The London and Westminster Bank Raided by Thieves.

SAID TO HAVE CAPTURED A MILLION

The Managers of the Institution Decline to Make Any Statement for Publication-The Authorities Using Their Utmost Efforts to Trace the Missing Fortune.

London. Sept. 22. — The banking world of this city has just been startled by the announcement that an important bank robbery has taken place in this city. The police and bank officials are trying to keep the matter as quiet as possible, so that the entire facts in the case are not obtainable at present. It is known, however, that the institution that has suffered is the London and Westminster bank, limited, No. 41 Lathburg, E. C., an important establishment having over fifteen branch houses in this city.

The money stolen, it would appear, consisted of a large parcel of bills remitted from the country banks to the London and Westminster bank. The thief or thieves must have cleverly watched for the proper opportunity to accomplish the robbery and to have gained access to an apartment near the main entrance to the bank. This apartment was easy of access from the street and the parcel of bills is supposed to

Billing-hurst, the county manager, decline to make any statement for publication as to the actual loss incurred by the bank, but it is currently reported that the amount stelen is not less than \$1,000,000, and that it may amount to as much as

\$1,250,000.

The bank officers, the city police authorities and the criminal investigation department of Scotland Yard are putting forth their utmost efforts in order to effect the capture of the thieves.

Notice of the robbery has been sent to
the police centres throughout the British Isles and on the continent, and the sailing of every passenger vessel is be-

ing watched.
Notice of the robbery has also been sent to all the banks upon which the bills were drawn, but the police theory is that no attempt will be made to change the bills in this country, but that the thieves will have recourse to the continent, where the presence of so many wealthy travelers from England and the United States makes such transactions easier than in this country.
