Mr. Quay Introduces His Substitute to the Senate.

LONG DEFERRED, COME AT LAST.

It Vests the President With Authority, When Necessary, to Suspend the Writ of Habeas Corpus and Call Upon the Military to Enforce Its Provisions.

Washington, Jan. 13.—Senator Quay introduced in the senate his proposed substitute for the federal election bill. The bill is entitled, "An act to prevent force and fraud in federal elections and to insure the lawful and peaceful conduct thereof."

The bill authorizes the circuit judge of the United States, on the petition of ten or more citizens of any city county of any state or territory in his judicial circuit, to appoint three supervisors of registration and election in connection with the election of members of the house of representatives for each voting precinct or in congressional districts, to be known as the board of supervisors of registration and election, not more than two of whom shall be of the same political party. District judges are also empowered to appoint supervisors in the absence of circuit judges.

Powers of the Supervisors. Each board of supervisors is directed to make a request on the registrar of each precinct for his registration books, and if the registrar refuse he is to be fined \$500 and sentenced to peral punishment in the discretion of the court. In the event that the state authority should neglect or refuse to establish new polling places that may be demanded by the board of supervisors, and also neglect to officer them, the board of supervisors is empowered to establish them and to officer them. Each board is to purge its registration list of the names of persons not qualified to vote, and it must also register persons who are qualified, appearing on a specified day.

The returns are to be certified in du-

plicate, one copy to go to the proper state officer and the other to the clerk of a United States court. Power is given to the boards to commit to jail for a period not exceeding twenty-four hours, persons who interfere with the progress of the collection, and each board may also imprison any member of it who may purposely delay the voting, and it must elect a person to serve in his place. Each judicial district, it is provided, is to have a chief supervisor appointed by the United States circuit judge, whose duty it shall be to receive and preserve the returns and to do all other duties required of them.

The Gist of the Substitute. The last section of the bill and the chief feature of it reads as follows:

"When it shall appear to the satisfac-tion of the president of the United States that, in any locality, the pro-visions of this law cannot otherwise be executed, it shall be his duty and he is hereby empowered to suspend there the writ of 'habeas corpus' and to employ the armed force of the United States, naval and military, for its enforcement naval and military, for its enforcement and for the protection of the officers whose duties are herein provided for.' The rest of the bill is merely a repeti-tion of the provisions of the Hoar elec-tion bill. Some changes in the salaries of election officers are made.

THE ELECTIONS BILL An Appeal Made to the United States Supreme Court.

Washington, Jan. 13.—The Behring sea fur seal fishing question was sud-denly and unexpectedly brought before the supreme court of the United States yesterday, when Sir John Thompson, attorney general for Canada, through Mr. Caideron Carlisle, the American counsel of the British legation, and Mr. Joseph Choate, associate council, made a motion in the court for a writ of proa motion in the court for a writ of pro-hibition commanding the United States district court at Sitka to annul the pro-ceedings by which the schooner W. P. Sayward was libeled in 1887. This move on the part of the Canadian offi-cials, it was stated, was made in behalf of Canada by Sir John Thompson, with full knowledge and consent of the British government, the purpose evi-British government, the purpose evidently being to appeal from the state department to the supreme court to settle once and for all the dispute. This move on the part of the British government seems not to have been egpected and the attorney general was taken by surprise when the motion was made by Mr. Choate.

The court ordered that two weeks' time be granted to the attorney general to make a showing in opposition to the motion. The British government, it is believed, has had this matter in contemplation for some time, probably since last spring, when it was announced that the negotiations between the United States and England on the Behring sea matter were ended.

The schooner W. P. Sayward, of Victoria, B. C., was captured by the revenue cutter Rush, Capt. Shepard, for killing seal in Behring sea. When the capture was made the schooner was on Behring sea, fifty-nine miles from any land, and there were 477 seal skins on board. The schooner was taken to Oonalaska by the Rush, and from there to Sitka, where she was libeled by the United States district court for taking seal within the jurisdiction of the United States, in violation of the revised statutes. An appeal was taken, and the case was taken to the supreme court, and on motion of petitioners, this was dismissed, which motion was immediately followed with a request to file suggestions with the court for the writ of prohibition to annul the action of the district court of Alaska.

PINE RIDGE, S.D., Jan. 13. -- It now looks as though the Indian troubles would be ended today and that without further bloodshed. The hostiles, with many warlike demonstrations and firing of rifles, have advanced to within about a mile of the agency, and Gen. Miles confidently expects that by to-night peace will reign at the agency. Scout Gourard reports that the savages are wild and growing more uneasy as they approach the agency. They fear they are going to be swept off the face of the earth for the deviltry they have committed. The crisis will be reached when the savages go into camp here. Then it will only take a spark to set off the whole maga. zine. Artillery men were galloping through the camp today placing their heavy guns in more commanding posi-

The Warlike Cheyennes.

PINE RIDGE, S. D., Jan. 13.-Capt. wers will start in a few days with Little Chief's band of 490 Cheyennes, to take them to the Tongue river, Mont. Little Chief and his band have been ugly fighters in every war for the past twenty years. In 1876 they were sent from this region to Ft. Reno, I. T., and in 1878 fought their way back through the settlements of Kansas and Ne-bra saa to the Sand hills, near Gordon, where they were captured.

Since then they have been good friends to the whites and made excellent police and scouts. The band have about 900 relatives on the Tongue river and have begged for several years to be transferred to the reservation. Capt. Ewers and his party will go across the reservation to Rapid creek, thence to Pt. Meade, next Winnesella, and from there along the stage road to the agency. The settlers along that route are too well acquainted with the Cheyennes and Sioux to be unnecessarily alarmed by the movements of so large a body of
