THE DEMOCRATIC CLUBS

Meeting of the National Body in New York City.

GROVER CLEVELAND'S RECEPTION.

The Ex-President Delivers an Address of Welcome to the Delegates and Is Enthusiastically Cheered. Sympathy for President Harrison. Black Re-elected President.

New York, Oct. 5 .- The second quadcennial convention of the National Association of Democratic Clubs was held yesterday in the Academy of Music. The total number of delegates present was

It lacked but ten minutes of 11 o'clock when the stage footlights blazed up, the band burst into the strains of "Hail to the Chief," and Grover Cleveland, pre-ceded by Chauncey F. Black, of Penn-sylvania, president of the Association of Democratic clubs, entered upon the stage and took their seats on the platform, Mr. Black at the speaker's table and Mr. Cleveland in the first row of seats behind him. Instantly every man and woman in the large audience sprang to their feet. Tremendous enthusiastic cheers were given, flags and handkerchiefs were waved, and for some minutes the wildest excitement prevailed, Mr. Cleveland standing bowing his acknowledgments.

President Black's address to the delegates was a brilliant presentation of Democratic principles. When the applause that arose in answer to Mr. Black's closing words subsided sufficiently to permit him to be again heard, he said that the Democratic city and Democratic state wished to give them greeting, and, happily for the occasion, the most illustrious citizen of New York, the most illustrious living American, was present to welcome them, and by grace of Divine Providence he would be at Washington on the 4th of next March to welcome them again.

The outburst of applause that greeted Mr. Cleveland's entrance was surpassed by that which greeted him as he stepped forward on the platform. It was sev-eral minutes before he could speak. When he could make himself heard he said:

MR. PRESIDENT AND GENTLEMEN-It affords me especial pleasure to extend to you on this occasion a hearty welcome. As a citizen of this proud municipality I am proud to assure you that our hospitality is always open and generous. In behalf of a community distinguished for its Americanism and toleration in all matters of belief and judgment, I know I may extend a cordial greeting to those who here represent a political thoughtfulness and sincerity. As an unyielding and consistent believer in Democratic principles, I trust I need not hesitate to pledge to the representa-tives of organized Democracy the good will and fraternal sympathy of this Democratic

city.

Your meeting is the council of war which precedes a decisive battle, and your deliberations should be the preparing for stern conflict. All your weapons and all your equipments are soon to be tested. You have organments are soon to be tested. You have organ-ized and labored and you have watched and planned to insure your readiness for the final engagement now near at hand. This, then, is no holiday assemblage, but an impressive con-vocation in furtherance of the designs and purposes for the accomplishment of which you and those you represent are banded together.

and those you represent are banded together.

These designs and purposes, as declared by
the association, are: The preservation of the
constitution of the United States; the autonomy of the states, local self government and
freedom of elections; opposition to the imposition of taxes beyond the necessities of the government, economically administered; and the promotion of economy in all branches of the

triotism and the loftlest aspirations of American citizenship. Though at all times they should suggest to us the strongest obligation to political effort, their motive force, as indemocratic in 1892. centives to political activity and watchful ness, should be irresistible at a time when the constitution is held in light esteem as against the accomplishment of selfish purposes, when state boundaries are hardly a barrier to centralized power, and when local self government and freedom of elections are the scoff of

The real benefit of political organization is ound in its nearness to the people and in the lirectness of its action. Of course, harmony and unity of purpose are absolutely essential. I am sure that I can say nothing better in taking my leave of you than to wish that your convention may be a most profitable and encouraging one, and that at its conclusion you may resume your place in your home organiz-ations, newly inspired to determined and zealous effort in the cause of true democracy. Mr. Cleveland was frequently ap-

plauded, and his closing injunction re-eived marks of hearty approval. Mr. Black then announced that the executive committee presented for tem-porary organization the names of Gen-eral Patrick A. Collins, of Massachusetts, as chairman; Martin A. McGinnis, of Montana, as vice chairman; Frederic Goodwin, of New York, and Mr. Mc-Sherry, of Maryland, as secretaries; and George H. Hoffman, of Philadelphia, and J. R. Beckwith, of North Carolina, as reading clerks. The above named were unanimously selected as temporary officers of the convention. Mr. Collins spoke briefly on assuming the chair, and the first business he transacted was the putting of this resolution, presented by F. H. Buzby, of North Carolina:

Resolved. That the chairman be requested to transmit to the president of the United States the respectful sympathy of the members of the Association of Democratic Clubs with him in his days of anxiety, and to expect the providence of press the earnest hope in the providence of God that Mrs. Harrison may, in his own good ime, be restored to health.

