MISS BORDEN'S CASE

Accused of Attempting to Buy Prussic Acid.

PROFESSOR WOOD ON THE STAND.

Unexpected Testimony at the Hearing-No Trace of Blood or Hair Discovered on the Hatchet-The Statement of Lizzie Borden Contradicts Clerk Bence's Testimony.

FALL RIVER, Mass., Aug. 30 .- The court came in on the Borden case at 10:45 sharp, but at 8 o'clock the dingy court room was thronged and the in-teresting details of the district court were listened to by those who were assembled.

The strongest point brought out by this morning's testimony, the state's prosecutors say, was Lizzie Borden's remark, speaking of her mother to Mrs. Churchill, according to that lady's testimony, "I don't know but she has been killed too." Lizzie made this remark while telling that she thought she heard her mother come in. In the afternoon the testimony was of a more sensational character, and produced a pro-found sensation. Bence's testimony was corroborated by two other witnesses.

Eli Bence, drug clerk, testified that he remembered the day of the tragedy and was acquainted with Lizzie Bor-den. Witness saw her in his store the day before and she asked him for ten cents' worth of prussic acid to put on a sealskin sack or cape, but he told her he could not sell it without a physician's prescription. His attention was called to the fact that she was in the store on Thursday evening, and soon after that again, or about 6 o'clock. His attention was called to the fact that she was the daughter of Andrew Borden. Had heard her speak since that morning and recognized the voice; heard her at the house when he went up in company with an officer. She was in the kitchen alone with the officer and witness stood at the door. The peculiarity was that the voice had a tremor in it, and there was the same tremor in it when she said she had not seen anybody as when she asked for the acid.

FALL RIVER, Mass., Aug. 31.—Court came in at 10:30 precisely, and the first witness called was Professor Edward S. Wood, the man for whom everybody has been looking for days. He said he had received a package containing two stomachs on the 5th of Aug., and two ars containing milk used on the 4th and 5th of Aug. All were properly labeled.

The stomachs were labeled "Mr. and Mrs. Borden." The stomachs appeared to be perfectly natural. Mrs. Borden's stomach contained about eleven ounces of solid food. The food was partially digested and showed wheat, starch and meat. The contents contained chiefly meat, and there were vegetable pulp cells which might be bread or apples. The digestion seemed to be advanced in the neighborhood of two and one-half

ours, more or less. The stomach was tested for prussic acid, but with a negative result. The stomach of Mr. Borden contained only six ounces, chiefly water. In Mr. Borden's stomach there was only a small portion of starch; the digestion in his case, the contents being nearly all water. was much further advanced than in the case of Mrs. Borden. There were a few threads of vegetable tissue in the stomach which might have been apple. Witness had not yet analyzed the milk

and could not report on that.
On Aug. 12 he received from Dr.
Dolan a hatchet, two axes, a blue dress skirt, dress waist, white starched skirt, ounge cover and three small envelopes, in which were hair taken from Mr. and Mrs. Borden and hair taken from the hatchet. On Aug. 16 witness received a pair of black stockings. The hatchet contained a number of suspicious looking spots, but careful examination showed no traces of blood.

Every spot which looked like blood was examined, but no traces of blood were seen. A big smirch on the blue skirt looked like blood, but found not to be blood. The white skirt had one spot which looked like blood and was found to be one, and it was directly in front about six inches from the bottom. The carpet was blood stained (this was the sitting room carpet), and there was blood of course on that. There was no blood on the lounge cover.

The hair on the hatchet was not human hair (sensation), more like that taken from an animal. The spot on the right shoe was not blood, and there was no blood on either shoes or stockings. There was nothing on the two axes. Near the edge of the hatchet were spots which seemed to be blood, but were found not to be.

It is understood that while to the general public the testimony of Professor Wood was favorable to Lizzie, because it appeared to be demonstrated that there was no blood stains on the clothes or hatchet, that it was really against her, because of his evidence in regard to the time of death. It has already been established by the government that Lizzie was about the room at near the times referred to and that these times and the nearly exact time of death are almost blentical. If the testimony of Mrs. Regan is put in relative to a quarrel between the sisters, and it proves to be as has been stated, then the government will feel quite certain that there is no flaw in its chain. In the afternoen the first witness was Annie M. White, official stenographer, who said she was present at the inquest and took notes of the whole examination. Her notes as written out were offered in evidence. After objection the court decided to admit the statement Lizzie Borden made

at the inquest. The statement trecited the finding of her father after the murder and described her subsequent actions; said the blood on her skirt might have come from a flea bite; denied that she ever went to any drug store in Plymouth to inquire for prussic acid. She said that about two weeks before the tragedy she heard or saw somebody run down the steps and away; she saw something similar about the house last winter; when she first saw the form recently it was on the back steps and ran toward the barn; last winter she saw a person run away on a Sunday night when she came home from church and told her father of the occurrence, but said nothing to him about the second affair.

This closed the government's case. After the reading of the statement Dr. Dolan was called by the defense, and Mrs. Churchill was recalled and asked what Bridget had said about the note. Dr. S. W. testified for the defense, and the court then adjourned. went to any drug store in Plymouth to

A STRIKE IN PITTSBURG.

One of the Carnegie Mills Not Running Full.

