THE SITUATION

AS FOUND BY DADDY. DUNHAM.

Opinions in regard to the Result of the Elections—Ohio and Pennsylvania Claimed—Fighting Chance for Success.

During the past week our good old friend "Pap" Dunham has been halting fellows on the street corners and on the highways to get their opinions of the present political situation.

From a conversation with J. M. Dale, Esq., chairman of the republican county committee, we learned that the party in this county is thoroughly united and all past dissatisfaction gone where the woodbine twineth.

W. F. Reeder, Esq., an active and influential republican, says there is no doubt that last year's democratic majority will be considerably reduced this fall, and that the republican state ticket will be elected by good majorities.

John P. Harris, cashier of the First National Bank, who is well booked in politics, says the republican state ticket will be elected by good majorities and the democratic majority in the county greatly reduced.

Mr. L. A. Shaffer, the present Prothonotary and chairman of the democratic county committee, says their party has made no canvass of the county, that in all probability there will be but one democratic meeting held in the county during the campaign, unless more funds are supplied.

W. I. Swoop, Esq., a practicing attorney in this place, and a son of the late Bucher Swoope, says that the democratic majority in the county ought to be reduced this year; that the republican state ticket ought to win, and in his opinion the Constitutional Convention will be snored under.

Ex-Governor A. G. Curtin, who is enjoying excellent health, was asked his opinion of the result of this fall's election. He said he saw no reason why Centre county should not give its usual Democratic majority this fall, and that the party had more than a fighting chance in the state, and if the democratic managers did not lose their heads, which was possible, he might expect the election of Wright and Tilden.

Charles Kurtz, Esq., editor of the CENTRE DEMOCRAT, who is blooming into a first class democratic politician, says, there will be a small vote polled this fall, and he don't think the democratic majority in the county will be up to that of last year's, and that if the honest republicans through the state, who are disgusted with the Bardsley business, vote the democratic state ticket, there would be a fighting chance for Wright and Tilden's election.

With the harmony now existing in the republican ranks the democratic majority in the county this fall should not be over 450, as after diligent enquiries of persons from all sections of the county, we cannot learn of a single republican who will not vote for Gregg and Morrison.

One of John Stoner's cows in jumping over a fence caught at one of the sharp palings which penetrated her body to the depth of twenty-two inches and broke off.

Lieutenant S. A. Wolf, in charge of the military department of the State College, has just returned from Gettysburg where he has made arrangements for an encampment of the two hundred and fifty P. S. C. Cadets.
