Notwithstanding the quarantine that has been established people from Hamburg are allowed to land, and the result of this is shown by the fact that two new cases of cholera have occurred in the City road, London.

The victims arrived yesterday on the steamship Peregrine, from Hamburg. They showed no symptoms of the dis ease and were permitted to land. They proceeded to their homes and the disease appeared.

LIVERPOOL, Ang. 31 .--- It has been expected that cholera would be certain to make its appearance here if anywhere in England. Every precaution has been taken to guard against an outbreak, but the fears of the people were realized yesterday. Four Russian emigrants who were about to sail hence for America were stricken with the pestilence.

HAMBURG, Aug. 31 .- The sultriness of the atmosphere since yesterday has caused the cholera to spread with increased rapidity and hopes of the near abatement of the disease have received a shock. Last night \$10 cases and 319 deaths were reported for the day. The number of interments was 290, almost three times the average in healthful times. Many of the burials now take place at night. Most bodies are unaccompanied by friends or relatives. Persons of the poorer class dying in hos pitals are buried without any attempt at ceremony and without having been even seen by friends or family.

BERLIN, Aug. 31.-The air is damp and oppressive. The official placards on the bill boards yesterday afternoon announced that in the last twenty-four hours nineteen fresh cases of cholera have been discovered. The patients have been taken to the cholera hospital in Moabit. A laborer standing before a bill board near the foot of Friedrisch strasse yesterday was taken suddenly ill, and he fell groaning with pain to the ground. At the police station, three blocks off, the physicians pro-nounced the laborer's case to be one of genuine Asiatic cholera, and the man was removed to the Moabit hospital.

Reports from forty towns in North Germany, exclusive of Hamburg and Altona, show that in each cases of cholera have been discovered. In none of them, however, has it become epi-demic, and in all the victims have been isolated. The Berlin health officials profess confidence that the country has

seen the worst of the plague. BRUSSELS, Aug. 31. — Two persons stricken with cholera have been taken to the St. Pierre hospital and one case has already proved fatal.

If Judge Murphy adheres to this opinion when the matter comes before him judicially, then there is no power in the state to punish the murderer, even by imprisonment, and he will be set free.

The conservatives get a majority of congressmen, electing Brawley in the First, Johnstone in the Third and Hemphill in the fifth districts. Shell in the Fourth is the only Alliance congressman so far elected.
