WAR AT COAL CREEK

Sixteen Killed in a Fight Between Troops and Miners.

CHARGES AGAINST STATE OFFICERS

The Labor Commissioner Out on Bail and the Assistant Mine Inspector Wanted by the Military Authorities—Bud Lindsay Turns Informer.

KNOXVILLE, Tenn., Aug. 18.—At a late hour on Tuesday night a mob of a thousand miners captured three locomotives and several coal cars at Coal Creek and forced the engineers to take them to Oliver Springs, where about ninety-five convicts were employed in the mines of the Cumberland Coal company. They arrived at Oliver yesterday on the stockade where the convicts were confined. About 7 o'clock they assaulted the stockade, and a lively battle ensued. The stockade was defended by fifty picked guards and a company of thirty-eight militiamen. The guards morning, and the guards and militiamen, seeing that it was useless to combat a force of 1,000 infuriated and determined men, quietly surrendered.

The convicts, guards and soldiers were loaded on a train of flat cars and the engineer, at the point of a Winchester, was compelled to pull the train out in the direction of Knoxville. The stockade was then burned to the ground. NASHVILLE, Aug. 20.—At 7 o'clock last evening a special train bearing the two volunteers who were killed in the battle at Coal Creek yesterday morning. Not until the arrival of this train was it possible to get a correct statement of the battle and the exciting incidents leading up to it. Sixteen men were killed in all. The battle commenced at 6 o'clock in the morning and lasted half an hour. The fight took place at Walden ridge. The soldiers were under command of Major D. A. Carpenter, and were ambushed on their march down the hill. The miners were secreted behind a stone ridge, and after the militiamen had passed poured a volley into them. The troops returned the fire and fought valiantly, but being outnumbered retreated to Oufus.

KNOXVILLE, Tenn., Aug. 20.—General Carpes is monarch of all he surveys at Coal Creek. He occupies a meadow midway between the village and Fort Anderson. He immediately demanded the release of Captain Anderson, who had been captured the day before in response to a flag of truce, and gave the miners until 1 o'clock to produce him. One o'clock came, 3 o'clock passed by, and the miners had not turned over the captive. He then ordered his men to arrest men promiscuously, until 100 men had been taken into custody. In an hour a committee sent out for the purpose marched into camp and surrendered the prisoner.

KNOXVILLE, Tenn., Aug. 22.—Absolute peace reigns throughout Coal Creek valley. Yesterday, but for the movements of the soldiers, the village that for nearly a week has been the scene of a fierce conflict was a quiet as a New England farm town. Five men lie dead today from out of the ranks of those who have supported the law—three of them soldiers and two civilians who marched forth at the call of the governor.

Eleven miners are numbered as dead, though all the bodies, save one, have been spirited away to mountain fastnesses by their late companions, who follow Indian methods of warfare in this as well as other ways.

KNOXVILLE, Tenn., Aug. 23.—Twenty-three men supposed to be in sympathy with the most notorious of the miners were arrested near Coal Creek yesterday and locked up. Several of them are suspected of holding up the mail train between Clinton and Coal Creek last Thursday night.

Charles T. Alleman, assistant mine inspector for the state, is wanted at Coal Creek by the military officials. He is charged with having acted in concert with the miners for months, and has aided Labor Commissioner Ford in keeping the miners posted in all the movements of the state military forces and civil authorities.

The report that Bud Lindsay, the leader of the riotous miners, was lynched, is incorrect. The facts in the case are as follows: About 10 o'clock at night a party of citizens through strategy secured the notorious agitator, Bud Lindsay, who has been a prisoner at Coal Creek for the last few days, from his guards and conducted him up the valley towards Briceville, a few miles south of this place, with the intention of lynching him. The fact that he had been lynched was then circulated. They were fully determined, and would undoubtedly have carried out their plans but for the pitiable pleadings of Lindsay and his solemn promise to go with the troops and point out every man in the mountains who was implicated in the late miners' trouble. His life was spared on this condition. Lindsay was taken back to Coal Creek, and will be used to identify the outlaws who have been prominent in the recent troubles.

EMPIRE STATE STRIKERS.
The Blocked Freight is Being Gradually Moved.

BUFFALO, Aug. 18.—The New York Central switchmen went out Tuesday afternoon, and at noon yesterday the Rochester and Pittsburgh switchmen joined them. At 1 o'clock this morning the strikers were joined by the men of the Lake Shore, who stopped work because one of their number refused to handle New York Central freight.

BUFFALO, Aug. 19.—In response to a circular of inquiry from the state board of arbitration Vice President Webb returned a reply which is believed to embody the sentiments of the officials of other roads. It was to the effect that the Central had nothing to arbitrate. Late yesterday afternoon the entire force of switchmen on the Nickel Plate road joined the forces of the strikers. The trouble was precipitated by the discharge of two men for refusing to switch New York Central freight.

BUFFALO, Aug. 22.—The improvement in the situation is only slight, but it favors the railroads. Under cover of the protection of 8,000 soldiers the Central, Erie and Erie began to move a little freight. All the perishable freight that could be put in position was started early. The volume was not large, but it was sufficient to give the officials cause for elation, and they now assert more positively than ever that the strike is broken and that in a couple of days they will be handling freight with dispatch.

About 1,800 grain shovellers quit work

out of sympathy for the switchmen. They had no grievance, being satisfied with the wages paid, and are not employed by the railroads. They went out to complicate the tie up and embarrass the railroads. This was the biggest event of the day. It is impossible to fill the places of the scoopers, for theirs is the strongest labor organization in Buffalo, embracing every scooper in all the elevators in the city.

