

LABOR'S HOLIDAY.

Generally Observed in All Sections of the Country.

NEW YORK'S MONSTER PARADES

The Day Growing in Popularity Year by Year—North, East, South and West Join in the Celebration, While Canada Follows Our Lead.

New York, Sept. 8.—Labor Day was honored in this city by a general suspension of business. State and city courts held no sessions, and the sessions of the police courts were brief. The custom house, postoffice, sub-treasury, appraiser's office and assay office are all closed. Chimes were rung and a special service held in Old Trinity church last night.

The features of the day were the rival parades of the two big labor organizations—Central Federation of Labor and Central Labor Union. As the parades passed through the various streets they were enthusiastically cheered by the crowds that lined the sidewalks and those at windows and on housetops. There were 30,000 workers in the lines of march. In Brooklyn and Jersey City, too, there were monster parades, while in Newark there was a general cessation of business. Paterson, Elizabeth, Washington and other sections in New Jersey had parades.

BUFFALO, N. Y., Sept. 8.—The observance of Labor Day was unusual in this city. In the parade of the labor unions fully 30,000 workmen took part. At Germania park the assemblage was addressed by Governor Hill.

In Pennsylvania.

HARRISBURG, Sept. 8.—All the officials and clerks at the capitol observed Labor Day. No work done there of any kind. ST. CLAIR, Pa., Sept. 8.—The Patriotic Order Sons of America and Junior Order United American Mechanics had an immense demonstration here in observance of Labor Day. Over 3,000 men were in line, and the parade was in five divisions. The decorations were the most beautiful ever seen in this section of Schuylkill county. Several arches spanned Main street, and there was also a grand arch across Hancock street.

WILLIAMSPORT, Pa., Sept. 8.—Labor Day was generally observed here. All the factories, mills, stores, banks, etc., were closed and the public celebration was under the auspices of Iron Molders' Union No. 95, of this city. A fine parade took place, participated in by all the organized labor unions of Williamsport, headed by the Fisk military band. The exercises of the day took place at Union park, where a large throng enjoyed the day. Speeches were delivered by Mayor Keller, Walter E. Ritter, E. S. Watson, Dan Reilly and others.

LANCASTER, Pa., Sept. 8.—Labor Day was observed here with the largest industrial parade in the history of the city. In the afternoon there was a barbecue under the auspices of the Central Labor Union and a test of the Australasian ballot system.

In the West.

CHICAGO, Sept. 8.—Between 30,000 and 40,000 workmen marched in the Labor Day parade to the music of thirty or forty brass bands. The crowds were too big to be accommodated at one park, and as a result there were various meetings, the one at Sharpshooters' park being addressed by Jerry Simpson and the others by other labor lights. All manufacturing establishments were closed.

TOPEKA, Kan., Sept. 8.—Labor Day was very generally observed as a holiday and in many places the Farmers' Alliance took a prominent part in the celebrations. In Topeka the day was observed on a large scale. The parade was very large. Not only the farmers, but their wives and children were all represented. An elaborate programme was carried out at the fair grounds, consisting of speeches by President Polk and General Weaver and all kinds of athletic sports.

MILWAUKEE, Sept. 8.—Artisans' day was quite generally celebrated in this city. A parade from the exposition building through the principal streets to Schiltz park, where the labor picnic was held, took place. About 2,000 workmen were in line.

MINNEAPOLIS, Sept. 8.—The Labor Day parade here was the largest in the history of the city. After the parade was over the workmen gathered in Athletic park and listened to speeches by Mayor Winston, S. M. Owen, late candidate for governor on the Alliance ticket, and others.

SAN FRANCISCO, Sept. 8.—Labor Day was observed here by a partial suspension of business and a parade in which 3,500 men participated.

Labor Day South.

NASHVILLE, Tenn., Sept. 8.—Labor Day in this city was celebrated with more enthusiasm than has ever been seen here before. Fully twenty thousand people were on the street to witness the parade, which was composed of all the labor unions of this vicinity. The procession journeyed to the West Side park, where speeches were made by prominent labor advocates and politicians.

MEMPHIS, Tenn., Sept. 8.—Labor Day was observed in this city in a more pretentious manner than on any day since its inception. The banks and exchanges were closed, and business men generally made a half holiday of the occasion. The principal streets of the city were traversed by a parade nearly two miles in length, consisting of the different trade organizations and the fire and police departments of the city. The appearance in line of the Farmers' Alliance on horseback, each man wearing a wisp of hay or cotton ball in his hat, was greeted with much enthusiasm.

ST. LOUIS, Sept. 8.—The organized labor of St. Louis turned out en masse and paraded the principal streets. Fully 20,000 workmen participated in the parade, which wound its way to Lindell Park, where they were addressed by prominent local speakers.

Canada Joins In.

MONTREAL, Sept. 8.—Labor Day was celebrated in this city with great enthusiasm. All public offices were closed and the day was observed as a general holiday. Fully 10,000 workmen marched in the parade. A grand picnic and games were held at the exhibition grounds.

OTTAWA, Sept. 8.—Labor Day was celebrated here in an imposing manner. Thousands of workmen turned out in the parade. Business was formally suspended. A picnic was held at the show grounds.

LOVE AND MURDER.

A Doctor's Infatuation Leads to a Terrible Double Tragedy.

BLOOMINGTON, Ills., Sept. 8.—Dr. Charles E. Ballard, of Saybrook, Ills., an M. D. Beulah Ison, late of Baker City, Ore., and daughter of the late Judge Luther B. Ison, of the latter place, were the parties to a sensational tragedy in this city. Dr. Ballard came to this city last Friday and secured a license to marry Miss Ison, who came here with her widowed mother a month ago to attend college.

