WASHINGTON, Feb. 25.-In the senate Mr. Sherman, from the committee on foreign relations, reported a bill to protect foreign ex-hibitors at the World's Columbian exposition from prosecution for exhibiting wares pro-tected by American patents and trade marks, and it was passed. Mr. Manderson introduced bills against the "green goods" business. The rest of the session was taken up by the Idaho contested election case. In the house Speaker Crisp again presided, but little business was transacted. Mr. Tarsney (Mo.) asked unani-mous consent for the present consideration of a resolution directing the committee on labor to investigate various matters affecting the wage workers. It was adopted. The house then went into committee of the whole, Mr. Bynum (Ind.) in the chair, on the Indian appropriation bill.

WASHINGTON, Feb. 26 .- In the senate Mr. Cullom presented a protest against free silver from a Grand Army post in Illinois. Mr. Teller presented a petition from a Colorado G. A. R. post for pension legislation. The Idaho contest was taken up, Senator Vance speaking in behalf of the contestant, Mr. Claggett. In the house the report of the com-mittee on elections in the contested case of Craig against Stewart, from the Twenty-fourth district of Pennsylvania, in which the majority favor the contestant, was taken up and discussed at length, but no final action was taken.

WASHINGTON, Feb. 27 .- Among the bills reported from committees in the senate and placed on the calender was one appropriating \$75,000 for a bronze statue of Christopher Columbus and for the removal of the Peace monument to another site; appropriating \$500,000 for an additional fireproof building for the National museum. The consideration of the Idaho contest was resumed. Mr. Clag. gett, the contestant, spoke in his own behalf The senate adjourned without action on the case. In the house Mr. Clancy (N. a carefully prepared speech in the senate yes-terday deriding considerations of expediency as applied to the silver question, and advocating immediate and aggressive action by the friends of free coinage. The rest of the day was given up to the Idaho contest, which is to be sat out and brought to a conclusion today. In the house the Indian question still occupied attention, the entire day being devoted to the Indian appropriation bill. But little progress was made with the bill, the maintenance of the Indian school at Carlisle giving rise to an animated discussion, which occupied most of the day. A resolution from the committee on rules was reported that on Tuesday, March 23, the silver bill should be be considered, and notice was given that on Monday, March 7, the

resolution would be called up for consideration. BERLIN'S BIG RIOTS. Dissatisfied Workmen March to the Im-

perial Castle.

BERLIN, Feb. 27.-The riots of the past three days are still the all absorbing topic of interest in this city and throughout Germany. Beginning on Thursday by a march of 6,000 dissipated workingmen, singing the "Marseillaise," to the castle, where they intended to lay their grievances before the emperor in person. they continued at intervals during yes terday and today. When the mob reached the castle gates on Thursday they were met by a formidable array of mob police, who used the flat of their sabers and the stocks of their rifles with telling effect. The mob made a desperate resistance, but the police were reinforced, and after a severe struggle succeeded in breaking the ranks of the rioters and in putting them to flight. Throughout Thursday and Friday the riots were continued at frequent intervals, and the police were kept busy in dispersing the riotous mobs, but many were severely wounded in the ranks of the police as well as among the strikers. The mob looted the bake shops and distributed the bread among their fellows, who in many instances bore the food away to their starving families. A feature of Friday's demonstrations was the appearance of the emperor among the maddened crowd, accompanied only by an aid. He looked neither to the right nor

PITTSBURG, Feb. 29 .- The mystery surrounding the death of Sarah Joyce, the young Irish girl, whose remains were found on Sylvan avenue a week ago, has not been cleared up, but the police au-thorities are inclined to the belief that John Pulpus. the negro suspect, knows more about the case than he cares to tell. The coroner's jury rendered a verdict that Miss Joyce died from asphyxia, the result of an assault and struggle, and that from the evidence the jury believes that Pulpus was responsible for the death. The evidence against Pulpus is slight and entirely circumstantial.

MAHANOY CITY, March 1 .- The individual coal operators owning and operating mines in this neighborhood are not much in favor of the semi-monthly pay system, and some of them have notified their employes that they intend re-turning to the old monthly system. Among these are Lentz, Lilly & Co., operators of the Springdale and Morea collieries. Saturday was their usual pay day, but the men walted in vain at the company's office for their money, and finally went their way, but later on held a mass meeting and decided to quit work. Yesterday about sixty of the Springdale employes struck. The colliery is running short handed at present, but the force is too small to continue long, and they will likely have to suspend

CHESTER, Pa., March 1.-After an ab-sence of nineteen years Captain Charles Cooley, a seafaring man, has returned to Chester to find his wife married again and a son that never knew him grown up almost to manhood. Captain Cooley left Chester without telling anyone of his intentions, and during his long absence he has visited Australia, South America, Mexico, Texas and the lumber fields in the northwest. His wife and friends concluded he was dead, and some two years ago Mrs. Cooley joined her fortunes with those of Robert Enring, a prosperous expressman. The re-turn of the long lost husband has thrown his wife into a state of nervous excitement. The original husband says he will not interfere with the union, and the couple are welcome to live together as far as he is concerned.

Although over 200 arrests were made on Thursday and Friday and nearly a hundred more received serious injuries the disorders were continued today. Again the emperor appeared on the streets, and later appeared with the empress. They were respectfully greeted. BERLIN, March 1.—Since Saturday

night the city has been quiet, and there has not been a single disturbance that called for armed police interference. It is believed that the disorderly movement has spent its force and that no further trouble is to be apprehended. Tranquility prevails even in the districts in which the disorders were most marked.

A Greek Cabinet Crisis.

ATHENS, March 2.-The Greek cabi-net, of which M. Delyannis was the prime minister, has resigned, and the king has summoned M. Tricoupis to form a new ministry. The greatest ex-citement has been caused by the resig-nation of the ministry. The ministers declined to voluntarily accede to the king's request, as they have a majority in the chamber of deputies. M. Del-yannis has called a meeting of his sup-porters, and it is reported that he in-tends to proceed to the chamber at their head and state his position.