NEW YORK, Aug. 22.—Everything is running smoothly in the New York Central yards. T. E. Richardson, yardmaster at the Grand Central depot, said: "The firemen will not go out, or the engineers, either."
BUFFALO, Aug. 23.—Midnight marks the close of the tenth day of the switchmen's strike, and though the refusal of the Western New York and Pennsylvania men yesterday afternoon to handle Central freight was emphasized by sixty-five men quitting work, it is not believed much vitality is shown by this action. There is every reason to believe that neither the conductors, engineers nor firemen will join the strikers.

BUFFALO, Aug. 24.—The strikers have been reinforced. All of the switchmen on the Delaware, Lackawanna and Western went out at 1:30 yesterday afternoon. Last night the switchmen employed in the yards of the Buffalo, Rochester and Pittsburgh road went on strike. The Michigan Central and Grand Trunk men are expected to follow next.

A Cholera Warning.
WASHINGTON, Aug. 24.—The state department has been advised by the consul of the United States at Hamburg, Germany, that it has been officially announced that cholera exists at that place. Consul Oscar Williams, at Havre, reports an epidemic of Asiatic cholera at that place, with many deaths, and advises an inspection of the fast liner La Touraine, due here Saturday next. These facts have been promptly communicated to the health officers at Staten Island, and every precaution will be taken in the matter, especially in view of the fact that the epidemic has now reached two of the most important ports in Europe with which the United States has any communication.

Earthquake and Floods in Japan.
SAN FRANCISCO, Aug. 23.—The Oriental steamship Gaelic brings details of enormous loss of life by a typhoon, landslide and earthquake in Japan. The typhoon raged two days at Tokushima, and the town was flooded. One hundred and fifty people were drowned, 2,000 houses were destroyed and 30,000 houses submerged. In Akogawa 900 people were drowned and 3,000 dwellings swept away. Near Sukushima a fissure opened and swallowed up houses and a hundred people. From Okuyama come reports of terribly disastrous floods. Over 5,000 houses were submerged and 100 people drowned.

Retaliating on Canada.
WASHINGTON, Aug. 22.—The proclamation of the president in retaliation for the unfriendly spirit of the Canadian government as evidenced in the discrimination against American vessels passing through the Welland canal to Canadian ports was somewhat of a surprise, though not unexpected. The proclamation states that on and after Sept. 1, 1902, until further notice, a toll of twenty cents per ton be levied, collected and paid on all freight of whatever kind or description passing through the St. Mary's Falls canal in transit to any port of the Dominion of Canada.

A Church Scandal.
ROME, Aug. 25.—Great excitement has been caused by the dismissal of Cardinal Ruggiero, prefect of financial affairs of the propaganda, and who has been looked upon by many as the probable successor of Pope Leo XIII. It is said that the pope himself ordered Ruggiero's dismissal, being convinced, as a result of inquiry, that Ruggiero, and not Monsignor Folchi, was the really guilty party in connection with the misinvestments, to use a mild term, for which Monsignor Folchi was dismissed from the papal service about one year ago.

Another Big Fight Probable.
NEW ORLEANS, Aug. 24.—A match between Bob Fitzsimmons and Jim Hall now seems probable. Mr. George H. Kline of the Crescent Turf exchange, is willing to bet \$10,000 on Fitzsimmons to weigh in the ring side, the fight to come on Sept. 8. The officers of the Olympic announce that they will do all in their power to arrange a match of this kind, and are willing to agree to their original proposition of a purse of \$15,000, with a side bet of \$10,000. It would make the total amount involved on the fight \$25,000.

Elevated to the Cabinet.
LONDON, Aug. 24.—It is officially announced that Herbert C. Gardner has been appointed president of the board of agriculture, which office now holds a seat in the cabinet. Mr. Gardner now represents Saffron Walden and Essex in parliament. He is 45 years old and married to a daughter of the late Lord Carnarvon. He has taken a great interest in rural questions, and during the late parliament he led the radical opposition to the government bill regulating tithes. He is a protege of Sir William Harcourt.

The Inman Line Again.
LONDON, Aug. 24.—The Inman Line steamer City of New York, Captain Arthur W. Lewis, passed Brow Head at 1 p. m. yesterday, making the run from Sandy Hook lightship in five days and seventeen hours. This is less than five days and twenty hours to Queenstown, and is the fastest eastbound voyage on record, the previous record being that of the Teutonic last October, five days, twenty-one hours and three minutes. The Inman Line steamers hold both the east and westbound records.

A Cardinal's Golden Jubilee.
QUEBEC, Aug. 24.—Yesterday was the fiftieth anniversary of Cardinal Taschereau's consecration as a priest. In the morning his eminence officiated at pontifical high mass at the Basilica. The ceremony was of a most impressive character. The old church, which was decorated with much taste, was crowded to its utmost capacity. In the afternoon the venerable cardinal was banqueted at the seminary, and at night a concert was given in his honor at Laval university.

The Fall River Mystery.
FALL RIVER, Mass., Aug. 26.—Miss Lizzie A. Borden arrived here from Taunton jail yesterday and was given a preliminary hearing on a charge of murder in the afternoon, beginning at 3 o'clock. There was a large crowd in court. After the examination of two witnesses the case was adjourned until Thursday.
