—If the imposition of a duty increases the cost of any article to a consumer, how do the free traders account for the fact that every article on the tariff list, except possibly foreign wines and liquors, cost the consumer less at the present time than it did before the tariff was imposed, or under the action of free trade? Take an article: calico under free trade cost from 15 to 25 cents per yard, under our present tariff or protection it can be purchased for 5 cents.—Gazette. 1st. There never was free trade in this country so that our neighbors premises are wrong. 2nd. When calico was 15 to 25 cents per yard war was on our hands and the supply of cotton was short. 3d. The improvement in machinery has enabled both the cotton raiser and the manufacturer to produce their products at much less cost than heretofore. 4th. Because the high tariff has enabled the cotton manufacturers as every other manufacturer to scale down the wages of his employees. 5th. The raw material in the manufacture of cotton goods is free. These and a dozen other good and sufficient reasons might be given for the cheapness of calico and articles the raw material for the manufacture of which is on the free list.

—People who think that an advertisement of three months standing is going to make them rich, make a mistake. Advertising is like eating. If you want to be healthy you must eat regularly, as a meal to-day will not serve you for to-morrow. To be well and hearty, eat at every meal time—to be prosperous in business, advertise regularly. Stop the one and you starve and die. Stop the other and your business takes consumption and die also. Spasmodic advertising is like having a "feast and a famine" more famine than feast, as a rule—and is never satisfactory. To take out your card in dull times is like killing your horse because he is a little lame. It is in dull times the most advertising should be done, and it is in dull times it is the most effective, as more notice is taken of printer's ink then than at an other time.

It is stated, says the Renovo News, that an order has been issued from the general office at Corning requiring trainmen on the Fall Brook roads to hereafter report every passenger who is intoxicated or who has been drinking. Failure to report may result in dismissal. It is the general opinion that this order will be exceedingly hard to live up to.

—The real and veritable Mary, says the Tyrone Herald, who had a little lamb is still living, a vigorous old lady of 82. Mrs. Mary E. Tyler, of Somerville, Mass., when a girl, raised a lamb from birth and it followed her like a dog and finally died in her arms, having been gored by a cow. The three most familiar verses were written by John Roulstone, a young man living in the neighborhood, but when a fund was being raised for the Old South Church, Boston, two other verses were added and sold with bits of the lambs fleeces. In this way the ditty rapidly gained notoriety and spread over the country.

—Phillipsburg should have free delivery by all means. Our population and the vast amount of mail that arrives here each day certainly warrants the government in granting us this improvement.

—Why not let Phillipsburg have a free delivery, those people haven't asked for anything for some two or three days. A free delivery, artillery and numerous other improvements would fix the town up in good shape, and then brother Bair would be a happy man. Give them free delivery.

—By the indictment of Wilson and Chorpez, of the "Fernwood gang," for the Sharpless murder nearly three years ago, a new aspect has been given to the case of Johnson, the man whom an unprejudiced jury had convicted of the crime. His life will now probably be prolonged until this latest piece of sensationalism in connection with the matter shall be run to earth and found to be either fact or delusion. It is somewhat remarkable, in view of the incessant and tremendous exertions that have been made on behalf of this criminal, that public opinion—especially in Delaware county, where the facts are familiar to the people—should still point unwaveringly to Johnson as the guilty one. Persistence and skill in legal fencing, however do not appear to meet in this instance with that appreciation which so often follows brilliant effect in any cause however hopeless. The people of the communities most directly interested in tracing and punishing the perpetrators of the crime have seen no reason as yet for withdrawing their approval of the verdict in Johnson's case.

—Jno. C. Johnston, of Snow Shoe, superintendent of the Grauer mines at that place, was a visitor in our town last evening. Mr. Johnston is a clever and sociable gentleman and we hope he may be a more frequent visitor in the future.

—The tower of the Presbyterian Church, is being patched up again. The cheapest and best way to repair that part of the church building would be to tear it down and rebuild it from the base up with a stone that would stand the weather.

—The old man invaded the parlor Maria and her fellow occupied one end of the little sofa. "Young man, I'm a Democrat and agin' Trusts; I allow no concern to get up a corner on my gal. I don't believe that Trusts are private affairs. Vamoose!" and he vamoosed.

—The Columbia Herald comes to us this week elegantly illustrated with cuts of the public buildings and prominent business men of that town and an account of its foundation growth and prosperity. Columbia is one hundred years old and celebrated its Centennial Anniversary last week in grand style. The buildings of the town compare favorably with those of any other town in the state.
