LYON & CO.

LOCAL DEPARTMENT.

-Additional arc street lights are being placed on Linn street.

-Do you have a good map? If not read the advertisement on another page.

-The new pump at the water works is in operation and is a great improvement.

-George Bush arrived home after a two-weeks trip to Detroit, Chicago and other points.

-Mr. and Mrs. Walter W. Bayard, of Washington, D. C., are visiting friends in this section.

-Belleville merchants report that trade is improving and business in every line appears to have picked up.

-We hear complaint that the present arc lights on our streets are not 2000 candle power, as the contract calls for.

-In Tyrone dogs are dying at a lively rate. A piece of beef on the street - dog eats it - strychnine does the work. An effective way of doing it.

-Mr. and Mrs. Harry Schreyer are making preparations to take a trip to Chicago and from there south to Alabama and other points of interest.

-C. E. Waite, the express agent of Lock Haven, who was severely injured in the railroad wreck at Howard last week, is rapidly improving at his home.

-Geo. W. Jackson & Co. have all the improvements about their mill completed and with the new machinery will be able to turn out better and finer flour than heretofore.

-The St. Paul Sunday School will hold a picnic on the old Clintondale camp grounds on Saturday, August 8th. The Zion band will furnish music for the occasion.

-Frank Cunningham, who recently opened up a fruit and confectionery stand on the west corner of the diamond, purchased a fine peanut roaster last week. Fresh roasted peanuts always on hand.

-We hear that the Mann axe factory near town will start next week with a full force of men in every department. There are also rumors of the Bellefonte Furnace Co., resuming operations.

-The Orvis camping party returned last week from their camp at Spruce Run where they had a delightful stay in the woods. One day three of the men caught 230 trout, which made several meals for the party.

-The stories published in some of our county papers last week in regard to the death of James Reed, at Millhelm, by drowning, were terribly overdrawn exaggerations. That is the course of a sensational newspaper - nothing reliable.

-There are good hopes of the Chronic Insane Asylum being located at this place. Dr. Curwin was very much pleased with the location offered which embraces the Speer, Woodring and Zimmerman farms above Pleasant Gap, and will make another visit here.

-A lot of puddlers arrived in Bellefonte on Tuesday who formerly were employed at the Logan Works, Millinco. Their places were taken by Bellefonte workmen, whose place they now expect to fill at our nail works. It is trade about - returning the compliment.

-A coal miner from Scranton was in town on Monday and informed the editor that he had located a 4 1/2 foot vein of anthracite coal about a mile south of Boalsburg. He seemed greatly in earnest about his find and was anxious to see operations begun at once. This is enough news to give real estate a great boom in the vicinity of Boalsburg.

-Franz Speer for the last six months saved his pennies by dropping them in a saving bank, instead of spending them for chewing gum and stick candy. He thus accumulated \$4.60, a small fortune, but last Sunday some villainous wretch broke the bank and stole all but 60 cents. He has the sympathy of the entire community in his misfortune and we think is deserving of charitable contributions to restore the fund. Contributions sent to this office for this purpose will be properly cared for.

HOWARD'S DOCTORS CRITICISED.

Their Services at the Wreck last week - Selling Cows to the R. R. Company.

An interesting interview with Mayer M. Swab, a well known Philadelphia salesman who was on the train wrecked at Howard last week, appeared in the Pittsburg Leader. Among the many things he said we find the following sharp criticisms for the railroad company, the physicians at Howard and others:

"It was stated that Frank Wood, the engineer, died instantly. He did not. He was buried in coal, and when dug out was still living, although suffering terribly from pains in his back and side. He was internally injured, but I claim he choked to death from asthma. What I don't understand is why it took so long for the company to get surgeons on the grounds. They did not arrive until 7:30, three hours after the accident. Instead of getting men from Lock Haven, fourteen miles away, they sent to Tyrone, forty-one miles distant, and then waited for the wreck train before sending them. I think if a physician had been there a little over an hour sooner Wood's life could have been saved. When the surgeon did arrive they had no absorbent cotton, and no bandages except some very heavy and dirty ones that were of no use. The fireman received a fracture of the skull."

