EASILY ACCOUNTED FOR

"The success of Baugh's \$25 Phosphate as an excellent crop producer and permanent improver of the soil, is easily accounted for. It is made from the bones of animals, and with special regard to a general adaptability as a plant food."

Every particle of which hence are composed, is a direct food of vegetables. We render this food immediately available in the \$25 PHOSPHATE. Which we claim to be a very special advantage, as it gives the crop an early start and sustains it until fully matured, besides permanently improving the soil.

Having thoroughly tested BAUGH'S \$25 PHOSPHATE, note by side with other makes costing \$10 and \$15 per ton, I am satisfied that Baugh's is the best for best crop as well as permanent results. I had better wheat and cut more grass for two years when I used the \$25 Phosphate. I will use no other kind and advise all farmers to buy Baugh's \$25 Phosphate and see results for themselves on their own ground." JOHN FADDIS.

A Gentle Stimulus.

Is imparted to the kidneys and bladder by Hostetter's Stomach Bitters, which is most useful in overcoming torpidity of these organs. Besides increasing more activity in them, this excellent tonic endows them with additional vigor, and enables them the better to undergo the wear and tear of the discharging function imposed upon them by nature. Moreover, as they are the channel for the escape of certain impurities from the blood, increases their usefulness by strengthening and healthfully stimulating them. In certain morbid conditions of these important organs, they fall into a sluggish state, which is the usual precursor of disease. What then can be the greater service than a medicine which impels them to greater activity when slothful? No maladies are more perilous than these which affect the kidneys, and a medicine which averts the peril should be highly esteemed.
