NEW YORK, Nov. 9.—The campaign is over, the election of Gen. Harrison as the twenty-third president of the United States is conceded by the Democratic national committee, and the headquarters of the commit-tee, at No. 10 West Twenty-ninth street, are closed. Chairman Brice has authorized the following statement:

"The National Democratic committee today concede the election of Gen. Harrison. When the National Democratic committee claimed the state of New York, on Tuesday evening, by 10,000 to 15,000 majority, the figures of the returns then received fully justified the estimate. The reports from New York city and from large communities in the interior of the state showed large Democratic gains, and the fisrt reports from Brooklyn were to the effect that the majority there was 19,000. The telegraph wires were very crowded, and the transmission of the com-mittee's bulletins to the west was considerbly delayed. There is evidently a misapsion in some parts of the west as to

the type at which this dispatch was sent." The Republican national executive com-mittee express the belief that West Virginia has given her electoral votes to Harrison; that Indiana and California are sure for the that Indiana and California are sure for the Republican ticket, and that without New York Harrison is elected. They have, of course, no doubt about New York, and say that Harrison will have the biggest vote in the electoral of any president for twenty-five years or more. The committee will maintain their present headquarters for the balance of the week, and Messrs. Quay and Dudley will probably not return home before Sunday.

LONDON, Nov. 13 -- Several arrests have been made in connection with the White-chapel mystery, but all the mon taken into cust dy were speedily released, no evidence being at hand against them. Late Sunday night a man who was publicly proclaiming himself to be "Jack, the Ripper," was arrested. He asserted that he is a doctor at St. George's hospital. It required a squad of policemen to protect him from the crowd. who tried to lynch him. The man is detained in custody for the present.

A letter from Sverdrup, who accompanied Dr. Nansen's expedition which is exploring Greenland, says: "The journey from the east coast to Godthaab occupied forty-six days. On the east coast considerable difficulty was experienced, owing to the ice packing and to the strong current. We worked twelve days before reaching the coast, and then landed sixty miles farther south than we calculated. We traveled on the inland ice in the direction of Christianshaaf. Beginning on the 15th of August, when we had arrived at a height of 7,500 fest, a snow storm from the north forced us to make for Godthaab. The greatest height reached was 10,000 fest, where the thermometer marked 40 to 50 degs. When we arrived at a fjord, a boat was built partly of tent convas, in which Dr. Nansen and I rowed in four days to Godthaab."
