As the party passed down the principal streets it was greeted on all sides with enthusiastic cheers from the thousands of persons who lined the sidewalks, and moved toward the station, keeping time with the carriages. On several occasions Gen. Harrison acknowledged the enthusiasm by bowing to persons whom he recognized, but the trip was without any further incident.

At the depot a number of policemen guarded the entrance to the train sheds, and for a while the people were kept back. Pretty soon, however, the crowd in the rear pushed through the gates, carrying the officers with them, and then came a general rush. Five thousand people crowded through the gate-

ways and surrounded the train. When Gen. Harrison reached the station it was with the greatest difficulty that a path could be made for him and the ladies to the special train that stood waiting for them on the track. Russell Harrison and his wife had arrived previously, and were the first ones to greet the president-elect as he boarded the car, which he immediately entered. Then all the party, except Mrs. Harrison and Mrs.

A SECRET SOCIETY RATE WAR.

It Is Rendered Possible by an Action of the New Jersey Knights of Pythias. New BRUNSWICK, Feb. 26,-One action taken by the Grand Lodge of the Knights of Pythias, at its recent session here, is likely to lead to a lively cut in rates among secret. societies and perhaps to a subsequent rate

war. The constitution of the Pythians provides that the initiation fee shall never be fixed at less than \$10, unless by dispensation specially given by the supreme chancellor at the request of a grand lodge of a state. The result has been that in New Jersey the initiation fee, while often more than \$10, has never been less than that, and often this has prevented the growth of the order and carried men over to other societies.

In one city, for instance, the Odd Fellows give exactly the same benefits on an initiation fee of \$6.50, and their lodge has received in a few years at least fifty men who would have

The Grand lodge at its session there resolved to petition the supreme chancellor, and he will grant a dispensation allowing the grand chancellor in his discretion to grant requests for a reduction of the initiation fee, The constitution provides that it shall not fall below \$6, even in case of a dispensation, but this limit will undoubtedly be reached, and then a cut may be expected by rival societies. The Knights of Pythias are now the third order in the world in point of numbers, the Masons coming first and the Odd Fellows second.

The judge's opinion in overruling the motion, and his address to the prisoner proceeding the sentence, were conched in very eral officers of the Knights of Labor, has impressive language.
