CATARRH, Catarrhal Deafness and Hay Fever.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact and the result is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—For catarrhal discharges peculiar to females (whites) this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Son, 304 West King St., Toronto, Canada.—Scientific American. A NEW HOME TREATMENT.

Sufferers from catarrhal troubles should read the above carefully.

Mr. McConnaughty, the chief of the bureau of registration, said that he is is 10,000 or more.

Purging with Fire. Capt. W. R. Jones and Evan Jones held a consultation and arranged the scheme for clearing the streets.

'How are you going to do it?" asked the citizens committee. "Men and fire will do it," replied Evan Jones. "We are about 2,000 in all. We'll just gather up and cast all this truck out on the flats there and making nice, big piles of it, set fire to it; that's all. The wind will scatter the ashes and there won't be anything to remind you of your trouble."

In an hour a hundred tents were up and the men were tearing down the mountains of lumber and logs and piling them ready for the flames. Great billows of flames reached up toward the lowering clouds and now the streets are passable to all parts of the city, although the debris is by no means removed, nor will it be for several days. There will be clear ground next Monday between the rivers upon which Johnstown people may again build and again grow rich and great.

How Supplies are Dispensed. Gen. Hastings has instructed his assistant, Maj. A. L. Spangler, to organize the following departments of distribution: Beef and meats, clothing, tinware, flour, coffee, sugar and teas. Maj. Spangler has also ogganized a special department, including Kernville, Woodvale, Cambria City, Morrellville, Conemaugh and other towns, and in each of these he will establish branch depots, and from these assistants will distribute

the necessaries to the worthy. This scheme will enable those in charge to give to all who are needy and prevent imposition.

The principal depot is at the Pennsylvania passenger station. A portion of the platform has been wired off and large tables filled with all kinds of good substantial cooked and uncooked food arranged along the whole length of it. Police are on guard not only to repress the eager crowds but also to prevent the incoming of loafers, who are very a ndant. Those asking aid are adm ** d to the wired passage way and as fast as their wants are attended to, their baskets filled and addresses taken, they are hustled out the other end, where also are stationed several officers who

narrowly scan each outgoer in order that he or she may not duplicate the visit on the same day. Some of Those Identified. Among the identified bodies recovered are Emma Zimmerman, W. B. Harris, Alice Veil, Sofia Blough, John Cartain, agent of F. D. Nickerton: John Roalew,

LOCK HAVEN, Pa., June 11.-At a meeting of citizens a resolution was adopted requesting that the following be given to the press:

"To the people of the United States: This city has been devastated by the recent great flood and immediate assistance is needed. Our streets, alleys and homes are in a frightful condition, and money is needed at once to save us from an epidemic. We are receiving a generous supply of provisions, but Lock Haven alone is not the only place to be supplied from these. Many people in the nearby small towns have lost nearly everything they had and are dependent upon us for money and provisions. We need disinfectants badly and many with which to him terror. and money with which to hire teams and men from a distance to help clean our streets and cellars. There was not a square inch of land within the corporate limits of the city proper that was not submerged, and when the water subsided it left a layer of mud and filth, which, under the strong sun, creates a stench that is almost unbearable. The contents of vaults and ceas pools are in our cellars and on our main thoroughfares, and nothing will save us from a frightful epidemic unless help comes promptly and generously.
