**A SERIOUS ACCIDENT.**  
A Young Man Nearly Blown to Atoms at Buffalo, N. Y.  
On Monday a son of David Thomas, who lives near Benner Waddles on Buffalo Run, nearly met his death by being blown up with dynamite. In some way he got hold of some fuse and what he thought was a stump of a dynamite cartridge. He lighted the fuse and when it burned to the cap there was a terrible explosion. One of his hands was nearly burned off, and the cartridge struck the young man in the side, severing one of the large arteries. The hands began to bleed so fast the young man became very weak and wanted to be laid down. A doctor was summoned who pronounced the wounds of a severe nature, and stated that had he not lain down he would have bled to death.

**Gen. Braddock's Death.**  
David Williams, an old soldier living near Ohioville Falls, recently related some very interesting reminiscences of Braddock's defeat, which he obtained from Thomas Fawcett, a soldier who was in that fight. Fawcett lived in that neighborhood for years before he died and his grave is on a little hill about a mile south of the falls. Fawcett told Williams that he himself had shot Braddock; that when the Indian attack took place and the American riflemen took to cover to fight the Indians in frontier style, Braddock was furious, and with his sword cut down one of Fawcett's friends, who got behind a tree. Fawcett said that he was so infuriated that he at once fired on Braddock, mortally wounding him.—Greensburg Democrat.

**Democracy Headquarters.**  
County Chairman L. A. Schaeffer has established headquarters for the present campaign, in the rooms over Jackson, Crider & Hastings' bank, in the Reynolds block. He has a suite of rooms for his private office. The ceilings are nicely papered, a fine carpet covers the floor and it is furnished with writing desks, chairs, etc., that makes everything cheery and comfortable. An adjoining room for consultations makes the apartments complete for the purpose. Mr. Harry Jackson as assistant, has charge of most of the correspondence and office work. Mr. Schaeffer, Deputy Sheriff Crawford, secretary and Mr. Jackson spend most of their evenings there arranging and outlining the work of the campaign which in fact is practically just opening.

Democrats from about the county when in Bellefonte are kindly invited to make it a point to call at headquarters. You may be able to render some assistance and your presence at least will have some encouragement. The chairman desires the hearty co-operation of all fellow democrats who are interested in the election of the ticket and the triumph of the great principles it embodies.

**THE LAWS OF SUBSCRIPTION.**  
Money and trouble saved by Keeping them in View.  
Newspaper subscribers are probably ignorant of the law protecting the publisher, and what follows will no doubt be news to many people in some respects. When it is taken into consideration that an individual who takes a paper gets it for a mere song, the wonder is that any should neglect to pay for it, or not wanting it, should fail to notify the home office of that fact. As will be seen by a careful perusal of the decisions of the United States court on this subject, as recently compiled by Dr. Tuckerman, editor of the *Workman*, at Cleveland, much trouble may be avoided and money saved. Here are the decisions:

1. Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions.
2. If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until all arrearages are paid.
3. If subscribers neglect or refuse to take their periodicals from the post office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.
4. If subscribers move to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.
5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncollected, is prima facie evidence of intentional fraud.
6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it; otherwise the publisher is authorized to send it and the subscriber will be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

The latest postal laws are such that newspaper publishers can arrest anyone for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the postmaster to mark it "refused," and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

**A Hayseed.**  
A countryman who went to Allentown, Pa., on an excursion, took a ride on the electric street car. Sizing up the fare register and beholding the indicator point to 25, he remarked to his companion: "Chimney, Bill, die car gelt over shwift, un so hut yusht finf, un-tzansich pund shteam."

**New Boycott.**  
A number of children whose fathers belong to the Homestead strikers refused to attend a school that is being taught by the daughter of an ex-striker who has returned to his place to work. The new form of boycott is fully as odious as the old. These teachers should be kept in that school to the end of the term if every scholar refused to attend.

**TROUBLESOME IFS.**  
That tiny, insignificant looking word, "if," oftentimes is a great source of annoyance and frequently intrudes itself at unreasonable hours, causing lots of trouble and frustrating many well laid plans. The *World* aptly illustrates the perplexing situations in which this little pest figures prominently in the following article:

If the increased tariff has raised wages it must—upon the protection theory—have added to the cost of production. If it has done this how can prices be lower? If the increased duty has not added to the price of imported goods it has not given any additional protection to the home manufacturer. If it has added to the price it has been an extra burden upon consumers. If the tariff has raised the price of farm products it must have added to the general cost of living. If the increased duty has not diminished importations, as protectionists now claim, it has not secured a home market to manufacturers nor protected wage earners against the competition of pauper labor abroad. If the foreigner pays the duty why did McKinley leave the treasury so short of money? These troublesome "ifs" are only the beginning of the labyrinth of lies and paradoxes into which this tariff booby leads its defenders.

