Suppose that Chief Marshall Munson and 2nd assistant Yerger were away during a fire, are our people to draw the confusion that the Logan boys would disobey the orders of the First Assistant Marshall? It is due to the council and to the citizens of this borough to know whether the position of the Logan hose company as stated in the News is correct, and it is the duty of that company to define its position if misstated.

-Despite the efforts of monopolistic and trust inspired orators and a subsidized high tax press to alarm the country business in every branch of industry goes right along. It is true that high taxation goes with it, but that is an evil for which the tariff reformers are not responsible. The industries that are the flatest are those on which a heavy burden is laid by reason of a tax on the raw material. It is folly to suppose that those machinery and our shilled labor can compete successfully with the same in dustries often employing American machinery, with free raw-material and cheap labor. The efforts of high tariff advocates to cripple American industry during the campaign and charge the pression to the operation of the Mills bill which never became a law is entire ly too transparent. People at this late period of the 19th century cannot be deuded by such tricks.

Look Out for Them.

An exchange says that a couple of sleek-looking individuals are going about the country swindling township treasuries out of sums of money ranging from \$12 to \$50, on the pretense of repairing black-boards in school houses, only desiring the official's order for performing the work, which turns up in a few days as an order on the township's treasury, properly signed and cashed by an innocent party.

A Girl's Composition.

Several good compositions written by boys on the subject of girls are going the rounds. Here is a little girl's composition on boys, in which she shows that her sex, no matter how young, can get ahead of the boys, every time: 'Boys are men that have not got as big as their papas, and girls are young women that will be young ladies by and by. Man was made before woman. When God looked at Adam He said to Himself, 'Well, I guess I can do better if I try again,' and then He made Eve. God liked Eve so much better than Adam that there has been more women than men ever since. Boys are a trou. ble. They are wearing on everything but soap. If I had my way half the boys in the world would be little girls. and the rest would be dolls. My papa is so nice that I guess he must have been a girl when he was a boy."

George W. Spangler.

George W. Spangler, Esq., whose death we briefly noted in yesterday's Herald, had been ill from lung trouble for several months, the result of internal injury caused by an accident while horse-back riding some years ago. Three years ago he went to Huntingdon and read law in the office of District Attorney Orlady and was admitted to the bar one year ago. He was 28 years of age and was married to Miss Kitty Murray in July last.

The members of the bar held a meeting yesterday and passed resolutions of respect. Judge Furst presided at the meeting and J. B. Rex, Esq., was secretary. Judge Furst referred to the deceased in very complimentary terms, and among other things said that he was a gentleman of energy, integrity and honor, who had the elements of a lawyer and would have been an honor to happiness, both are well known in town the bar of Huntingdon county, which and have many friends and realatives has been noted for its distinguished members for nearly a century. Hon. R. M. Speer spoke of the manliness, application and energy of deceased, who would have been an honorable antagonist had he lived. Mr. Spangler was next to the youngest member of the Huntingdon Bar Association and the

first that died since its organization. He was known to many of the Herald readers as a first rate young man, who was active in the community where he to take interest in debating societies and everything that was going on of value to the young or old. The funeral took place this afternoon at 2 o'clock at Huntingdon.-Tyrone Herald.

Narrow Escape from Drowning.

The venerable George W. Youngman, of Newberry, while attempting to ford Lycoming creek, near Good's mill yesterday morning, came very near being drowned in the high waters. His bug. gy overset and his horse fell down and all three were washed down stream by the currant and deeply submerged. Finally Mr. Youngman, says the Sun and Banner, gave a leap and landed on Wilson, Ed. McCloskey, Singleton Bell, the back of the horse and broke the rein John Farrel and George Moore, it should at the animal's head, thus alowing the horse to keep his head above the water and saved the animal from drowning. Seeing that the horse was unable to get the pictures by the names of the several to land Mr. Youngman jumped into the candidates. We know personally the water and swam to shore, having his heavy coat and other cloathing on to impede his progress. But it was his only chance of saving his life as he had no other means of escape from certain death. The horse remained in the creek, with his head above the water, until a man went to his rescue and landed him safely on shore. Mr. Youngman had a narrow escape from drowning and only saved himself by his prompt action and skill as a swimmer.

Mr. Smith was a foreman for Hoover, Hughes & Co., in the erection of the Pennsvalley Banking Co's building, the big hotel at Cresson, and many other of the large structures which they built.

The Cleveland and Thurman club, of Gregg township met at Spring Mills, last Friday evening, and was addressed by J. R. Kauffman, of Sunbury, and your honorable townsman D. F. Fortney. The Spring Mills Cornet band furnished the music for the occasion.

The Banner School District.

Some time ago the Gazette was boast-

ing that the Baileyville school district of Ferguson township, was the "banner school district of the county-claiming it had thirty voters in it and all for Harrison and Morton. A short time ago some of the citizens of this district asked the school board of Ferguson to furnish the Baileyville school house with new and improved furniture. The board considering the furniture sufficiently good enough for some time yet as the house was comparatively new, refused to gratify their desire. One night last week some person or persons of this loyal district, broke into the school house and broke up the furniture. tore up the floor and totally demolished the interior of the house. We presume the correspondent of the Gazette from Baileyville had better devote some of his time to converting some of the members of this banner district to good citizenship and protection to public property instead of so much political enthusiasm and protection to American monopolists. The school board offers a reward of ten dollars for any information that will lead to the conviction of the person or persons who committed such an unlawful deed. CITIZEN.

A Judge's Strictures on Promiscuous Immigration

Judge Butler, of the United States District Court, Philadelphia, in imposing sentence upon an Italian a few days ago, for passing counterfeit money, availed himself of the occasion to express a few wholesome views on the evils of promiscuous immigration, which is so rapidly filling up our country and bringing so many unpleasant consequences in its train. He said: "It is to be regretted that so many foreigners are of your class. The old countries seem to empty themselves of such men upon our shores. They appear to have little or no regard for what is wrong, and come over here and impose upon other foreigners who are, perhaps, not as shrewd or sharp as themselves. I have had over thirty years' experience, and judging from my own knowledge, more than two-thirds of the crimes committed in this country are committed by foreigners. I am very sorry to see this state of affairs, and I think some measures ought to be adopted restricting immigration by which we can keep free from such men as the defendant. I hope that the time will soon come when in some way the American people will be protected from damage brought about by the importation of such men as this man."

THE GREAT INDUSTRIAL EXPOSITION

to be Held at Richmond, Va.—Reduced Rates via Pennsylvania Railroad
