THEY AGREE TO FIGHT.

Kilrain's Representatives and Sullivan Approve of Articles.

TORONTO, JAR S --John L. Sullivan, ac-companied by Jack Barnett, of Boston, ar-rived here at 11:30 and proceeded on foot to the Rossin house, followed, by an admiring throng. The principals, Charles E. Davies and W. E. Harding, representing Jake Kil-rain, Charles Johnston and John L. Sullivan, prepresenting the letter and E. A. Binston representing the latter, and E. A. Piummer and W. H. Germaine, at once adjourned to a om to arrange the terms of the proposed

An additional \$5,000 will be put up in New York on the 15th of April. The referee could not be fixed upon, and it was agreed to appoint him at the ring side. The final stakesolder is not yet chosen. Harding said that the papers would probab y not be signed in Toronto, through fear of the law, but they would be signed in Hamilton or some other Canadian town. Harding will remain here for a day or two. Sullivan and his party left on the 2:50 train.

BOSTON, Jan. 8 .- Capt. Cooke, of The Police News, received a letter signed by four prominent men of El Paso, who offer iducements to have the Sullivan-Kilbig in rain fight take place there. They offer to deposit \$10,000 to have the fight to a finish take place there, asking gate privileges and all attendant privileges, and guaranteeing immunity from molestation, and intimating that the railroads will make special rates. The \$10,000 can be added to the stake money. It was the intention of the pugilists and their friends to have it stipulated in the articles that the fight should take place within 100 miles of New Orleans. The offer of the Texas gentlemen will be brought to the notice of the pugilists, and there is little doubt that they will accept. The letter is signed.

"RED NOSED MIKE" REARRESTED.

Re Confesses to the Marder of Paymaster McClure and His Body Guard.

POUGHKEEPSIE, N. T., Jan. 5 .- One of the men who aided in the murder of Payster J. B. McChare and his assistant, Hugh Flanagan, near Wilkesbarre, Pa., a short time ago, and roboed them of \$12,000, has been arrested, and has made a confes-sion. He is an Italian, and is known as "Red Nosed Mike." He was arrested in Philadelphia on suspiciou, but there was not sufficient evidence to hold him. He came from Philadelphia to this county and got work on a new railroal connecting with the Poughkeepsie bridge. A Pinkerton detective disguised as an

Italian laborer came here and secured work alongside of him. He got enough informa-tion from Mike to variant his rearrest and induced him to visit Pailadelphia again. The two men went there Wednesday night of this week. Then Mike was arrested and he made a confession of the crime, giving the names of two other Italians connected with the mur-der, and said they, too, were at work in this county.

Accordingly, Capt. Dougherty, of the Philadelphia police, and two or three Pinkerton men, came here, and with Detectives Beanlan and McCabe, of the New York Central and Hudson River railroads, and Officer Decker, of this city, secured a special train and went to Stanfordville, where it was said

The sudin Florid that the company was a made to ureof the rumors was that the cr cess of sugar refining on which nrda rany's fate was based had proved to trip holly mythical, and that the shareholders to been fleeced by the holders of the iron crot. The events of the last two days The events of the last two days som to confirm strongly the suspicions rouble and her suffering. The doctor went to his office and spent a

which have been raised. The secret in question promised, when put into practice, to revolutionize the sugar trade by placing in the hands of the fortunate shareholders a monopoly of the sugar pefining industry of the world. By passing through a mystical process fired with electric force raw sugar was to be transformed, at a fabulously cheap price, into refined sugar of unequaled purity. The sampled of its work were pronounced of unexampled purity by the best authorities of both continents. Sugar refiners begin to quail at the prospects the new discovery presented The refiners liked the sugar, but they

wanted to know the process by which it was refined. This, however, Friend refused to reveal on the ground that his invention was not a patentable one. He offered, however, to explain the process if a company were formed when could buy the secret from him. For some the the inventor's secrecy caused a general suppicion of his claims, but eventu-ally the scheme was taken up by prominent speculators, and the Electric Sugar Refining converts resulted. In the construct with to explain the conreshy resulted. In the contract with Friend the company provided that he should be furnished with money to purchase the machinery necessary for putting the new method in operation, that on the completion of the machinery he should lift the veil from his hidden charm for the tangible considera tion of \$75,000, and that thereafter he should begin to turn out the product at a cost of eighty cents per ton, including all expenses. In March last Friend died, bequeathing his secret to his wife. After his death the latter went to live with her sister in Milan,

Mich., and Howard remained in charge of the factory, on a salary of \$40 a week. Mrs. Friend also received a consideration of \$100 a month. At last, some two months ago, a happy day came. Mrs. Friend wrote that the terms of the contract would be fulfilled in the early days of the new year.