All day Saturday Ballard engaged in attempts to get Miss Ison to elope with him, and Sunday visited her frequently and begged her to become his wife. She thought much of him, but begged him to postpone the event until after her education was completed. Ballard took his leave, bidding her a last adieu, saying he would go to Chicago, never to return to either her.

Yesterday, however, he appeared at her house and asked to see Miss Ison just for a moment. The interview was granted, and while in the parlor Ballard suddenly produced a revolver and shot her twice, once in the temple and once through the heart, killing her instantly. With the smoking revolver still in his hand he rushed wildly to the garden in the rear of the house, and there shot himself five times, once in the hand and four times in the region of the heart. He died in a few minutes.

He was recommended for his place at San Domingo by Charles Emory Smith, ex-Mayor of Philadelphia, and by General Wainwright, ex-Senator from Pennsylvania, and John N. Lynch. He is of light complexion and a Caucasian cast of countenance, and is reported to be a young man of unusual ability, integrity and tact.

A Thirty-four Story Building.

CHICAGO, Sept. 7.—Plans for the Odd Fellows' Temple to be erected in this city have been prepared. They provide for a building as high as the Washington monument. The entire ground space is built up to the height of four-story stories. Above this the building extends six stories in the form of a square cross, the four spaces at the angles of the main building being left vacant. Above this is a tower shaped structure fourteen stories high, making thirty-four stories altogether, with an aggregate height of 256 feet. The estimated cost is \$3,500,000. The ground space covered is to be 177 by 233 feet.

Garland Wants No Office.

WASHINGTON, Sept. 8.—Ex-Attorney General Garland has written a letter to his son, Sanders Garland, calling attention to a paragraph mentioning him as a candidate for the vacant interstate commerce commission and stating that there is no foundation for it. When the commission was formed he was offered one of the positions and declined it. He has also declined an appointment to the supreme bench.

The ladies of this city and state will present a petition, numerously signed, to the queen, whom they will ask to right the injustice done to Mrs. Maybrick.

To Guard Our Hawaiian Interests.

WASHINGTON, Sept. 8.—Orders have been sent from the navy department to the commander of the Pensacola, at San Francisco, ordering him to sail without delay to Honolulu. The Pensacola has been under sailing orders for some time. The United States has not been represented by a man-of-war in the Hawaiian islands for several months, and the state department has come to the conclusion that the United States has too many interests in that locality to delay longer in having the stars and stripes absent from Hawaiian waters.

A Russian Spy Caught.

CALCUTTA, Sept. 8.—General Alikhanoff has been arrested at Cabul, Afghanistan, charged with being a Russian spy. He is the well known Russian commander and diplomat, famous for his command of the expedition of 1879 against the Tekke-Turcomans, and for his annexation of Merv in 1883, and the attack on Penjdeh in 1885. When arrested he was disguised as a Mohammedian worshipper. He claims that he has not recently been in the Russian service, having been dismissed from his command.

HO, FOR THE EXPOSITION!

The big Pittsburg Exposition opened in a blaze of glory on September 23, and all indications point to a successful show. Most of our country cousins will visit it before the close. City folk will thus have an opportunity to show their hospitality in return for favors received. We learn with regret that Major Max Klein, owing to a press of business, was unable to arrange a display this season, as in former years. Visitors to the city should by all means take a peep at his model establishment, No. 8 Federal street, Allegheny, which is within a stone's throw of the Ft. Wayne and West Penn depots. They can then return home with the satisfaction of having seen the largest and best equipped wholesale liquor house in this section of the state—the headquarters of those world famous brands of absolutely pure whiskeys, "Silver Age" and "Dijonaise." The former sells at \$1.50 a bottle and the latter at \$1.25 per full quart. Major Klein, it may be added, also keeps in stock Bear Creek, Guckenheimer, Finch, Gibson and Overholt, and the finest old whiskeys, brandies, wines, cordials, etc. Call and see him.

The Money Returned.

Friday's Muncy Luminary states that Jacob Gray, of near Hughesville, an individual who did not believe in banks, was recently robbed, while absent from his house at church, of \$455. Gray had been in the habit of keeping his money concealed under the carpet, and it was supposed he had been robbed by some person who knew this fact. A day or two ago he was surprised to receive a package which upon being opened was found to contain the stolen money, every dollar being intact. It is believed that the thief became conscience stricken or fearing discovery, determined to get out of the difficulty by returning the money. Farmer Gray has now opened a bank account.

A Mystery.

How the human system ever recovers from the bad effects of the numerous medicines often literally poured into it for the supposed relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments, is a mystery. The mischief done by bad medicines is scarcely less than that caused by disease. If they are weak, bilious, dyspeptic, constipating or rhumatic, would often be guided by the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, it is in every instance obtain the speediest aid derivable from rational medication. This medicine is searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medical stimulant not to be found in the very local bitters and stimulants often resorted to by the debilitated, dyspeptic and languid.

Does Experience Count?

It does, in every line of business, and especially in compounding and preparing medicines. This is illustrated in the great superlativity of Hood's Sarsaparilla over other preparations, as shown by the remarkable cures it has accomplished.

The head of the firm of C. I. Hood & Co. is a thoroughly competent and experienced pharmacist, having devoted his whole life to the study and actual preparation of medicines. He is also a member of the Massachusetts and American Pharmaceutical Associations, and conditions actively devoted to supervising the preparation of and managing the business connected with Hood's Sarsaparilla. Hence the superiority and peculiar merit of Hood's Sarsaparilla is built upon the most substantial foundation. In its preparation there is represented all the knowledge which modern research in medical science has developed, combined with long experience, brain work, and experiment. It is only necessary to give this medicine a fair trial to realize its great curative value.
