DEFEATED BY THE YACHT CORSAIR

The Emperor Himself Took Part in the Race, Against the Advice of His English Relatives-The Result of the Race Gives General Dissat-

Cowes, Aug. 2.—In the race for the queen's cup, sailed yesterday over the queen's course, Emperor William sailed his own yacht, the Meteor. His desire to take part in the race was thought to have been altered by the opinion of his English relatives that he had better remain in the background and let the Meteor's English crew look after his interests. It was intimitated, it is said, by a member of the British royal family that in case the Meteor should be defeated his prestige might suffer a little. especially as his presence on board in such an event would cause some curious comments in the English and French press. Nevertheless at the last moment the emperor resolved to try his luck aboard, and shortly before 10 o'clock he was rowed to the Meteor.

Besides the imperial yacht the entries included the Corsair, Mohawk, L'Esperance, Rethusia and Cetonia. The start was made promptly at 10 o'clock and the Meteor was the first to cross the line. There was a light breeze from the northwest and the sky was overcast. Nevertheless the weather remained favorable and left the race a fair test of speed from start to finish. The Meteor seemed to be having her own way as the yachts passed out of sight, and bets were made freely. At 3 o'clock the Meteor was ahead, and the L'Esperance was ashore. When the Meteor crossed the line the other yachts were out of sight. It was supposed that she had won easily, and crew of the German war ship Moltke, which was at anchor off Cowes, began cheering.

Although the emperor's yacht had a time handicap of twenty-seven minutes it was thought that she was too far in the lead to leave the other yachts in the race a chance for the prize. The emperor was being congratulated already upon his victory, when the Corsair, owned by Hon. Victor Montague, came into sight on the return.

The Corsair was covering the course in fine style, and it was evident at once that she was to give the Meteor close competition for the cup. There was little cheering, as the general feeling was that the emperor had shown so much sporting blood that he should win the race. The Corsair, however, reached the buoy which marked the end of the course just within her time allowance, and took the cup, the Meteor coming in

The Meteor was formerly the well known Scotch cutter Thistle, which was defeated in 1887 by the Volunteer in the races at New York for the America's cup. She was subsequently pur-chased by Emperor William, and her name was changed to Meteor.

An Assassin's Confession. London, Aug. 2.—A man who is confined in prison in Glasgow has confessed to the authorities that he was implicated in the murder of Lord Leitrim, who was shot and killed on April 2, 1878, while driving near his residence in County Derry, Ireland. The prisoner also states that he was concerned in the killing of Lord Mountmorres at Rusheen, County Mayo, Ireland, Sept. 25, 1880. He further says he was hired to assist the man who killed the informer James Carey. who was shot and killed on board the steamer Melrose at Port Elizabeth,

O'Donnell. The prison commissioners are carefully investigating the story.

Jones' Majority Reduced. BIRMINGHAM, Ala., Aug. 3.—Complete returns received from forty-nine out of the sixty-six counties in the state indicate a majority ranging between fifteen and twenty thousand for Governor Jones and the regular Democratic state tickets. Returns show that Kolb polled a much heavier vote than was at first supposed. Kolb's lieutenants concede Jones' election by ten thousand. The legislature is very close. This result is said to be due to a scheme of the Kolbites to capture the legislature and by some means unseat Jones. The black belt section, where so many negroes reside, went overwhelmingly for Jones.

An Important Convention.

CHICAGO, Aug. 3.—An official call has been issued for a state meeting of the Illinois Knights of Labor at Springfield, Aug. 9. The meeting will be an important one from the fact that the knights will decide which political party the order shall support in the coming campaign. Matters of legislation will be discussed, and the demands of organized labor will receive due consideration. As the knights went into the Omaha convention and the local men have been active in the People's party movement it is likely that that party will receive their indorsement.

The success of the enterprise may now be regarded as a foregone conclusion.

WEST CHESTER, Pa., Aug. 8.-A new and peculiar disease has made its appearance here within the past two days, and has already developed into an epi-demic. There are at least 200 cases in town, and new ones are appearing constantly. While physicians say the ailment is not dangerous, it is most un-comfortable, and produces considerable suffering. The first symptom is a dull ache in the head. This grows more pronounced, and soon the throat becomes very sore. Large and exceedingly painulcers appear on the tongue, and the afflicted one is feverish and flighty. Y., who was convicted Sept. 20, 1890, of violating United States banking laws in making false reports to the comptroller of the currency, and sentenced Jan. 22, 1891, to five years' imprisonment in the Erie county penitentiary, at Buffalo, the president has remitted the unexecuted portion of the sentence, which he says he "does only because I am advised that, the United States having used the petitioner as a witness against one jointly indicted (his brother), Faulkner has an equal right to clemency under the decision of the supreme court. This right, if it can be called such, could not enforced, but as it has become a settled rule in criminal procedure I very reluctantly act upon it.

Occupied by Russian Troops. LONDON, Aug. 2.-A dispatch to The Times from Calcutta says that three detachments of Russian troops have oc-cupied the Pamir region as far as the Hindoo Koosh mountains, holding the country from which Colonel Yanoff, of the Russian army, retired last year. The Russians have formed military posts and organized the Kirgheez tribesmen from Turkestan as a garrison for the occupied territory. This news excites considerably interest, and it is believed that the sudden activity is due to the success of Mr. Gladstone in the election, there being a conviction at St. Petersburg that Mr. Gladstone will not be as active as Lord Salisbury in obstructing Russian aggression.

BERLIN, Aug. 3.—The trial of Ru-dolph Jaeger, the chief cashier for the great banking house of the Rothschilds at Frankfort, who, after seventeen years of service, was discovered in April last to be a defaulter, was begun in Frankfort yesterday. I Am So Tired.

Is a common exclamation at this season. There is a certain bracing effect in cold air which is lost when he weather grows warmer; and when Nature is renewing her youth, her admirers feel dull, sluggish and tired. This condition is owing mainly to the impure condition of the blood, and its failure to supply healthy tissue to the various organs of the body. It is remarkable how susceptible the system is to the help to be derived from a good medicine at this season. Possessing just those purifying, building up qualities which the body craves, Hood's Sarsaparilla soon overcomes that tired feeling, restores the appetite, purifies the blood, and, in short, imparts vigorous health. Its thousands of friends as with one voice declare "It Makes the Weak Strong."

It Was Indeed a Miracle.

384 FIRST ST., BEOORLYN, N. Y., Aug. 3, '90 I wish to state what a wonderful benefit Pastor keenig's Nerve Tonic has been to my brother, who has suffered from rheumatism since IssS and has not been able to do work of any kind since that time. He has tried all kinds of patent medicines and different doctors of skill, but all without benefit, until he took the Tonic. He has continually improved since, and I will say, and hundreds besides me who have seen him during his sickness, that it was indeed a mirscle to see him restored to health.
