Does Experience Count? It does, in every line of business, and especially in compounding and preparing medicines. This is illustrated in the great superiority of Hoods Sarsaparilla over other preparations, as shown by the remarkable cures it has

accomplished.

The head of the firm of C. I. Hood & Co, is a thoroughly competent and experienced pharmacist, having devoted his whole life to the study and actual preparation of medicines. He is also a member of the Massachusetts and American Pharmaceutical Associations, and continues actively devoted to supervising the preparation of and managing the business connected with Hoods Sarsaparilla.

Hence the superiority and peculiar merit of Hood's Sarsaparilla is built upon the most substantial foundation. In its preparation there is represented all the knowledge which modern research in medical science has developed, combined with long experience, brain work, and experience. It is only necessary to give this medicine a fair trial to realize its great curative value.

His age was 66 years; county might arise at any time. He quoted a number of precedents to estab-lish the justice and wisdom of the position he had taken. The second section, which seeks to place at \$300 the retail license fee in third class cities, the amount contemplated in the Brooks bill, but which

Miners Win a Costly Victory. PITTSBURG, March 7.—The long strike of the coal miners of the Monongabela Valley has ended in a complete victory for the men. The operators met here and decided to concede the demands of the strikers for an advance in the mining rate of one-half cent per bushel and resume work on Monday. The strike was one of the longest and most determined ever known in this section. It lasted ten weeks and the 6,000 lost in wages alone over \$1,009,000.