Two weeks ago Howard went west to spend the holidays at Milan. On the 24th the president of the company, W. H. Cotterill, also left for Milan to make arrangements for the fulfillment of the contract. He was surprised to find that Mrs. Friend now refused to unravel the secret. He insisted that even if the preparations were not complete she should pass fifty barrels of raw sugar through the process in presence of her own lawyers, but this she declined to accede to. With his first suspicions aroused President Cotterill returned to this city, went straight to the factory in Brooklyn, and broke down the barriers that sheltered the mystic secret.

but owing to want of communication with His suspicions were fully confirmed. The that point nothing definite was learned as to the loss of life and property. Two roustwonderful machinery was of a very ordinary character, the raw sugar which had been abouts who passed down on the Oliver supplied lay around untouched, and quanti-Bierne say that six of the crew and one ties of purchased refined sugar suggested the passenger were lost, but they could give no origin of the product. Meantime the Halnames. A large part of the cargo will be a steads had disappeared from the sce total loss. 'Jerry" was in sole possession. Armed with this additional information Mr. Cotterill started Wednesday night for Milan to demand immediate explanation or cause the arrest of the schemers. He was expected to reach there yesterday, and the result of his visit is looked forward to by the shareholders with breathless interest. ANN ARBOR, Jan. 7 .-- Mrs. Friend exeuted a mortgage to William D. Harriman Friday for \$4,000, on all her real estate. Mrs. Howard executed another mortgage on the same day of \$4,000 on everything they had. Mrs. Friend and George Halstead took the train east Friday, she stating that she was going to New York. Holstend returned the next motning. Several trunks were taken from Mrs. Friend's house Saturday, and it is said she has skipped to Canada. New York, Jan. 8.-An Ann Arbor dispatch gives an astounding summary, obtained apparently from Mrs. Friend, widow of the electric sugar refiner, to the contract between Friend and the Electric company, This is the dispatch: Mrs. Friend and the Howards are still in this city. The Detroit Journal correspondent has read the famous contract made between the Friends and the Electric Sugar company, It was drawn July 9, 1884, and executed Nov. 20, 1884. It was the most one sided contract ever seen in Michigan, perhaps. To be made binding it is witnessed, signed and sealed on each of the nineteen type written pages. By its terms Henry C. Friend and Olive C. Friend, his wife, covenant with the Electric Sugar Refining company, the said Friends having invented a process for refining different grades of sugar at prices far below the market value, making 90 per cent. of pure sugar, with a loss in weight of not over 5 per The entire contract is based upon a secret process. The company absolutely bound itself in no way to attempt to find out what the secret was. The Friends were to remain in possession of the secret, and any attempt on the part of the company, their employes, agents or lawyers to find out the secret forfeited all their rights and any stock they may have held. It was also a condition that the request of stockholders for the secret or any attempt to force it by legal process should work a forfeiture, and in case Professor Friend died the conditions should remain unchanged as securing the rights of Mrs. Friend. The securing the rights of Mrs. Friend. The contract was signed on behalf of the com-pany by R. N. Woodworth, president; W. H. Cotterill, secretary; and on the part of the Friends by Henry C. Friend and Olive C. Friend. The witnesses are W. E. Howard and Emily Howard, Milan. On the con-tracts are indorsements of ten payments aggregating \$100,000. The payments were made between June 30 and Nov. 17, 1884. It is new feared that President Cotterill is as deep in the mud as the Friends and How-ards. His past record is being brought to as deep in the nud as the Friendent Cotteril is ards. His past record is being brought to light and it is not calculated to inspire con-fidence in him. Neither is the fact that he closed up his hcuss and took his wife with him in his alleged pursuit of Mrs. Friend; nor the fact that he was in Milan twenty-four hours before her departure therefrom. It has also transpired that the first president of the company, R. N. Woodworth, had un-lawfully appropriated the proceeds of the sale of 561 shares of the stock. On the whole it now appears that the fraud is much more widespread than at first suspected. Further developments are anxiously awaited by those interested.