"The only antiseptic bandage that they had to put on his head was one that I had in my bag. I'm not a physician, but I carry such things. That's the shape the surgeons were in. By the time the surgeons arrived Wood was cold in death and we had removed him to a hotel at Howard. A local doctor from Howard was present, but he seemed afraid of blood and didn't do much good."

"In Centre county the railroads are required to fence their roads. The cattle wander to crossings, however, and get on the track. It is said the farmers drive the cows on the tracks in order to get damages when the animals are killed. It looks like it, for I counted eleven cows along forty miles of track."

Veteran Picnic.

Pursuant to a call the executive committee of the Veteran Club of Centre county met at the office of the secretary, H. H. Benner, on Saturday, July 25. The roll was called when the following members of the committee responded: Austin Curtin, ex-officio; John I. Curtin, J. L. Mulholland, Christian Dale, George P. Hall, J. R. Pleasant, Andrew Gregg, D. F. Fortney, H. C. Warfel, W. S. Williams, W. H. Musser, D. C. Walter, Dr. J. F. Woods.

The motion of Wm. H. Musser that the day and date of holding the picnic for this year be changed. D. F. Fortney then moved that the day for holding the picnic of the Veteran Club of Centre county on the grange park grounds be on Friday, September 18. A committee of three was appointed to secure speakers, and also a committee to consist of those who reside in the neighborhood of bands. It was decided that all G. A. R. Posts and other ex-soldier organizations be invited to participate, and that the picnic be exclusively a basket picnic.

Nearly Suffocated.

Ed. Stump, living about two miles east of Centre Hall, while assisting in drawing water from the cistern on his farm, last week, felt a very peculiar sensation about the head and went toward the barn and entered the feeding entry. He had hardly entered when he fell forward on his face upon some hay, in a faint, in which position he was found a half hour later. He was black in the face, and was carried to the house and medical assistance quickly summoned. He is now suffering from an attack of congestion of the brain, and is out of danger.

A Doctors' Misfortune.

Dr. H. W. Buckingham, of Phillipsburg, met with a misfortune last week that will disable him for several weeks. Returning from a professional call about ten o'clock, he was in the act of getting out of his buggy when his left foot caught in the lap robe and the right foot catching the wheel, caught between the spokes, breaking his right leg about four inches above the ankle. He was conveyed to the hospital at that place and his injuries properly dressed by Drs. H. Allport and Warren Andrews.

Important to Voters.

While there is plenty of time, it is well to call attention to the fact that every one who wishes to vote at the ensuing general election must be registered on or before September 3. Under the new registry law, all voters whose names are not on the list already must call in person upon the register or assessor. Under the old law the committee men looked after the matter, but that is all changed now, since he is not considered a competent voucher.

Grange Festival.

Owing to the inclemency of the weather on the 18th, the Zion Grange decided to hold another festival on Saturday, August 8th, afternoon and evening, on the lawn of the Grange Hall. Excellent music will be furnished for the occasion by the Zion band. All kinds of delicious refreshments of the season will be served. Everybody is invited to come.

A BIG FIRE AT LEWISBURG.

The Halfpenny & Co. Woolen Mills Badly Damaged Saturday Morning.

Shortly after 4 o'clock last Saturday morning an alarm of "fire" started the populace of Lewisburg, and a few minutes later great masses of flames began issuing from the second story windows of the big woolen mills owned and operated by Halfpenny & Co., which enterprise has long stood as one of Lewisburg's representative manufacturing industries. The frame work of the building, dry as tinder, gave fresh impetus to the element, and for several hours it looked as though the whole structure was doomed to entire destruction. This, however, was averted by the work of the firemen. On the second and third floor the work of demolition was complete, and the aggregated amount of the loss is conservative placed at \$30,000. This includes the building, about three-fourths of the machinery and a large amount of raw and manufactured material that was stored on these floors. It is reported upon good authority that at least seven eighths of the loss is covered by insurance. The origin of the fire is attributed to spontaneous combustion.