**Don't Get It.**  
Look out when you see an offer to sell clothing at "half price," "less than cost," "50 cents on the dollar" and all that sort of thing. In 999 cases out of 1000 it means shoddy. Clothiers do not advertise for people to come in and buy at figures that make every sale a positive loss. This class of advertising simply means that a dealer has picked up a lot of "off goods" so poor so cheap, miserable and worthless that they can be sold at good profits for much less than any decent suit can be retailed at. You will not find a bargain in sales of this kind in a hundred years. When you want a genuine bargain come to us and get a genuine first-class suit at a genuine low price, which is a price that represents the solid worth and wear to you for every cent you put into it. Come to us for trustworthy clothing at trustworthy prices and your purchase will be a trustworthy bargain every time.

**Threshing Machine Accident.**  
Prot Bros., who own a steam thrasher, were threshing on the farm of W. M. Johnson, in Woodward township, Clinton county, when they met with an accident that might have resulted fatally to those employed in the barn. The engineer had gone into the barn for some purpose and during his absence the governor belt of the engine came off thereby allowing the engine to run at great speed, which so increased the speed of the threshing machine that the cylinder was torn out of it and went flying through the barn. Several men were working in the barn but luckily all escaped injury except one who was struck by a piece of wood, torn from the machine, but was not seriously hurt. The separator was entirely demolished.

**Dr. H. A. Steber,** a prominent republican of Utica, N. Y., has turned upon the grand old party and will support the nominees of the people's party. He said to a reporter, "I am disgusted with the republican party. I am going to vote for Weaver and the people's party candidates. I find that a good many republicans are dissatisfied with their party." Dr. Steber was a republican member of the legislature in 1886, and has for years been prominent as a republican leader.

The democracy of New Jersey have nominated Judge Wertz for governor, and have thus removed all possible doubts of their electoral votes being cast for Cleveland and Stevenson. Judge Wertz has been prominent in democratic politics for years, and has always been on the side of the people in the struggles against monopoly and oppression. His nomination is the strongest that could have been made and there is no longer any doubt as to the result in that state. Cleveland and Wertz will surely win.

**IS PROTECTION ROBBERY?**  
[Opinion of the U. S. Supreme Court, 30 Wall. 667.]  
To lay with one hand the power of the government on the property of the citizen, and with the other to bestow it upon favored individuals to aid private enterprises and build up private fortunes, is none the less robbery because it is done under the forms of law and is called taxation. This is not legislation. It is a decree under legislative forms. Nor is it taxation. A "tax," says Webster's Dictionary, "is a rate or sum of money assessed on the person or property of a citizen by the government for the use of the nation or state." Taxes are burdens or charges imposed by the Legislature upon persons or property to raise money for public purposes.

We have established, we think, beyond cavil that there can be no lawful tax which is not laid for a public purpose. It is said that a benefit results to the local public of a town by establishing manufacturers the same may be said of any other business or pursuit which employs capital or labor. The merchant, the mechanic, the innkeeper, the banker, the builder, the steamboat owner, are equally promoters of the public good, and equally deserving the aid of the citizens by forced contributions. No line can be drawn in favor of the manufacturer which would not open the coffers of the public treasury to the "promoters" of two-thirds of the business men of the city or town.

**Resolutions of Respect.**  
Whereas, God in his Providence removed from our midst Markie Williams, son of A. and Catherine Williams, a very bright and interesting boy, aged 9 years, and a faithful member of the 1st of June Baptist Sunday school. Therefore while bowing to the will of our Heavenly Father we express our sorrow for his absence from our midst.

Resolved, that we tender our heartfelt sympathy to surviving members of the once happy family in their sad bereavement.

Resolved, that a copy of this tribute be sent to the bereaved family printed in two of our county papers and be placed on our minutes.

BOSTON, LAI. Co., Wis., Dec., 1888.  
Rev. J. C. Bergen vouches for the following: James Rooney, who was suffering from St. Vitus Dance in its worst form for about 14 years, was treated by several physicians without effect. Two bottles of Pastor Koenig's Nerve Tonic cured him.

**Would Have Died.**  
HOLTON, MASS., November, 1890.  
I was in pain all over, could get no rest either night or day and was not able to do any work for months, but after taking Pastor Koenig's Nerve Tonic only one week, I was able to sit up and attend to my dressmaking. I had paid over two hundred dollars to doctors and got no benefit. I certainly think I should have died long ago if I had not got this medicine.
