of the Klines for robbery closed yesterday forenoon, and after dinner the lawyers began their pless, Mr. Clough spoke first for the defense and was followed by Mr. Hipple for the prosecution. Only the two speeches were made, each gentleman doing his best for his side of the case. His honor, Judge Mayer, then charged the jury in his usual clear and able manner, after which the case was given to the twelve men chosen to decide it. The jury retired at 4-48 o'clock and after deliberating until 9:25 at night gave notice of their agreement. The Court House bell was then rung, the Judge returned to the hall of justice and the verdict was taken in the usual form. It proved to be "Not Guilty."

After the retirement of the Kline jury at 4:48 p. m., a jury was sworn in the horse trading case of E. W. Marks vs. S. Mobly. The case was concluded about 11 o'clock this morning, the jury retiring at that time.

James Kline is still in jail awaiting he further action of the court in relation to the other charges against him. be looked for. Essec Kline is already at liberty .- Lock Haven Democrat. Later information states that both Jim and Essee are free, a nolle pros having been entered as to the other indictment against them.

DEATHS OF TWO ESTIMABLE LADIES.

Margaret Fpangler, or mother Spangler, as she was usually called, an octogenarian of Tusseyville, fell asleep in Jesus on Sune ay evening, February 26th, aged 84 years, 3 months and 23 days. Mother Spangler was the widow of Samuel Spangler who died in 1865. they having been married in 1823. This union was blessed with eight children five of which are known to be dead and the oldest son when last heard from was in Fiorida, but has not been heard from for a number of years. Two of the children namely, Mary and Samuel, are living in Jolliet, Ill. Mother S. was a member of the Evangelical association for about sixty years, and was faithful to the end. and is otherwise improved.

-Peter Herdic, for many years one of the best known and most roundly abused men of this section of the State. died of paralysis in New York last week.

- We see no use in fighting over the organization of the Council, for after it is in working order it just consists of one man, and his front name is Issac Mitchell.

-Three of the DEMOCRAT's staff took it into their heads to be photographed the other day in front of the office, and it was done to perfection. The picture is good boys.

-The Gazette had a lying article about Jadge Mayer and Johnston's trial; now suppose it varies the monotony with the truth about sheriff Cooke and his Marion Township escapade.

- It costs just \$11 32 for a Wilkes-liarre man to get married in New Jerey. Tuis includes the theatre one night and one day's board for two .-Union Leader. He got off easy.

-The Lutheran church did not have a very good house Sanday night, owing to the temperance lecture at the Presbyterian church. The sermon by Rev. Settlemeyer is said to have been good.

-The Alumni Association of the Lock HavenNormal was entertained by Profs Eldon and Dick at the Irvin House in that city one day last week. Milton Furey of Bellefonte was in attendance.

-There are several new projects on fact which will be of great value to the orn, but we have determined not to give suem away lest the moss-backs hould raise the rent again before April lat.

Feidler, it is said went into hysterics about the time Spangler was being sworn in, while the Republican moon had blood on it and Schofield's turkeys gobbled all over town. Another such a strain and the "purifier" will succumb.

-It is expected that the different committees will be ready to report at the next meeting of the new Democratic club, and a large attendance of Democrats is desired. Fifth Tour to Florida via Pennsyl vania Reilroad.

The Florida tours of the Pennsylvania Railroad have taken such a firm hold on the traveling public that the capacity of every one of those previously conducted has been exhaused long before A Sternberg, gentleman, Bellefonte. the demand for accommodations could D W Holt, coal dealer, Philipsburg, be supplied. The rapidity with which the tickets have been disposed of is unequaled in the history of the tourist business, and the demand is yet unsatisfied. In order to afford still another opportunity, the Company has arranged a fifth tour for Wednesday, March 14th. This tour will be conducted under the same direction and in the same satisfactory manner as its predecessors. The party will be carried through by special train of Pullman sleeping cars in charge of the Tourist Agent and chaperon. The route will be by the Pennsylvania te Washington, Piedmont Air Line, via Lynchburg, Danville, Charlotte, Columbia to Augusta, Central Railroad of Georgia to Savannah, and Savannah, Fiorida and Western to Jacksonville. Round trip tickets good for about two weeks, including pullman accomodations and meals en route in both directions and one day's board at the Hotel Everett, Jacksonville, will be Michael Derstine moulder, Centre Hall, sold, as heretofore, at \$45.00 from Philadelphis, and proportionately low rates from other principal stations on the Pennsplyania Railroad system. -Hon. S. R. Peale, whose smiling face and handsome figure is well known to Bellefonters, was in town on Tuesday and looked in upon the license court. The Senator at first thought he had gotten into a church sociable or knitting society as there were so many of Bellefonte's fair sex present.

-If any person went to hear the arguments of the attorneys pro et con on the license question on Tuesday morning and evening, for the fun there was in it, they were not disappointed, as there was considerable amusement. but with all a vast deal of piain truth on both sides. The remarks of Judge Orvis during the evening, will doubtle s put some people to thinking who never thought before, and will give new ideas to others. As considerable feeling has en worked up between the advocates of temperance or prohibition and those who favor the granting of licenses. Everyb dy in town seems touchy on one side or other. After all is said and done, the court will go ahead and grant licenses to the proper persons and at proper places. It is in their discretion proper places. It is in their discretion as Judges and we believe they will exciously.

MOTHER WAGNER.

Mrs. Rachel Wagner, widow of the late Jacob Wagner, deceased, died at her residence west of this place, about five o'clock Wednesday morning, sged a little over 68 years. Mother Wagner's maiden name was Clipgerman, and was twice married, her first husband being Henry Bitner. She was a true and consistent christian lady and was a member of the Luthran church since May 21st, 1838 when she was confirmed and taken into the church by Rev. Anpach-Funeral at Tusseyville Saturday morn, ing, Rev. W. E. Fischer of the Lutheran church officiating, assisted by Rev. Thomas S. Land of the Reformed church. Peace to her ashes.

-We would mildly, but firmly suggest to the borough dads that with the coming of the blue bird and the robin the festive cow be relegated to regions suburban, that the cheerful notes of the little harbingers of spring be not marred by the lowing of kine or the frisky caperings of the early yeal. There are other considerations which should induce our borough dads to call a hait on the aforesaid cow, without putting us to the painful and blushing n-cessity of mentioning it. If you don't want to see the ankles of every lady in town when she is on the streets, remove the cows, that is the ultimatum laid down by the cow and it is found all over town. If we are to make a barn-yard of Bellelonte, we are in favor of putting the siraw stack on the public square. We dislike to see the wives, daughters and aweethearts of our town promenading the streets with gum boots on, but that is the only way they can get about. Stiffen up your back-bone and abolish the outrageous nuisance and your names will be enrolled among your ercise that discretion wisely and judi- country's benefactors, high on the temple of fame.
