One price to all, no discrimination, no tricks, no missrepresentation, was another point. Have we faithfully carried this out? We are willing to let U answer.

Still another point which we think we have established beyond the shadow of doubt, is that while the prices asked U are uniformly as low as U can find the same goods anywhere in the United States, the quality is first class and up to the standard. This admitted, we propose to move foreward to a larger business.