The burning of the big mill throws a large number of operatives out of employment. It will in all probability be rebuilt.

-Mrs. Elmer Showers, of east Lamb street, Bellefonte, is visiting at Johnstown, the guest of Mrs. Will Cowdrick.

-Mr. Jonathan Harper, who spent a month or more at Atlantic City, for the benefit of his health, returned this week much improved.

-The Evangelical Association of Penns Valley, we are informed, will hold a campmeeting near Penns Cave about the 20th of next month.

-The cool weather experienced here the early part of this week came according to the predictions of Rev. Ira Hicks, the weather prophet.

-James R. Hughes is putting in his spare time talking up the fine points of the Victor Safety Bicycles for which he is agent of this county. Yes, Jim, you have a good machine.

-Prof. George P. Bible, of Williamsport, formerly of this place, has been elected to the position of elocution and oratory in the Normal school at Indiana Pa., and will go there September 1st. The family will spend the month of August in Bellefonte.

-Last Friday Harry Cowdrick picked up an envelope on the walk near his store that contained \$80. On Monday Austin Lambert, a crippled soldier, who had lost that amount, explained his misfortune and received his money. He had just drawn \$100 from pensions and the \$80 was part of it.

-Lock Haven expects the Penna. R. R. to make that place the terminus of a division. They also are living in the hopes of seeing the large car shop at Renovo transferred to their town. There is some pleasure in entertaining great hopes and Lock Haven is entitled to all it can derive in that way.

-Unclaimed letters: John Armagast, Robert Anne, Frances Brown, Alice S. Corman, James Davis, Sybilla Frederick, Mrs. Belle Houtz, Prof. Henry Isaacs 2, Dan. McClure, Mary Staley, Clara Southard and Minnie Smith. When called for say advertised.

-Subscribers to the CENTRE DEMOCRAT have an opportunity of buying a map of U. S. and the world, with other valuable information illustrated for one-fifth the regular price. Greatest offer of the kind ever made - to subscribers only. See advertisement on another page.

-On Sunday a serious accident occurred at a camp meeting near Aaronsburg. A 13-year-old son of Noah Stover was riding a horse to water when the animal frightened and the lad was thrown off and became entangled in the harness. He fell between the animals legs and was trampled upon and bruised terribly. His jaw was broken, teeth knocked out and received other injuries that may prove fatal.

-The P. O. S. of A. picnic at Howard last Saturday was a great success. Three bands, a drum corps and delegations from a number of neighboring lodges were present and formed a fine parade. The fire works in the evening were especially fine. It was one of the largest gatherings of the season. About \$100 were cleared for the benefit of the order.

-That "Admiration Society" as kept up by some of the papers is becoming tiresome. A little taunting of that order may be in place, but when carried on day after day it assumes the form of uncalculated abuse. The young ladies of the society are being imposed upon by the "that" scribbler, simply because most of them have long ago given him the slip. "That" is all.

-On Sunday evening Rev. Milton R. Speer delivered his last sermon, for the summer engagement with the Presbyterian congregation at this place. A very large audience was present, and the evening's discourse was a missionary sermon on the subject of the evangelization of the world. Rev. Speer is deeply interested in missionary work, which he expects to engage in after completing his theological studies at Princeton Seminary.

Nittany and Vicinity.

That's all right, "Bluebill," the reason "Junehawker" was left was because you were left yourself. He didn't like to hurt your feelings, but he agrees with you; as far as "Charley" is concerned, there should be law for that. Next, who has the cloves.

Who said Nelson was practicing medicine? There was quite an excitement at Lamar, on last Thursday evening, in the shape of a whole circus with a little yellow dog under the wagon. The turnout was good, taking the heavy dew into consideration.