This was adopted with cheers. Telegrams of apology for non-attendance were read from Adlai E. Stevenson, William M. Springer and Roswell P.

Flower.
When the convention reassembled the temporary organization was made permanent.

Some resolutions passed by colored Democratic clubs condemning the force bill were read and cheered.

The committee on constitution and permanent organization reported an amended constitution and a long list of

Mr. Chauncey F. Black and Lawrence Gardine were re-elected president and secretary for the ensuing year, and Governor Roswell P. Flower was appointed

An effort to adjourn was decisively

voted down.

A delegate from North Carolina of-fered a resolution of thanks to David B.
Hill for his grand exposition of Demo-Hill for his grand exposition of Democratic principles in his Brooklyn speech, and of profound appreciation of the services thereby rendered by him to the people of this nation and to the Democratic party. This was carried with some dissenting voices.

Robert E. Gilchrist, a very black man, introduced as an old colored Democrat, was called up to the stage and made an address, and the convention adjourned.

TWO SIDES OF THE TARIFF.

From the speech of Hon. Allen R. Bushnell, of Wisconsin, member of Congress, is taken the following condensed statement, which presents two sides of the McKinley tariff. The place is Uncle Sam's national store, and the first exhibit of goods is the

RICH MAN'S BARGAIN COUNTER. Silk velvet, no advance in tariff. Silk linings, no advance. Black silk, no advance. Seal skin sacques, reduced 33 per cent. Broadcloth, advanced 20 per cent. Silk laces, advanced 20 per cent. Fine cassimere, advanced 10 per cent. Diamonds, tariff-taxed 25 per cent. Fine blankets, tariff-taxed 65 per cent. Jewels, tariff-taxed 25 per cent. Attar of roses, free. Oil of lavender, free. Meerschaum, free. Ivory, free. Hot-house plants, free. The second exhibit is the

POOR MAN'S (NO) BARGAIN COUNTER: Cotton velvet, advanced 100 per cent. Cotton linings, advanced 285 per cent. Black alpaca, advanced 66 per cent. Imitation seal sacques, advanced 120

Woolens, advanced 40 per cent. Cotton laces, advanced 50 per cent. Cotton corduroy, advanced 114 per

Window glass, tariff-taxed 166 per Horseshoe nails, tariff-taxed 58 per

Linseed oil, tariff-taxed 63 per cent. Castor oil, tariff-eaxed 125 per cent. China ware, tariff-taxed 60 per cent. White lead, tariff-taxed 58 per cent. Starch, tariff-taxed 91 per cent. Rice, tariff-taxed 112 per cent. Salt, tariff-taxed 80 per cent.

Under the McKinley tariff those who are best able to pay the taxes are taxed the least or are exempt from its provis-

Service and Worth.

We are abreast of the times and in advance of the seasons bringing in the finest stock of Fall and Winter Clothing. The dollar you spend with us goes farther, lasts longer, gets more style, more quantity, more quality, and does you more good, in service worth and wear than money spent elsewhere. Our goods and prices now waiting for your inspection, will prove this.

SAMUEL LEWIN, Clothier.

Вотн Indianapolis and Fort Wayne, two of the largest cities in the state of Indiana, have large campaign clubs, composed entirely of republicans who are earnestly laboring for the election of Cleveland and Stevenson. A number of the members of the clubs are stumping the state for the democratic ticket, state and national. Prominent among them are ex-Attorney General Williamson and ex statachairman John Overmeyer. With a united party in public service.

These professions embody the purest pa- majority in his native state. With all 1888 Mr. Harrison bad less than 3,000

Work Done by Bees.

