PHILADELPHIA, Dec. 29.—The dynamite cruiser Vesuvius left Philadelphia Thursday to make a second test of her speed. She returned yesterday afternoon.

The following is the official report made by

a government expert, and was approved by the Messrs. Cramp and all the supervisors of

"The Vesuvius returned to Cramp's ship-yard at 1 p. m., Dec. 28, 1888, from her second trial trip. She made a run just before dark Thursday night under very unfavora-

VESUVIUS. ble circumstances, the wind blowing a gale and an unusually heavy sea running. Under these disadvantages—she—made a mean speed of 19,59 knots in two runs over a two knot course. The disadvantage of the heavy sea was much aggravated by the shallowness of the water on the measured course. It was also conceded on all hands that the water on the measured course is much too shallow to give the vessel a fair chance within at least

half to three-quarters of a knot per hour. "Yesterday she started to make another run, and had gone over three-fourths of the course in the first run at the rate of at least 21 knots, when one of the air pumps connecting levers broke, which necessitated the shutting off of that engine, and the re-mainder of the run was made with the other engine alone. Under that disadvantage her speed over the whole course was 19.47 knots per hour. Thereupon the trial ended."

The Messrs Cramp announce that they feel in duty bound to give another test of speed of the Vesuvius, but they will ask that the course be chosen farther down the bay, near the Breakwater, so that a clear way and an ample depth of water may be had, with every chance of the vessel to show her very highest speed. They have no doubt whatever that the Vesuvius will in every way prove superior to her contract specifica tions, and they are particularly desirous of showing that she is the fastest vessel afloat.

ANOTHER ENGLISH HORROR.

The Body of an 8-Year-Old Boy Found Frightfully Mutilated.

LONDON, Dec. 31 .- A murder equal in atrocity to those committed by the White-chapel fiend occurred at Bradford, Yorkshire. The victim was Johnnie Gill, an 8-year-old boy. When the lad failed to re-turn home on Thursday evening his parents became alarmed, and reported his disappearance to the police. The next day his mutilated body was found in an outhouse a mile from the place where he was last seen alive.

The body had been disemboweled in the manner made shockingly familiar by the Whitechapel flend. The heart had been torn out entirely and hung upon the throat, and both boots had been taken off the lad's feet and thrust into the gaping body. Both arms and legs had been roughly chopped off and tied to the body by means of the suspenders worn by the child. The face and body generally were backed as if in wanton brutality. There were other mutilations

which cannot be described here. A comfortable theory which the local police profess to entertain is that this fiendish murder was the work of drunken lads whose imaginations had been influenced by the trocities; but it is incredible that any one but a strong nerved man could have muti-

The police have received and traced to ing, and the calendar, astronomical cal-their origin letters which lead them to believe culations, chronological items, &c., are that "Jack the Ripper" is living in the vicinity of Drury Lane. They do not accept the theory that the Whitechapel flend had

BURNING OF THE BRISTOL.

The Magnificent Sound Steamer Is Totally

NewPort, R. I., Dec. 31.—The steamer Bristol, of the Fall River line, was found to be on fire at 6:20 a. m., and in a short time was destroyed. No one was injured, though a few Newport passengers who had remained in their staterooms to await a convenient hour for rising had narrow escapes, and some of them lost all their clothing. All the bag-gage, however, was saved. The steamer's freight had also been landed before the fire broke out. The Fall River and Boston passengers had all departed, the last train leav-

The fire started near the kitchen, and spread very rapidly. The fire department of Newport, together with the police force, exerted themselves in every possible way to check the flames, but the joiner work of the staterooms, saloon and stairways was as dry as tinder, and draughts through the steamer caused a fearfully rapid spread of the flames, so that before the fire department arrived there was a mass of fire sweeping her almost from stem to stern.

The Bristol was built twenty-two years ago, at a cost of nearly \$1,000,000, to run to Bristol in opposition to the Fall River line. When Jim Fisk got control of the Fall River line he bought the Bristol. The Bristol was insured for \$450,000, but her insurance was but \$300,000, which General Manager Kendrick says will nearly cover the loss.

Industrial Progress.

New York, Jan. 1.—The following summary shows the progress of the manufacturing industries of the country, including incorporated companies, buildings, etc., as reported to New Enterprises (newspaper), for the week ending Saturday:

Buildings costing over \$5,000 each, \$53.. \$7,868,634 Electric light companies and new plants 1,045,000 Manufacturing companies, 70.
Mills, factories, etc., 97.
Mining companies, 13.
Railroad and extensions, 6.... 2,977,000 11,550,000

A Defaulting Bank Cashier.

LANCASTER, Pa., Jan. 1.-At a meeting of the directors of the Wrightsville National bank, George R. Sheneberger, the cashier, acknowledged that he had overdrawn his ac-count to the extent of \$1,200. He said he count to the extent of \$1,000. He said he had become involved through indorsements for a relative. The directors have taken no action as yet. Sheneberger is sick in bed. He was treasurer of the Wrightsville Grand Army post, and has appropriated \$650 of the post's funds. His bondsmen have made good the loss to the bank, and he is no longer in the latter's employ.

Engineer and Fireman Killed.

MARSHALLTOWN, Ia., Jan. 1.—The passenger train east on the Milwaukee road struck a broken rail five miles east of Tama. The engine tipped over, and was badly wrecked. Engineer Nichols and Fireman Francis were instantly killed. None of the others were

DEGISTER'S NOTICE -The following accounts have been examined passed and filed of record in the Register's office for the inspection of heirs and legatees, creditors and all others in any wise interested and will be presented in the Orphans' Court of Centre county, on Wednesday, the 30th day of January, A. D 1889, for allowance and confirmation.

CATARRH,

Catarrhal Deafness and Hay Fever. A NEW HOME TREATMENT.

A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and custachian tubes. Microscopic research, however, has proved this to be a fact and the result is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—For catarrhal discharges peculiar to females (whites) this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Son, 304 West King St., Toronto, Canda.—Scientific American.

Sufferers from catarrhal troubles should read the above carefully.

THOMPSON & CO. Genuine Old Process

OILCAKE MEAL

OIL MEAL AS STOCK FOOD.

There is no better or cheaper food for MILCH COWS. It increases the quantity and quality of milk more than any other feed. For fattening Beef Cattle it surpasses all other food, ma'ing the meat more tender and juicy. No food known will fit CATTLE as rapidly for market as Oil Meal. For HORSES, a small quanti-ty can be fed daily with valuable results, and for Sheep. Hogs, Fowls, etc., it is an exellent food, keeping them in a healthy condition, making fine, palstable meat. We manufacture by the Old Process-

steam heat and hydraulic pressure. Well settled Linseed Oil and fresh ground Oil Meal always on hand. Write for circular and prices. Send your orders to THOMPSON & CO.,
