Does Experience Count? It does, in every line of business, and espec ially in compounding and preparing medicines. tions, as shown by the remarkable cures it has

accomplished. The head of the firm of C. I. Hood & Co, is a thoroughly competent and experienced phar-macist, having devoted his whole life to the study and actual preparation of medicines. He is also a member of the Massachusetts and American Pharmaceutical Associations, and continues actively devoted to supervising the preparation of and managing the business con-nected with Hoods Sarsaparilla. Thence the superiority and peculiar merit of Hood's Sarsaparilla is built upon the most sub-stantial foundation. In its preparation there is represented all the knowledge which mod-ern research in medical science has developed, combined with long experience, brain work, and experiment. It is only necessary to give this medicine a fair trial to realize its great entry value. accomplished.
