## HARDWARE BELLEFONTE, PA.

WOLF'S HOME MADE TINWARE.

THE FINEST LINE OF CUTLERY.

### AN AWFUL ACCIDENT.

John Sweeney, Aged 14 Years, Almost Instantly Killed Yesterday.

A terrible accident which was attended with fatal results occurred at J. R. Vaughn & Sons' brick yard, at Allegheny Furnace, yesterday morning. Between 10 and 11 o'clock John Sweeney, an employe of the firm, met with an accident which resulted in his almost instant death. The manner in which the accident occurred is as follows: The deceased was employed as a mould washer, but owing to the weather being rather cool yesterday morning he was not called upon to perform his usual duties, but instead was employed to shovel mud on the belt which is connected with the mud hopper.

This hopper is enclosed within a frame building, and at the time of the accident Foreman John Rumsport and a laborer named Samuel Seeger were employed in shoveling mud into the hopper. A young man named James McManamey, who was employed as a driver for one of the teams, together with young Sweeney, was playing about the hopper when Sweeney slipped and fell down between the cogs of the machine. While the two boys were playing Foreman Rumsport called to them to desist, but they appeared to pay no heed to the warning, and the first intimation of an accident having occurred was made known to Mr. Seeger when he noticed young Sweeney disappearing into the hopper. He reached for him, but only succeeded in passing his hand over his head, the effect of which was to knock the boy's cap off. The poor lad's right leg was ground off up to his body, his intestines thus being exposed to view.

When Mr. Seeger saw the boy disappear he rushed to the door and gave the alarm, which had the effect of bringing the employes of the yard to the rescue. It was too late, however, to save his life.

Coroner Glenn being notified he repaired to the scene, where he empaneled a jury and rendered the following verdict: "The deceased came to his death by accidentally slipping into the mud hopper at J. R. Vaughn & Sons' brick yard."

The victim of the accident was a son of Samuel Sweeney, who also works in the brick yard, aged 14 years last March. Beside his father and mother he leaves three sisters and two brothers. The funeral will take place to-morrow afternoon at 2 o'clock from the residence of the parents at Allegheny Furnace. Services at the house, and interment in Fairview cemetery.—Tribune.

### WRECKED THEN SCALDED.

Another Frightful Railroad Disaster in Ohio. Grand Army Men Again The Victims.

MANSFIELD, O., September 14.—Ankenyton a little station on the Baltimore and Ohio Railroad, 25 miles east of this city, was this morning the scene of the most disastrous wreck that the road has sustained since the awful disaster at Republic 18 months ago. At 5 o'clock this morning the west bound express train consisting of two fruit cars, mail car, combination baggage and express car, two day coaches and two Pullman cars, was wrecked by the mail car jumping the switch.

The mail car, dragged after it the baggage car and two day coaches, struck the engine of a freight train standing on the side track. A moment later the boiler of the freight engine burst and the hot water and steam poured out upon the unfortunate passengers imprisoned in the debris of the day coaches. Many who had escaped injury from the wreck were now badly scalded while those who had been injured suffered additional torture from the boiling water.

### BLOWN INTO PIECES.

Instant death came to Harry Tomlinson engineer of the freight who was

picked up between the tender and boiler of his engine with the front portion of his head blown away. David Wilson, the bagagemaster was found between the tracks with his neck and back broken and his skull crushed. The two day coaches contained 110 passengers mostly members of the G. A. R., and their families enroute home from Columbus. The first coach was completely wrecked many of the passengers being wedged in the debris so tightly they could not be rescued until the arrival of the wrecking train several hours later.

The scene was one of indescribable horror, the moans and screams of the injured making sick at heart the few spectators from the village and adjacent farms who were attracted to the spot, and who gave what assistance they could. As rapidly as possible the injured were removed to farm-houses near by and their wounds dressed by surgeons hurried to the scene from Mt. Vernon, Belleville and Mansfield.

### THE GRIEF OF A MOTHER.

The aged mother of engineer Tomlinson, of Newark, was early at the wreck and her grief melted the hearts of all as she bemoaned the son who was her only support. Breakman Grinsley who was caught between the cars and injured internally, besides being scalded all over, lingered in agony until 3 o'clock, when death relieved his sufferings.

The force of the explosion, which was the greatest death-dealing agency of the wreck, was terrific. The dome of the locomotive, weighing over 200 pounds, was hurled high in air and came down 200 feet away, crashing through the top of a fruit car. The engine pump was blown into the top of an apple tree in an orchard 100 rods away, where it lodged covered with the blood and brains of Engineer Tomlinson.

Such of the injured as could stand transportation were taken to their homes in the sleeping cars, which were undamaged, and the rest are cared for at farm houses in the vicinity of the disaster.

### Maine Returns.

LEWISTON, Me., Sept. 12.—The Journal has returns from 450 Maine towns, which affords a more complete estimate of the figures than any which have yet been furnished. These give Burleigh, 77,277; Putnam, 58,594; Dushing, 2,898; Simmons, 904; Republican plurality 18,682; majority, 14,483. The same towns two years ago gave the following vote: Bodwell, 67,242; Edwards, 52,617; Clark, 3,823. Republican plurality, 14,615; Republican majority, 10,882.

This indicates that when the complete returns are in the Republican plurality will be 17,080 votes, if the same ratio of Republican loss from the vote of 1884 is kept up. But the loss is greater as the lack towns report and it is more than likely that the Republican plurality will not reach 16,000 and that the majority will not exceed 12,000. If the remaining 52 towns have voted the same as in 1886, the plurality will be 15,315, and the majority 11,515. The Republican loss in the state on the majority of 1884 is from 3,000 to 4,000 votes, if the Journal's returns are correct. The Journal is a Republican paper and the organ of ex-Governor Dingley congressman elect. In the towns to be heard from the Democrats had 1,765, plurality in 1887 and 1,250 in 1884. The Republican vote in the state has been increased from 77,776 in 1884 to 79,077 and the Democratic from 58,071 to 62,115. This is based on the foregoing returns and close estimates of the vote yet to be returned from the 52 remaining towns, which will aggregate about 7,000 votes. The prohibition and scattering vote will reach about 4,000 or 853 more than in 1884 and 108 more than in 1885. The Democratic increase over 1884 is 7 per cent. The Republican increase over 1884 is 14 per cent. The Democratic increase over 1885 is 17 1/2 per cent. The Republican increase over 1885 is 14 1/2 per cent.
