Safety in the Mist of Danger.

This would seem a contradiction—is so, in fact, to the eye. But experience has proved its possibility. Take the case of the individual who dwells in a malarious region. A robust constitution is no certain defence against the dreaded chills. What is? Recorded testimony proves that Hostetter's stomach Bitters is precisely this. This continent does not limit the field where the medicine has proved its efficacy. In South America, the isthmus of Panama, Mexico, everywhere in fact where miasma-born disease takes on its most obstinate and formidable types, the Bitters is a recognized specific in limitless demand, and prescribed by physicians of repute. Potent, too, is it in disorders of the stomach, liver and bowels, and against that destroyer, rheumatism. It improves appetite, neutralizes rheumatism and kidney complaints.

People will have themselves largely to blame if the horrid grip secures a foothold here this winter. The Board of Health sounded a note of warning a few days ago. Physicians all agree that with proper precautions the disease may be prevented. Aged and enfeebled persons, in fact any one whose system is run down, require a healthful stimulant just now. Klein's Silver Eye and Duguesne's eye whiskeys which sell respectively at \$1.50 and \$1.25 per full quart are the purest and best stimulants known. The most skilled practitioners in the country indorse and prescribe these brands and leading hospitals use them exclusively. Goods expressed everywhere. Send for catalogue, mentioning this paper.
