WEEPING OVER PARSONS' LETTER

Mrs. Parsons and Nina Van Zandt Were Not Present-The Bands Played Dirges, Children Sang Sorrowful Songs and Speakers Harangued.

CHICAGO, Nov. 12 .- Between 4,000 and 5,000 men and women braved the bleak November wind and stood for two hours on the sod in Waldheim cometery yesterday to do honor to the memories of Spies, Parsons, Engel, Fischer and Lingg. Abst of the women were in deep mourning, while the men had crape bands around their coat sleeves or hats, or badges of the same material upon their breasts. Five out of six displayed a red satin ribbon, the symbol of revolution. As a result of the ultimatum of Mayor Roche, there was no parade in the city, al though about 150 members of Labor Assembly No. 1, of the Knights of Labor, formerly known as the "Albert R. Parsons" assembly manched in a body from their hall to the Wisconsin Central depot. At the latter place a number of policemen in civilian attire min-

gled with the throng.
Police Lieutenant Wilson, who was also at the depot, had received orders to suppress any display of flags at half mast, attemp parading or playing of funeral music, but there was no effort looking toward a demon-stration within the city limits. The early train was packed with people bound for th etery, and at noon two special trains, one of fourteen and the other of sixteen coaches were called into requisition to transport the

crowds who besieged the depot. It was 2 o'clock when the formal exercises at the cemetery commenced. Previous to this a number of magnificent floral offerings had been placed upon the five graves. The various organizations formed in line on the road outside, and marched into the cemetery in regular flie, preceded by a band of music playing a funeral dirge. The speakers' stand was profusely decorated with firs, smilax and red ribbon, and was located a few feet from the grave lot of the dead Anarchists.

The mother of August Spies, her two sons and daughter, Mrs. Engle and her family, and the two little children left by Parsons occupied a space near the speakers' stand reserved for the relatives of the dead and im prisoned revolutionists. Nina Van Zandt, Mrs. Parsons and Mrs. Fischer were conspicuous by their absence. The first is in Penn sylvania, Mrs. Parsons in London and Mrs. Fischer in St. Louis. The assemblage was called to order by George A. Schilling, who reminded those present that they had met together on that beautiful autumn day to elebrate the death of five American heroes and Robert Reitzel, editor of Der Teufel of Detroit, delivered a brief address in German. He enlogized the executed men and the cause

for which they died.

He said that their teachings were those of Thomas Paine, the same that actuated the people of the United States in rebelling against Great Britain, and pointed to the demonstrations held Saturday and Sunday in New York, Pittsburg, St. Louis, Cincinnati, Detroit and other American cities, as well as Detroit and other American cities, as well as in London and Paris, as a proof that the dead men were remembered and the cause of Anarchy growing. When he had concluded fifty pupils of the Northwestern Socialist Sunday school, boys and girls, sang in Ger-man the song, "Fer Truth and Right." Then, with a letter in his hand, George Schilling steroed forward and read the letter.

Schilling stepped forward and read the letter written by Parsons to his children with the injunction that it was not to be opened until the first anniversary of his death. Schilling broke the seal with a trembling hand, and enced to read with a voice choked with

The effect of the first few sentences upon the audience was electrical. Tears began to roll down the faces of the men and w and before the reading was completed it seemed as though one weird sob and moan from thousands of throats was mingling with the waising of the wind as it swept through the leafless branches of the trees. The letter

in full reads as follows:

ALBERT R. PARSONS.

The weeping and sobbing continued for some minutes after the reading had concluded, when 500 voices of the United Mannerchor sang "At the Grave of Our Friends." Other addresses followed in English and German, and after a final song by the Manperchor the exercises closed, and the crowd quietly returned to the city.

ROCHESTER, N. Y., Nov. 10.—The most disastrous and fatal fire that has happened in this city for many years occurred last evening, and the loss of life is expected to reach between fifty and sixty persons. A general alarm was sounded at 7:30 o'clock, on fire being discovered in the packing room of the Rochester steam guage and lantern works, an important factory employing a large number of men. So busy has the factory been lately, the men have been working night and day to catch up on orders. The locality where the fire occurred is regarded as somewhat dangerous, and when he report got abroad that the lantern works and the cotton factory in the vicinity were on fire there was intense excitement all over the city, which was increased when at 9

o'clock the rumor got abroad that a large number of men had been killed. The building to which the fire was confined was six stories high. About sixty men were working on the three upper floors, and as soon as they found there was fire underneath them they began to leap from the windows, ignoring the fire escapes, with bal-conies that were ready for them on the south side of the building. In these leaps quite a number of men were injured, many of them so seriously that they will probably die. By 9 o'clock the building was entirely destroyed. Five men were taken out dead, sixteen seriusly injured, fourteen were entirely safe, and the rest unaccounted for, of whom quite a number are unknown by name.

The scenes at the fire were heartrending, and prominent among those who were present after the fire were three priests in their surplices, who administered spiratual canfort to those who were in a dying common. The factory was built on the high bank

on the west side of the Genesse river, and was a difficult one for the firemen to get at, owing to one side being entirely closed to them.

Ground Shaken as if by an Earthquake. Distressing Scenes in a Little Kansas Town-Rescuing the Victims-Cause of

Pririssung, Kan., Nov. 19.—The worst dis-aster in the history of Kansas occurred last evening, and the town of Pittsburg is in tears. One hundred and sixty men were sent into eternity at a moment's notice. It is the most horrible mining disaster that ever happened in the state. The miners working at shaft No. 2 at Frontend, a suburb of this city, and just entered the shaft for the night's work when a terrific explosion occurred. The shock was tremendous. For miles around the noise of the explosion was heard, and its force shock the earth so that it seemed as if an earthquake had taken place. There were 160 men in the mine at the time. They were 112 feet balow the surface. There is no doubt

When the smoke and debris had somewhat passed away it was seen that the shuft was entirely closed up by the cave in. There was no chance for the imprisoned men and no hopes are entertained of their escape Two men had just come up in a car, and these are the only ones saved.

The terrific explosion causal a panic in the city, and immediately all the citizens rushed to the mine. The scene there was heartrending in the extreme. Women and strong men shed tears. Some of the wives and children of the doomed miners broke forth in loud lamentations and uttered piercing shricks and cries. "Oh, John! John! Where is my husband? I know he is dead," frantically screamed one poor woman with a babe at her breast. "Save him! Save him!" she exclaimed in her agony. Then the babe dropped from her arms and she fell in a

Thirty-six bodies were found on the north and west sides, where the work of rescue had to be stopped until other parts of the mine could be strengthened so that it could be explored for the remaining victims. It will probably be three or four days before the bodies can be recovered, and many being burned be-yond recognition, a full list of the names will never be learned. The butcher must first have choked his victim or stunned her by a blow on the head. When she was unconscious he brought into requisition the keen knife used by him in his previous atrocities. First he severed the head from the body with all the skill and dexterity of a practiced surgeon. The forehead was slashed and targe patches of skin cut clean off that portion. The checks were then slashed and cut in the same horrid fashion. Having completed the horrible mutilation of the severed head of his victim, he devoted his flendish attention to the other portions of the body. With a single slash of the knife he laid open the abdomen of the victim. Then, with the skill and delicacy of a surgeon, he disembowed the unfortunate woman and laid the intestines across the chest. The flesh of the thighs was cut and hacked in fearful shape.

To complete the horrible sight he took the fearfully mutilated head of his victim and placed it under one of the arms of the woman. The other arm he drew across the body and placed her hand in the pit of her stomach.
