#### A Miraculous Escape.

POTTSVILLE, Pa., June 3.-A young man named Peter Rice made a most miraculous escape from death at the Dobson shaft, near this city. The shaft is 118 feet deep. It is a mere temporary opening and is driven as a test hole. The stuff is hoisted in a bucket holding about a ton. Rice attempted to ascend the shaft by clinging to the bucket. When about fifty fest from the bottom the rope broke and man and bucket went pitching into the dark abyss. How it is that the man was not crushed to D. C. Kelly, of Tennessee, who spoke on death is a mystery. When gotten out "Gen. Sam Houston, the Washington, he was in a limp and apparently lifeless condition, but he recovered his speech in a short time and the discovery was made that no bones were broken, al-though it is hardly likely that the man will recover from the internal injuries received. He was taken to the Miners' hospital.

## THE READING CONDUCTORS.

The Company Wants Them to Resign toom the Brotherhood.

PHILADELPHIA, June 3 .- The Reading railroad has notified all of its conductors who are members of the Brotherhood of Conductors to resign or quit the service of the company.

The order has caused some surprise and a number of the conductors are dis-satisfied. It is believed that the Reading issued the order because it is opposed to labor organizations, and be-cause the Brotherhood of Conductors decided recently to strike out the clause in their constitution which prevented it from striking. Formerly there was an anti-striking clause in the constitution and when the conductors decided to strike it out the Reading officials ob-jected. Assistant Superintendent Bon-zano says that many of the conductors have promised to leave the brotherhood and some have already resigned. It is believed that the trouble will be amicably settled.