Elwood Winkelman is at present working on a stove mill in Sugarvalley. Who is going to occupy the stone steps now, Eli?

Some one found a letter on Friday, the writing of which, on account of recent rains, was scarcely legible. Everybody pronounced it a billetedoux, except "Junehawker" who is in receipt of a part of it on which the words "press right hand - top corner" are written.

The letter is signed "T." Now we don't like to dispute anybody's word and we could imagine Mr. T. pressing his lady's right hand, but her "top-corner" is what gets us. At least if in T's place, I don't think we would banker after a girl with a top-corner.

The festival at Snydertown was a decided success. The attendance was large and seemed well supplied with Uncle Sam's stamped goods.

One of Zion's young men was left on Saturday night; not because he didn't get the lady, but because his buggy left him in the road. Better fetch your trunk along down Sam.

Wash Welch and lady had the misfortune to have their buggy break down, which frightened the horse, and it ran up the road a short distance and was caught by Miss Cora Robb. Wash rode the horse home on Sunday singing "The girl I left behind me."

Among our visitors this week are Miss Minnie Grier, of Colorado and Mrs. A. Evans, of Rebersburg.

JUNEHAWKER.

Change of Venue.

The appeal of the Lock Haven Bridge Company from the award of the viewers and for a change of venue has been granted. The court directs that the case be tried in Centre county and Prothonotary Brown is directed to certify everything on record pertaining to the matter to Centre county courts - L. H. Express.

MRS CLEVELAND'S FUTURE.

She Wants But Little and is Interested in a Bird's Nest.

The N. Y. World printed a three column article about the life of the Cleavelands at their Buzzard's Bay home, which closes with these beautiful and significant words:

Of late Mrs. Cleveland has not cared much to leave Gray Gables. She doesn't move about nearly as much as she did. "She loves best to sit upon the veranda with her husband at her side or walk slowly with him hand in hand through the pine groves. Never has she looked so lovely as she does this summer."

"Over in the pine grove, about three hundred yards away from the house, is a robin's nest which Mrs. Cleveland discovered. Every day when it is pleasant she strolls there. She tries to soothe the fluttering mother bird with her soft words. She will not go many more times because the purple flocked shells will break before long."

Nearer and nearer do Mr. and Mrs. Cleveland seem to grow to each other. Somehow the villagers know about it. Mothers draw their little ones to their breasts as she passes and whisper a prayer. They see a soft, radiant smile that shines from her dreamy eyes, they notice the fluttering of her lips, and now and then the dew in her eyes. They are quick to see and know - these Cape Cod women. That is because they are women, and they know more in a single glance than men can learn in all their lives. So when the shadows lengthen and the night prayer is said, the devout villagers have a little whispered sentence for her. The pines breathe it in each other's ears. The restless waves gurgle and laugh over the secret. The birds chatter about it and the days move slowly by.

Weather for August.

Rev. Irl B. Hicks's prophecy for August, is as follows: Atmospheric and electrical disturbances during the closing days of July will have subsided, leaving the weather fair and moderate during the opening days of August. A storm period is central on the 4th, calling for rising temperature about the 3d, which will grow in intensity until the heat is modified by the passage of north-westerly storms on the 4th, 5th and 6th. The new moon on the 4th will tend to precipitate the disturbances within 36 hours of noon on that date, increasing any earthquake tendencies otherwise existing. Normally, fresher, cooler air should follow until we approach the 10, which with the 11, call for very high temperature, with reactionary storms, reaching eastern sections into the 12th. Lower temperature should follow.

The 15th is the central day of the next storm period. Five days is the average life of a storm period, the temperature always rising and the wind currents shifting to easterly and southerly during the first half of the period. By the central day storm conditions, as a rule, are ripe in the west, and during the last half of the period they move across this continent to the east. Low temperature and high barometers break down in front of advancing storms and follow in the reverse order in their rear. Storms, therefore, with very high temperature, may be looked for from August 15 to 17.

