A FORTUNE OF SIXTY MILLIONS

Left to be Divided Among His Children, One of Whom Is Mrs. J. Coleman Drayton-He Was One of the Richest Men in America.

Paris, April 27. - William Astor. senior member of the house of Astor in America, and grandson of the original John Jacob Astor, died at the Hotel Liverpool, aged 61. The cause of his death, according to one report, was heart failure, while another account says it was caused by conjection of the lungs.

Mr. Astor was the father of Mrs, J. Coleman Drayton, and was greatly wor-ried over the Borrowe-Fox-Milbank scan-

dal in which she was involved. Next to his nephew, William Waldorf Astor, and probably Jay Gould, William Astor was the richest citizen of America. His wealth was recently estimated at \$60,000,000, the greater part of which is invested in New York real estate.

William Astor, who during the life of his father was completely overshadowed by him, has always been more or less in by him, has always been more or less in the background so far as public promi-nence was concerned. He was only re-cognized by the reflected light of his wife, who since the death of Mrs. John Jacob Astor, several years before that of her husband, has been the acknowledged leader of New York fashionable society. For many years the influence of Mrs. William Astor in society matters has been all powerful, and she has, in fact, been the sole arbiter of the fate of those who have sought to gain admittance to the "inner circle," or the creme de la creme, as Ward McAllister calls it.

Her predecessor had been Mrs. John Jacob Astor, her sister-in-law, and after her death it was natural that she should sume the scepter, the wife of William Waldorf Astor not being recognized by her as entitled to take the lead.

A ROW IN COMMITTEE. Mr. Enloe Attempts to Strike Pension

Commissioner Raum. WASHINGTON, April 27 .- "You are a har!" said Representative Enloe after Commissioner Raum had denied stating to Mr. Enloe something that Mr. Enloe insisted the commissioner had said to him, during the proceedings of the pen-sion committee, and with the utterance of these words he sprang towards the commissioner, who was seated just across the table, to do Mr. Raum violence.

Mr. Enloe had moved a few feet before the other members of the committee and Mr. Cooper, who were seated around and between Mr. Enloe and the commissioner, could spring to their feet, seize the Tennessee representative and pre-vent blows being exchanged, Commissioner Raum having hastily got on his feet and prepared for an attack.

The members forcibly restrained Mr.

Enloe and there was a scene of disorder, Mr. Enloe endeavoring to break away. Commissioner Raum was excited, and exclaimed that he wanted no personal difficulty, but feared no man, which caused a renewel of Mr. Enloe's attempt to get at him. The commissioner in a moment picked up his hat and left the room, while his colleagues finally suc-ceeded in partly calming the prosecutor and getting him to take his seat.

After some brief expressions of regret and explanation the committee, as the best way out of the affair, took a hasty adjournment. No actual blows were

WARNED IN TIME.

People will have themselves largely to blame if the borrid grip secures a foothold here this winter. The Board of Health sounded a note of warning a few days ago. Physicians all agree that with proper precautions the disease may be prevented. Aged and enfeebled persons, in fact any one whose system is run down, require a healthful stimulant just now. The medical faculty are a unit upon this point. Klein's Silver Age and Duquesne rye whiskies which sell respectively at \$1.50 and \$1.25 per full quart are the purest and best stimulants known. The most skilled practioner in the country inderse and prescribe these brands and leading hospitals use them exclusively. Major Klein also sells Guckenheimer, Finch, Gibson, Overholt and Bear Creek at \$1 per quart or six quarts for \$5. His establishment is headquarters for everything in the liquor line. with this terrible humor. Being urged to try Hood's Sarsaparilla we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to subside, the itching and burning ceased, and in a few months her head became entirely clear of the sore. She is now perfectly well, has no evidence of the humor, and her skin is clear and healthy. She seems like an en-tirely different child, in health and general appearance from what she was before taking
