William Showers Pays the Cenalty for the Murder of his Grandsons

Wednesday last William Showers, a German aged sixty years, was hanged at Lebanon for the murder of his two little grandsons near Annville on the night of May 16, 1887. There was a sound of falling props during which the old man's legs were observed to tremble violently. There was a sharp snap of we find here? In the city of Providence own grief. High comedy has furnished through the wall, but he did not go far, the spring, the doors of the platform parted and at 11:08 William Showers had paid the death penalty. In the drop the knot of the noose slipped up under the left ear, pulling with it the white cap and exposing the neck and ear. The crowd was silent as death as the body spun around a couple of times and then was still, and then a cry from a hoodlum on the housetop broke the stillness by an gamouncement to the crowd below of "The drop's fell! He's one." There was a pressure toward the scaffold as curious men sought to get a better view of the lifeless figure. A woman on the housetop leveled her opera glass at the inanimate form of the little old man, and the photographer near her "took" another picture. Fifty watches were out to note the time of the cessation of the heart beats, which did not occur until the expiration of seventeen minutes, according to half a dozen physicians who alternately felt his pulse or laid their ears to the old man's heart.
