MASON & HAMLIN

The cabinet organ was introduced in its present form by Mason & Hamlin in 1811. Other makes followed in the manufacture of these instruments, but the Mason & Hamlin Organ has always maintained its supremacy as the best in the world.

Mason & Hamlin Organ, as demonstrated at the unequalled excellence of their organs, since that of Paris, 1831, to the present time. In all countries, they have been invariably selected as the highest quality of organs. Illustrated catalogue \$25 TO \$1000, free.

Mason & Hamlin do not hesitate to make the extraordinary claim for their organs, that they are superior to all others. They recognize the highest excellence achieved by other leading makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable improvement introduced by them in the year 1830, and now known as the "Mason & Hamlin Grand Piano."

Their organs are the most perfect and most reliable of any ever made. They are sold by all druggists.

PIANOS

A church, consisting of ten organs from three hundred to five hundred dollars, and upwards, with other important advantages.

Patent and Organ and for each of the many reasons, also sent.

MASON & HAMLIN ORGAN CO., NEW YORK.
