Of many a night, made doub ly long by its protracted agony, the rheumatic sufferer tosse to and fro on his sleepless couch, vainly praying for that rest which only comes by fits and starts. His malady is one which ordinary medicines too often fail to relieve, but there i medicines too often fail to relieve, but there is ample evidence to prove that the efficie t blood depurent, Hostetter s Stomach Birters, affords the rheumatic a reliable means of relief. Check the malady in its incipient stages, when the first premonitory twinges c me on, with this agreeable medicine, and avoid years of torture. Whatever be the rationable of the active influence of the Bitters upon this mala-dy, certain it is that no evidence relating to its effect is more direct and positive than that which relates to its action in cases of rheuma-tism Like all starling remedies, however, it deserves a protracted, sysematic trial, and shoult not be abandoned because not at once remedial. It is equally efficacious in dyrpep-sia, indigestion and kindred dise is x.

Marsh May Have Shipped. CHESTER, Pa., May 26.—For some un-accountable reason the Philadelphia au-thorities have ignored the request of Burgess Riley to have Highland house searched. Mr. Riley says: "Marsh was in South Chester, and could have been apprehended, but no attention was paid to our demand, and in consequence we have thrown up the case. I have into our demand, and in consequence we have thrown up the case. I have in-structed the chief of police to withdraw his men." Bur-gess Riley thinks the theory that he has shipped aboard the logwood vessel a very probable one, and says: "I know positively that he was here, but where he has gone I cannot say."

REV. HEBER NEWTON

The Eminent Clergyman on "The Nicene Creed."

HIS ANSWER TO ZIS ACCUSERS.

The Nicene Creed the True Foundation of Christian Belief-It Is an Article of Peace and a Charter of Liberty-Too Many Creeds.

NEW YORK, May 25.—The Rev. R. Heber Newton, rector of All Souls Protestant Episcopal church, who is charged with holding heretical views and with preaching heretical doctrines, took occasion yesterday to answer his accusors in a sermon on "The Nicene Creed." A congregation which crowded the church to the doors heard the ser-mon which was in substance as follows:

the church to the doors heard the series mon, which was in substance as follows: "Calvin once said that the Nicene creed was only fit to be sung. That is its noblest eulogy. The Nicene creed is an amplification of the Apostle's creed. Beyond these two creeds our church recognizes no other formal confession of faith. Nothing beyond belief in only one apostolic church is to be demanded of anybody as a matter of faith.

Regarding the creation he says: "You are equally free to read the story in Gen-esis as a literal, presaic bit of history, or as a parable; equally free to believe the world launched into being six thousand years ago, in six consecutive days of twenty-four hours each, or to believe in evolution? What does the church com-mend us to believe concerning the origin of evil, the fall of man? Nothing whatever.

ing whatever. "What does the church command us to believe concerning predestination and election? Nothing whatever. She is absolutely silent upon this mystery which so exercises the souls of our Cal-vinistic friends. What does the church teach us to believe concerning the atone-ment? Only that which is contained in ment? Only that which is contained in the simple, undogmatic language of our creed: 'Who for us men and for our salvation came down from heaven.' What does the church order us to be-What does the church order us to be-lieve concerning future punishment? Nothing that is not contained in the simple, undogmatic statement of the creed: 'He shall come again with glory to judge both the quick and the dead.' What does the new church compel us

to believe concerning the resurrection? This and this alone: 'And I look for the resurrection of the dead.' 'He who reads the signs of the times

sees clearly two alternatives before our American protestantism, the throwing overboard of its creeds or their simplification. Could our protestant churches today be content to part with their re-formation confessions of faith and fall back upon that great catholic creed there would be an end of strife and con-tention. Dr. Bridgeman would not have to leave his pastorate on the question of future punishment. Dr. Briggs could excite no contention in his church on

the question of inspiration. "Our great creed is the reconciliation of Christian faith and modern thought to theology and science. There is no conflict between religion and science, but there is between theology and science.

The Papal Encyclical.

ROME, May 26.-The long delayed apal encyclical dwells upon the divine law of property right, rejecting the so-cialist theory of collective ownership. His holiness discourages the idea of paternal government, but says the state should intervene to prevent oppression by capital. As citizens the proletariat have the same rights as the rich, but absolute equality is a chimera. Capital and labor are natural allics, and should come together in mutual associations for insurance against accident, sickness or death. Divine and human law forbids the drawing of profits from the misery of the poor. The hours of labor should be limited, and the state should see the be limited, and the state should see the reciprocal obligations between capital and labor enforced. His holiness dwells with satisfaction on the spectacle of em-inent Catholics seeking to promote co-operation between employer and em-ployed.