St. Louis Republic. B es must, in order to collect a pound of clover honey, deprive 62,000 clover blossoms of their nectar. To do this the 62,000 flowers must be visited by an aggregate of 3,750,000 bees; or, in other words, to collect this pound of honey, one bee must make 3,750,000 trips from and to the hive. As bees are known to fly for miles in quest of suitable fields of opperation, it is clear that a single ounce of honey represents millions of miles of

On the Way to Paradise, Let us hope that the people who habitually disregard their health will reach that desirable place, and avoid the locality which is less deplace, and avoid the locality which is less desirable or an eternal residence on account of the heat and surroundings generally. But while we tarry in this vale of tears, why should we voluntarily endure the tortures of dyspepsia when a systematic use of Hostetter's Stomach. Bitters will rid us of the atrocious malady which—unless physicians are very much at fault—tends to shorten the term of our existence. Heartburn, billousness, constipation almost always accompany this complaint and are symmtomatic of it. These are all extinguished by the Bitters, which also conquers fompletely malaria rheumatism, nervousness end debility. Since the appearance of "la grip" alias shown a singular mastery over this forit dable complaint that has carried off so many mi our brightest and best.

LEGAL NOTICE.

To heirs and legal representatives:

PENNSTLVANIA, CENTRE COUNTY, 88:
I, John A. Rupp, Clerk of the Orphans Court of Centre county, do hereby certify that at an Orphans Court, held at Hellefonte the 22 day of August, A. D. 1892, before the Hon. the Judges of said court, on motion a rule was granted upon the heirs and legal representatives of James Walker, deceased.

Elizabeth Walker, Potter Walker, Edward Walker, Miles Walker, Wm. Taylor Walker, Eliza Strickland, Paul Sliker, James Sliker, Rachael McGinley, John Sliker, Mary Shirk, Melinda Confer, Cora Houp and ida Edwards to come into court on the fourth Monday of November next to accept or refuse to accept at the valuation. or to show cause why the real estate of said deceased should not be sold, same notice to be given as in inquisition.

In testimony whereof I have hereunto set my hand and affixed the seal of said Court at Bellefonte the 22nd day of August, A. D. 1892.

COL. FISHBACK, the democratic gov- What is the Electropoise? ernor-elect of Arkansas, is a veteran of the Union army. His unprecedented majority against the opposition of the republican and peoples party show that the ex-confederates will vote for a northerner and a union soldier, when he comes to them with an honest record and for legitimate purposes. Carpetbaggers and scalawags are at a discount among the southern people, but honest men are welcomed and respected.

Brief, But to the Point.

Both Cleveland and Hill are very skillful presenting tersely and epigrammatically the claims of Democracy, and their brief letters to the Bushwick Democratic Club, of Brooklyn, are models of this sort of writing. Senator Hill was peculiarily happy in his partisan synthesis, as witness this extract:

"The Democratic cause is the cause of the people. It represents their interests, and is identified with their welfare. Its success means the recognition of the dignity of labor, the prosperity of the country and the preservation of our liberties. It means equal rights, honest elections without Force bills, taxation for public purposes, economy in public expenditures and honesty and efficiency in the Executive chair of the Nation. A Democratic victory this fall will settle the future control of the country for many long years to come. The cause is worthy of the best efforts of every Democrat who loves his country and his

Within these few words there is compressed the entire Democratic creed and profession of faith, and a party oration to boot.

Mrs. Amanda Paisley

For many years an esteemed communicant of Trinity Episcopal church, Newburgh, N. Y., always says "Thank You" to Hood's Sarsaparilla. She suffered for years from **Eczema** and **Screfula** sores on her face, head and ears, making her deaf nearly a year, and affecting her sight. To the surprise of her friends

Hood's Sarsaparilla Has effected a cure and she can now hear and see as well as ever. For full particulars of her case send to C. I. Hoon & Co., Lowell, Mass.

and What Will it Do? Shipping Commission Merchant

The Electropoise has been in use for four years, and is well known in some sections of the United States, but there are a great many sufferers that have never heard the name. Those that have heard of it and seen something of its wonderful power, are curious to know how an instrument so small and so simple can accomplish cures so great. Now, while the Electropoise is very wonderful, it is not at all mysterious. Its operation falls in with what we know of science, and any one at all familiar with the simplest facts of Biology and Physics can understand.

simplest facts of Biology and Physics can understand.