UNIONTOWN, Pa., Jan. 7. -While descend-ing the shaft in No. 2 Leisenring coal mine, this county, the rope of the cage broke, letting the cage fail a distance of 500 feet with William Clark, William Farn and Samuel Shearer to the bottom of the shaft, killing all three instantly.

McClure's Murderers.

WILKESBARRE, Pa., Jan. 5.—The murder-ers of Paymaster McClure and Hugh Fian-nigan, his body guard, have been run down at last. It will be remembered that McClure and Fiannigan were on their way to Ballroad Contractor, McFieldard, works to pay the Contractor McFadden's works to pay the men when they were shot dead in a lonely part of the road and robbed of \$12,000. One of the first to be suspected was an

Italian, "Red Nose Mike." He was arrested, given a hearing and discharged. Mike then went to Poughkeepsie to work, followed by three Pinkerton men, who disguised themselves as laborers. At Christmas Mike commenced to spend lots of money, as did two other Italians with him. Mike also sent considerable money to Italy.

The detectives at last sure of their men pounced upon them. Mike was brought to this city by Capt. Linden and Detective Fahrer. The prisoner was taken before Jus-tice Rooney. He refused to say anything. A charge of murder was made out and he was ommitted to jail.

Thousands of people gathered early in front of the justice's office. Cries of "Lynch the red nosed Italian" were heard on all sides. Capt. Linden has "Red Nose Mike's" state-

ment in writing, but refuses to make it known lest it prevent the arrest of his ac-complices. This much is known however:

Five Italians had a hand in the murders. The scheme was secretly concocted at a meeting held by the Italians. Three men did the killing, while two kept a lookout. Had Contractor McFadden come on the scene during the butchery he, too, would have been killed by the lookouts. Rifles and Colt's revolvers were used.

Flannigan was first shot. He was killed instantly and fell into the roadway. Mc-Clure was shot by the lookouts further up the road. He fell out of the buggy and was dragged 100 yards, when the horse, badly wounded, stopped.

The murderers then captured the money The names of the two other Italians implicated are Antonio Lecki and Michael Poroeso.

A TALE OF TWO CITIES.

Rev. Mr. Lathbury Borrowed Mrs. Chandler's Child, Will Not Return It.

New HAVEN, Jan. 8 .- There was a spicy aring in the probate court, before Judge A. Heaton Robertson, ever the possession of a child now in the castoly of the Rev. Mr. Lathbury, of the Summerfield Methodist church.

Seven years ago Henrietta Chandler, a very pretty young lady of Newark, N. J., ng in good society, gave birth to a child, and the infant was spirited away. Mr. Lathbury was the pastor of the Brooklyn Methodist church, and in his was Mrs. Catherine Goldby, the flock wife of a principal in one of the Brooklyn public schools. Mr. Lathbury was removed by the Methodist conference to New Haven, and he induced Mrs. Goldby to allow him to take the child to New Haven to keep his wife company. Once securing possession of the child, he refused to give her up, and induced Miss Chandler to sign a paper delivering the child to him. He informed Miss Chandler that Mrs. Goldby only wanted the child to sell. Mrs. Goldby has brought the matter into court to secure possession of the little one. She produced letters written to her by the minister, which are far from cred-itable to him. In addition to the court proceedings Mrs. Goldby has presented charges against the Rev. Mr. Lathbury to the presiding elder of this district.

Falling Rock at Niagara.

NIAGARA FALLS, Ont., Jan. 8 .- On last Friday night a large mass of rock fell from the precipice of the Horseshoe or Canadian falls, and on Saturday night at 10 p. m. another mass broke away. In both cases the noise made by the falling rock alarmed the residents in the vicinity on the Canadian side. The massive stone building known as the Table Rock house was jarred to such degree that the doors were thrown open and the occupants who had retired jumped out of bed greatly excited by the unusual noise and vibration of the building, resembling severe shocks of earthquake. The same sensations were experienced at the residence of Gata-keeper Whistler, on Cedar Island, and also half a mile up the river where Gardner Mc-Cameron lives. The effect of these disp ments on the contour of the falls is quite marked, the change being from an angle to the original horseshoe shape.

Terms of the "Q" Settlement.