After this cooler days and nights will follow to 20th, on which date and the 21 reactionary temperature and storms will appear. Cooler to about the 29th.

The last storm period for August is from the 25th to 29th. The 27th is the central day. Many parts suffering with heat and drought may look for partial relief through the disturbances at this period. The month will end with a fair, bright day and cool night.

July up to the date of this writing has not brought as severe general heat and drought as was expected, but very serious complaints are reaching us from numerous extremes. Many parts of the country have been graciously favored, but by the end of August all will feel the drought and heat that have brought many parts of the eastern hemisphere to the verge of famine and want.

Two Items.

Philip Collins, of Ebensburg, and J. L. Mitchell, of Tyrone, have purchased a tract of coal land for \$7,000. The coal is about four feet thick and will be mined by shaft. It is their intention to manufacture coke next winter.

Mr. James Pierpont, of Pittsburg, who has just finished putting in a big battery of boilers for the Aetna Iron and Steel Company at Bridgeport, W. Va., is in Wheeling figuring on the steam plant for the new city electric works.

Died in Africa.

The Millhelm Journal says that intelligence has reached there to the effect that Missionary Eusebius Hershey, of Rebersburg, died at Monrovia, Africa, at the home of a Baptist minister on May 23, 1891. Mr. Hershey is well known in this and adjoining states, having traveled as an evangelist in nearly every state in the Union and Canada. He was a sincere christian and devoted the greater part of his life to the cause of Christ.

One More Bargain Sale. Those who missed our bargain sale of Ladies Ribbed vests can have one more chance on Saturday, August 1st. All vests at and below cost.

CASH BAZAAR.

MARRIAGE LICENSES.

Issued During the Past Week - Taken From the Docket.

Adam Winters, Rebersburg and Miss Sallie Reinhart.  
Edwin Rehl and Miss Magge Burrell, both of Spring Mills.  
Edward Canfield and Miss Hannah R. Selly, both of Phillipsburg.

Excursions to the New Jersey Coast.

The next of the series of the Pennsylvania Railroad's select tours to the resorts of the New Jersey coast will be on August 6th, which will enable the members of that party to reach the shore at the very high-tide of the season. The points available by these tours are Atlantic City, Cape May, Sea Isle City, or Ocean City, all of which are favorites with the people of Western Pennsylvania.

Passengers will spend the night in Philadelphia and proceed to the seashore by regular trains of the next day. Tickets will be sold from stations named below, and train schedule will be as follows:

Table with columns: Station, Rate, Train Leave. Includes Pittsburgh, Altoona, Holidaysburg, Bellwood, Clearfield, Phillipsburg, Oscoda, Bellefonte, Tyrone, Philadelphia.

Underscore the date August 6th, so that you will not miss this great trip.

How Can we Do It?

We have been asked that question a hundred times by people who bought our goods which they were used to paying double the money for elsewhere. Well, the reason is we buy close and sell at a very low margin for cash; else we would not be able to sell seven cakes of soap for 25, three cans corn for 25, three cans beans 25, three cans peas 25, three cans tomatoes 25, two large boxes blue 5 cents. Sugars, teas, coffees at the lowest price. We also carry a full line of groceries and dry goods, which we sell in accordance with above rates. If you want any children's caps it will pay you to call and see us before buying elsewhere, as we have made a large reduction on same. We deliver all goods if requested. We remain respectfully yours, M. NOLAN & BRO.

This Fight is Ended.

A recent article in a Pittsburg paper says: The Bellefonte Iron and Nail Company, of which ex-Gov. Beaver is president, yesterday gave up their long fight against the Amalgamated association scale and admitted defeat by requesting their men to return to work under the terms of the scale. The mill employs about 200 men, all of whom are not members of the association lodge, but who stand out however with the unionists. The mill has an annual capacity of 5,000 net tons of bar iron and 125,000 kegs of cut nails. It has twelve puddling furnaces. The strike has been going on for some months.