Pittsburg, Aug. 31.—There was much excitement in Shoenberger's mill yesterday morning. The announcement was made by the firm that they would start up the steel departments regardless of whether their former employes reported for duty or not. The men refused to go to work pending a settlement of the steel scale. Several police officers were placed on guard but there was no disturbance to require their interference. Shortly after 9 o'clock a sufficient number of men had been secured to start up the Bessemer department, and the converter was put into operation. Up to noon five heats had been cast into income the second beautiful as the second however as this converted to the second however as the second how the second however as the second h gots. As soon, however, as this new steel was transferred to the steel department the puddlers, roughers, catchers, muck bar rollers and horseshoe rollers came out on strike. All departments of the mill then closed down except the Bessemer, which continued making steel ingots. In all about 400 men quit work.

Three of the most important departments of Carnegie's Thirty-third street mill were idle yesterday on account of several breakages in rolls and shafting. The furnace mill is also reported in very bad condition, having "raised" bottoms to such an extent that the cinder runs out over the foreplates on the stands. It is also said that several of the nonunion men who went home to spend Sunday failed to return to work. They were mostly skilled men, and their ab-sence has greatly crippled the working force in the mill. Five of the workmen deserted on Monday.

In the Twenty-ninth street mill the of the works in which work was being done today.

IRON HALL TROUBLES.

Somerby Thinks the Order Can be Put on a Sound Basis.

Providence, R. I., Aug. 31.—F. D. Somerby, supreme chief justice of the Order of Iron Hall, was in attendance at Branch No. 347. He told the manner bers that he was a much abused man; that the reports against him were un-founded, and that he believed that the order could be again placed on a sound

St. Louis, Aug. 31.-The Iron Hall of Missouri has taken another step downward. Breck Jones was appointed per manent receiver of the order for the state, with \$10,000 security, which will given by the Mississippi Valley are company.

CLEVELAND, Aug. 31,—In common pleas court Amos Denison was appointed receiver for the Iron Hall in this county with a bond of \$50,000. The fund in the banks is between \$30,000 and \$40,000. Judge Hamilton at this time refused to make the receivership apply to the entire state of Ohio.

Boston, Aug. 31 .- Judge Morton, in the supreme judicial court yesterday granted a temporary injunction against the order of Iron Hall on each of two bills in equity filed in court. The court refused to include a protection of members in case they refused to pay assess ments levied, saying that to accomplish that a separate application should be made by counsel. There will be a hear-ing in the case, it is said, at an early

Grangers Annual Exhibition. CARLISLE, Pa., Aug. 31.—Fully ten thousand people were in attendance yes-terday at the grangers annual exhibition at Williams Grove. They came principally from the Cumberland, Shenandoah and Lebanon valleys. Hon. Leonard Rhone, who has been selected to preside at all the meetings during the week, called the woman's suffrage association meeting to order at half past 9 o'clock yesterday morning. Addresses were made by Rev. Anna Shaw and others. The afternoon meeting was held in the auditorium. Addresses were delivered by State Senator Gerard C. Brown, of York county: Hon. Giles D. Price, Hon. S. M. Wherry, members of the legislature; John L. Shelly, Republican nominee from Cumberland county for the legislature; Deputy Attorney General Stranahan and others. In the evening a grand musical and literary entertainment took place in the auditorium.

Prepared for Suicide.

ALLENTOWN, Pa., Aug. 31.—A sensa-tion was created here yesterday by the discovery of a knife and several feet of steel wire in the possession of William F. Keck, who is to hanged here or September 8. It was learned that he secured the knife and wire from Henry Bachman, who is serving a term for burg-lary. It is thought Keck contemplated suicide in the event of the board of par-dons failing to take favorable action in

A Farmer Killed.

CHESTER, Pa., Aug. 31. — Charles Sears, a prominent farmer of Fairview, was instanily killed by a freight train on the Baltimore and Ohio railroad at that place last night. He had driven across the tracks when the herse be-came frightened and backed the vehicle on to the railroad. The wagon was smashed into fragments, but the horse escaped injury.

A Stranger Found Dead. WILMINGTON, Del., Aug. 31.—Yester-day morning about 10 o'clock the body

of an unknown man, apparently about 50 years of age and well dressed, was found in the barn of Charles Elcott, in the Ninth ward. He had probably been dead about ten hours. In his pocket was found a newspaper clipping, one cent and an empty vial.

Brewery Burned the Second Time. MILWAUKE, Aug. 31.—For the second time within three years the plant of the Falk, Jung & Borchert Brewing company is in rains. Excepting the office and the malt warehouse the whole plant burned to the ground early yesterday moraing. The loss is estimated at \$300,000; insurance \$185,000.

An Austrain Firm Fails. VIENNA, Aug. 31 .- Fratelli & Goldeffects, factors and exporters, have suspended with liabilities amounting to 800,000 florins. The Lander bank is a creditor to the amount of 200,000 florins and the Oriental for the same

The Body Found. New York, Aug. 31.—After digging for three days among the ruins of the Wooster street fire the body of Clara Maerz, the Italian girl, was found yesterday in ten or twolve fragments and horribly barned and mutilated. Highest of all in Leavening Power .- U. S. Gov't Report, Aug. 17, 1889.
