GOVERNOR BEAVER MAD.

A Government Cattle Quarantine Which

He Thinks Is Unwarranted. HARRESTERO, Nov. 16. -- Governor Beaver is indignant at the action of some of the agents of the bureau of ani-mal industry connected with the national department of agriculture, and unless they look sharp he will be apt to give them a piece of his mind officially. On Sept. 4 the state authorities directed that three cows at Upland. Chester county, which were affected with pleuropneumonia, should be killed. cases were traceable to Baltimore, and it was not deemed necessary to quarantine other c tile in the vicinity. A few days later, however, agents of the bureau of animal industry visited Upland

and declared a quarantine which still affects about twelve herds. When Governor Beaver heard of this presumptuous action he was inclined to bring up the government agents with a round turn and intimated that a repeti-tion of the offense would not be allowed to pass without notice. Police powers are reserved to the state, and the government authorities have no power to declare quarantine in Pennsylvania; that right is vested in the state authorities only. The officers of the bureau of animal industry can quarantine cattle in transit from one state to another. Owners of the herds in Chester county that are in quarantine are not bound to regard the proclamation of the national authorities, and can violate it whenever they choose. It is stated that nearly all cases of pleuro-pneumonia among the cattle of Pennsylvania in the last four years are directly traceable to Baltimore or New York.

The knife blade entered the right side of the back, making a wound about five inches deep and penetrated the lungs. The men had been drinking and quarreled while in a buggy, where-upon Fausey plunged the knife into Hackett's body. Both young men bear unsavory reputations.

MR. PARNELL AMAZED

By the Stories of His Mother's Financial

LONDON, Nov. 19 .- Mr. Parnell is amazed at the reports of his mother's impoverished condition and has telegraphed to his agent in America to as-

in expectation of an increase in values.

Mr. Parnell thinks his mother's income and crops have been attached pending the result of foreclosure proceedings. He cannot suppose, he says, that they are in any danger, as he has instructed his American bankers to guard them by necessary advances. He would prefer to have his mother with him, but she has repeatedly refused to abandon her home in America.

Sam Randall, Jr., for Mahone. Washington, Nov. 15.—There is at least one Democrat in Washington who believes what a great many Republicans profess to believe, that Mahone, of Virginia, was counted out in his race for the governorship. This Democrat is Samuel Jackson Randall, Jr. He is a young man about 18 years old, and has always been referred to as "a chip of the old block." Lately young Sam had been taking great interest in politics, and for some reason not understood by anybody became a warm champion of Mahone in the recent election.

> Hopes Buried in a Traveling Bag. WASHINGTON, Nov. 19 .- Senator Farwell says the reason he so greatly regrets the loss of his traveling bag, which he left in the cars when en route to Washington last week, is that it contains the applications of all Illinoisans who have applied to him for office since he left Washington last spring, includ-ing their papers of indorsement. The loss could be easily spared by the senator, but it is a most serious one to the office seekers.

TRAVERSE JURORS, FIRST MONDATOR DECEM

"The Chamber of Torture

Is the apartment to which; the unhappy sufferer from inflammatory rheumatism is confined. If, ere the crisis of pain is reached, that fine preventive, Hostetter's Stomach Bitters is used by persons of a rheumatic tendency, much unnecessary suffering is avoided. Nervines, anodynes and sedatives, while having vines, anodynes and sedatives, while having none but a specific effect, are yet very desirable at times. Yet can they produce no lasting effect upon rheumatism, because they have no power to eliminate from the blood the rheumatic virus. Hostetter's stomach Bitters does this, and checks at the outset a disease which, if allowed to gain headway, it is next to impossible to dislodge or to do more than relieve. Rheumatism, it should be remembered, is a disease with a fatal tendency from its proneness to attack the heart. A resort to the Bit ters should, therefore, be prompt.

wastes or gives away during the year more or less kitchen grease, each pound of which can in a few minutes be converted into two pounds of the PUREST SOAP, far better than can be found on sale. The only expense for making ten pounds of this soap, with five and one-half pounds of grease or oil, is the trifling cost of one can of BANNER LYE, ery grocery store.

Dissolve the contents of one can of Banner Lye in three and one-half pints of cold water, and pour slowly into five and one-half pounds of lukewarm grease, stirring from the start, until it thickens into a mushy condition; then pour into any kind of mould to harden-a child can make it, and full directions are to be found back of each label.

A can of Banner Lye will do the work of twenty-one pounds of washing sods, and besides its value for scrubbing purposes, the cleansing and disinfecting of Sinks, Closets and Waste Pipes, destroying the Filth and Disease arising therefrom, makes its systematic use one of the greatest boons the housekeeper has fallen heir to.