CHICAGO, Jan. 8 .- The seal of secrecy was last night removed from the terms of agreelast night removed from the terms of agree-ment between the Chicago, Burlington and Quincy Railroad company and the confer-ence committee of the Brotherhood of Loco-motive Engineers. The terms are, in effect, that the company will not follow up, black-list or in any manner attempt to proscribe those who were concerned in the strike, but, on the contrary, will give to all who have not been guilty of violence or other improper conduct letters of introduction, showing their record, and in all proper ways assist them in finding employment. Vice President Stone, of the Burlington, stated that the agreement contained all that the men had claimed and all thet the company was asked to concede. NEW ORLEANS, Jan. 7 .- The Paris C.

Brown left this port Friday night with 300 tons of freight, to which was added 150 tons on the way up. Her cargo consisted of 170 tons of car wheels and the remainder of sugar, molasses, old iron and sundries. She was registered at 1,400 tons and owned by Capts A. M. Halliday and C. G. Young. She was valued at \$24,000, and insured through George W. Near's agency at Cincinnati for \$14,000. Nothing is known here as to the insurance on cargo. She was com-manded by Capt. C. G. Young, a native of Cincinnati. She had on board ten cabin passengers and a few deck passengers.

A Boom for Gloucester.

GLOUCESTER, Mass., Jan. 8 .- Yesterday was the busiest day in the history of the fresh fish trade here. Since the withdrawal of the hallbut trust local companies have prepared to control haddock as well as halibut, and from the volume of business they seem likely to succeed. Owners are encouraging the movement, and have ordered their skippers to sell trips here. The amount landed and shipped was 150,000 pounds of halibut, prices ranging from nine to thirteen cents, and 230,009 pounds of haddock, with several trips in the stream yet to land. Fishermen are satisfied, and favor making this the principal point of distribution. Steamers enough to handle the traffic can be supplied.

All Is Lovely at Fall River.

FALL RIVER, Mass, Jan. 8 .- The regular nonthly meeting of the Spinners' union last night accepted by a large vote the new schedule proposed by the manufacturers, and it will take effect with the beginning of the year. The strike at the Robeson mill was declared off. In advising the adoption of the new schedule Secretary Howard said it was the best the spinners could hope for at present. The relations between the spinners and manufacturers were closer now than ever before, and the manufacturers were gradually coming down to the basis of schedules in the old country, which is what the spincers wanted.

Terrific Storms in France.

PARIS, Jan. 8 .- Terrifle storms, accompanied by thunder and lightning, have pre-vailed throughout the south of France to a degree unexampled in the history of that regioa. The rivers have flooded their banks, to the destruction of a large amount of prop-erty, and landslides have interrupted traffic on many of the railways. In many towns most of the houses are flooded and the occupants driven to the upper floors.

Barry Will Hire Another Hall.

PITTABURG, Jan. 8 .- Thomas B. Barry's attempt to hold a meeting here proved a dismai failure last night. The Knights of Labor hall had been rented and paid for in advance, but Master Workman Doyle reused to admit anybody. About 500 Knights and others appeared and wrangled, but Doyle was firm, and the crowd dispersed. Barry will hire another hall and try it gain next week.

Four dwellings were partly wrecked and the town was badly shaken up. The rails were torn up for a distance of twenty feet and an accident was barely averted to a fast freight train. The explosive is supposed to have been placed on the tracks by train wreckers. No one was injured.

Collieries Resuming. ASHLAND, Pa., Jan. 4.-The collieries of the Philadelphia and Reading Coal and Iron company in this vicinity are resuming, after a suspension of several weeks. The Merrian and Bart collieries were the first to start up. The rate of wages has been fixed at 3 per cent, above the \$2.50 basis

Some of the men notified affect not to be at all scared, but others feel uneasy and are taking means to defend themselves in case the White Caps put in their appearance.

The notices have caused great excitement among the men, many of whom attach o.nsiderable importance to the doings of the mysterious visitors. The company has of-fered a reward of \$25 for information that will lead to the arrest of the parties concerned in putting up the notices. Mysterious Suicide in Philadelphia.

PHILADELPHIA, Jan. 2.- A man whose identity it was impossible to discover com-mitted suicide in a room in the Girard house, some time between 1 o'clock on Monday night and 5 o'clock yesterday afternoon, by shooting himself in the mouth. Before killing himself the man destroyed everything about his person likely to establish his identity, even scratching the name of the maker off a pair of spectacle cases he carried. The FRESH TAFFY OF ALL KINDS EACH body was removed to the morgue. The man had forgotten his hat, and in it was stamped the name of the dealer, "Henry G.
