ERAZIL'S WAR CLOUD.

A Declaration of Independence in One Province.

LONDON, Nov. 10. — Dispatches re-ceived here from Pernambuco show that the troubles in Brazil are approaching an acute crisis, and there is much anxiety expressed in financial and commercial circles regarding the outcome of Marshal Deodoro da Fonseca's action in dissolving congress, and again assuming the role of dictator, which he laid down subsequent to his election as president of the newly formed republic.

Many grave doubts are expressed as to the success of this latest political move.

These dispatches state that in Pernambuco there is general discontent on all sides at Da Fonseca's action, but there is nothing in them to show that the people have done anything further than to express their disapprobation of the course followed by the dictator.

From the province of of Rio Grande do Sul, however, comes intelligence that is alarming in its nature. The news from this province is to the effect that the local government has refused to acquiesce in the assumption by Da Fonseca of the powers of a dictator, and has declared the independence of the province. The dispatches further state that there

is great discontent through provinces of Brazil.
