On the democratic side there is considerable activity and a number have already signified their willingness to take a chance at securing a nomination. This far the following men have been spoken of for the various positions.

There are three names mentioned C. A. Faulkner, Philipsburg, and H. doing. L. Harvey, Milesburg. Any one of whom if nominated would be a strength to the ticket and would give dignity to the position.

For Prothonotary there are a number of young democrats hustling about trying to obtain the prize. The first one in the field was C. U. Hoffer, of Philipsburg; and later M. I. Walker Township Ahead.

For a number of years past the Overseers of the Poor of Walker and Marion townships have been locking horns over the question of which district should be compelled to support the family of Daniel Delaney, who became violently insane in 1885 and was taken to the Asylum. Daniel came from Ireland in 1871 and live1 with his brother John in Marion township until 1874. Badly Used Up.

Last week Mr. D. C. Keller, of Centre Hall took a car load of cattle to the Philadelphia market. He was engaged about the stable looking after the feeding of the stock and was in the hay mow when by some accident or misstep he fell through the hay hole to the floor below and was seriously injured. On Friday he managed to reach his home near Centre Hall. We are told that his left arm was broken and that several ribs were fractured. The injuries are of such a nature as will keep him confined to his home for some time. We are sorry to hear of Mr Keller's misfortune and hope he will soon be able to move about again.

KILLED BY THE CARS.

TERRIBLE ACCIDENT NEAR COBURN

David Aurand Tries to Jump on a Moving Car and Falls Under the Wheels-Lived but a Short Time After.

On Friday morning as usual the local freight that runs between Bellefonte and Sunbury left at 7 o'clock. This train was number 154 with Jessie T Cherry as engineer and Samuel Conrad as conductor. Among the brakemen on this train were two brothers, David M. and W. D. Aurand. Everything went all right until they came to Cherry Run. MARHIAGE LICENSES

Taken for a Crank.

A semi-fiendish delight often seems to possess people of strong nerves in sneering at those with weak ones. The irritability of the nervous hypochondriac is ridiculed as natural ill temper. The very genuine and distressing symptoms from which he suffers are made light of 'He' or "she is a crank !" is the cheerful sort of sympathy with which the nervous invalid meets pathy with which the nervous invalid meets from the unfeeling and the thoughtless. At the same time no complaint is more defined and real, none has a more casily explainable origin when it is chronic. Imperfect digestion and assimilation are always accompanied by nervous debility and anxiety. Build up the powers of assimilation and digestion with Hos-tetter's Stomach Bitters, and nervous spmp-toms, sick headaches and a generally feeble condition of the system are remedied. Be-member that fearful ravges are produced by la grippe among weakly, nervous people. Hos-tetter's Stomach Bitters cures it, and prevents malaria, rheumatism and kidney complaint.

Ols Widder, BOONASTEIL. From Rev. Ira C. Mitchell.

Rev. Ira C. Mitchell, who for some years past was located at Mansfield,

Ohio, formerly one of Centre County's prominent attorneys, writes from Bermingham, Alabama, where he has accepted a call, as follows : Accept my thanks for copying the articles concerning my grand old friend Andrew G. Curtin, from whom I received many kind favors in my early manhood. He moved my admission to the bar. May his declining years be as happy as the et. al. vigor of his manhood has been noble and useful to his race.

Effects of Salt Upon Whitewash.

Common salt mixed with white wash results in the production of a wash as hard as cement, and which can not be removed by scrubbing. This is due to the hygroscopic action of the salt, which absorbs water and permits of the speedy combination of the lime with the carbonic acid of the atmosphere. A trial of this composition upon the brick wall of a well hole or shaft for light stood extremely well and after the lapse of four years the coating was as good as ever. The use of three parts of quick lime to one of common salt is recom-