HOW IT OPERATES—The way in which the Electropoise accomplishes its cures is very simple and natural. It consists of a poearizer, which is connected by a woven wire chord with a small plate and garter. This polarizer is immersed in cold water, or put on iee. The plate at the other end of the cord is attached to the warm body of the patient, generally at the ankle. From the inherent nature of this polarizer it becomes negatively charged. By the well-known laws of induction, the plate, and with it the body of the patient, becomes positively charged. The body thereby becomes a centre of attraction for negative bodies. Oxygen is the most negative form of matter in nature. Hence the body, bathed in the atmosphere, drinks in the life-giving oxygen at every pore. Every process of life is thereby quickened. The temperature rises; the pulse throbs with a fuller beat; the skin tingles with new life; every organ acts with renewed vigor, and the effete poisonous products of the body are thrown off with ease.

That quickened change of matter which oxygen produces throughout the system, is accompanied by a largely increased genesis of nerve lorce. Organs half dead and stagnant are born again, and begin to perform their wonted functions. The heart, the lungs, the liver, the organs of the external senses, the organs of reproduction—all these throw off their derangement and weakness, and even the disordered intellect is ofttimes re-enthroned. Where discase has not already made too great ravages, restoration to perfect health is inevitable. The Electropoise is generally used at night while the patient is asieep, but may applied, of course, at any time, and to several persons during the twenty-four hours. It will last a lifetime, never wears out nor loses its strength, never needs mending nor recharging.

One in each family will render that family largely independent of doctors and druggists, and thus will save every year many times its small cost.

NOT AN ELECTRICAL APPLIANCE

NOT AN ELECTRICAL APPLIANCE-The NOT AN ELECTRICAL APPLIANCE—The Electropoise is not in any way akin to the numerous electrical appliances, such as belts, insoles, corsets, shields, etc., palmed off upon the public. It has no method of generating a current, nor means of conducting one. It acts upon well known biological principles, and is heartily endorsed by many of the best physicians in this and other countries, and is daily used by them in their practice. It is pronounced by them the greatest discovery in the history of medicine, in that it does away with the use of medicines.

BOW IT OPERATES—The way in which the Grain, Corn Ears, Shelled Corn, by the Bunch or Cord, in quantities to Respectfully solicits the patronage of his

history of medicine, in that it does away with the use of medicines.

DIRECTIONS FOR USING—Accompanying each instrument is a book of instructions fully explaining its uses. Its method of cure is so simple and free from danger, that the uninnitated and even children can use it with perfect ease and success.

Editorials in Boston Christian Witness and Advocate of Bible Holiness, September 2, 182:

"A method of treatment of disease without the use of any medicines or drugs, which has been quietly extending itself over all parts of the United States during the past three years with very gratifying results.

We are slow to commend new discoveries of any kind, for the reason that so many of them prove to be worthless. But we can commend the Electropoise as a safe and effective health restorer. We do not pretend to explain the philosophy of its workings, but, having realized its beneficial effects, we can speak of its results. About one year-ago we recommended it to Bro. I. D. Ware, of Philadelphia, for his son, who was a great sufferer from Sciatica. He had sought relief in various ways and found none. He was almost helpless, and rapidity declining. The use of the Electropoise restored him to perfect health, and now, after early a year, he is rejoicing as one who has found great spoil. We have seen testimonials of most remarkable cures. This notice of the Electropoise is without solicitation, and entirely gratuitous. We do it for the good of the

found great spoil. We have seen testimonials of most remarkable cures. This notice of the Electropoise is without solicitation, and entirely gratuitous. We do it for the good of the afflicted. We have no personal interest in it, and are not paid for what we say in its favor."

The following editorial in Central Methodist, Catlettsburg, Ky., was written by Zephaniah Meek, D. D., editor.

"Unless about ten thousand men, mainly professional men, lawyers, doctors, editors, preachers, and all other classes, including the writer, are very much mistaken, the Electropoise effects cures and gives relief where all other known remedies have failed. Especially is it efficacious in the case of delicate women and feeble children. I have used one for the past two years, and find it invaluable as a curative agent."

Names of prominent people in all sections of the U. S. generally can be furnished on application. Our cures cover all parts of the U. S. and Europe. Over 56,000 people have been treated with the most gratifying results. In the large majority of cases the cures have been speedy, but our claims are modest, and in long standing, chronic cases you cannot expect speedy cures. We positively refuse to sell the Electropoise in hopeless cases.

For book of testimonials or for any information, send stamp or call at
