

THE MONEY CONFERENCE

Formal Opening of the Gathering at Brussels.

ENGLAND, GERMANY AND AUSTRIA

Will Doubtless Oppose Any Proposition for the Rehabilitation of Silver Coming from the United States or France.

BRUSSELS, Nov. 23.—The international monetary conference met at 3 o'clock yesterday afternoon in the Palais des Academies. The proceedings were purely formal. The following is a list of the delegates representing the principal nations taking part:

United States—Senator William B. Allison, Congressman James B. McCreary, E. Benjamin Andrew, president of Brown university; Professor Ronald P. Falkner, of the University of Pennsylvania; Thomas W. Oudler, Thomas T. Keller, James T. Morgan, Senator John P. Jones, Henry W. Cannon, president of the Chase National bank, New York, and E. O. Leach, director of the mint.

France—M. Tirard, ex-premier and minister of finance; M. L. De Liron d'Aoules and M. De Foville, officials of the ministry of finance.

Germany—Count von Alvensleben, minister at Brussels; Dr. von Glasenapp, privy councillor of the treasury, and Herr Hartung, director of the Imperial bank.

Great Britain—Lord Herschell, lord chancellor; Sir William Henry Houldsworth, M. P.; Hon. Sir C. Fremantle, deputy master of the mint; Mr. Alfred D. Rothschild, Sir C. Rivers Wilson and Bertram Currie.

India—General Richard Strachey and Sir Guilford L. Molesworth.

Italy—Signori Luigi Luzzatti, Raimiro Simonelli and Domenico Zeppa, members of the late parliament.

Mexico—Senator Don Antonio de Miery Celis, Deputy Don Jaquin D. Casus and General Don Francisco Z. Mena.

The Netherlands—N. P. Van Der Berg, president of the Bank of the Netherlands, and G. M. Boissevain, of the statistical bureau of Amsterdam.

Sweden and Norway—Hans L. Torsell, ex-minister of finance, and Hayward E. Berner, director of the Credit Foncier.

Switzerland—M. Cramer Frey, national councillor, Zurich, and M. Charles Lardy, Swiss minister to France.

Belgium—Senator Weber and MM. Sainctelette, Montefiore, Levy, Aillard and Chamber.

Austria—Count Khevenhuller-Metsch, minister to Belgium.

Russia—Prince Ouhoff, Russian minister to Belgium, and M. Raflovich, a well known economist.

Denmark—C. F. Feitgen.

Spain—Senores Osmán, Surra and Toca. M. Beernaert, the Belgian prime minister and minister of finance, who opened the proceedings, said in his inaugural address that the conference had been called to discuss one of the gravest questions that modern society ever had to face. He extended, in the name of the Belgian government, a most cordial welcome to the delegates.

M. Montefiore Levi, as president of the conference, followed M. Beernaert. M. Levi said that he accepted the honor of presiding over the deliberations, knowing that it was intended for Belgium rather than for himself.

Edwin H. Terrell's speech was awaited with keen interest, as it was expected to contain some hints as to the course to be pursued by the American commissioners. It was, however, a purely formal recognition of welcome on behalf of the American delegation.

Several delegates requested the American representatives to give the details of their plan, as the wording of the invitation to the conference had been too vague to convey any clear idea of its concrete object. This the Americans declined to do, but they promised to submit their proposals one hour before the next session. After arranging the details of the procedure the conference adjourned until Friday.

The conference will sit three days in each week.

There is no doubt that the English, German and Austrian delegates will follow a dog-in-the-manger policy. So far as can be ascertained none of them has come with the idea of making a serious proposal for the rehabilitation of silver, and they will assume a purely negative attitude toward any such proposal coming from the United States or France. The Austrian government does not care to burden itself with any more conditions as to its currency, while in the midst of its currency reform and the concurrent coinage of new money.

Germany would under no circumstances tolerate anything like even a partial abandonment of monometallism, not only because the whole academic sentiment of the country seems to be against it, but also because such a course would benefit France. In both Austria and Germany the allusions of the press to the conference are almost without exception to the effect that it represents the efforts of the silver producing states in America to enhance their product at the expense of the rest of the world. Every observer of the Austrian and German delegates in the conference could remark their opposition; in fact, they were the ones responsible for the request that the American delegates should show their hand at once. They together with the English delegates, will be the leaders of every effort to render futile any work attempted by the United States or members of the Latin union.

Telegraphers Get an Increase.

WILMINGTON, Del., Nov. 23.—The Baltimore and Ohio Railroad company has accepted the new schedule of wages submitted to them by the Order of Railroad Telegraphers, and it will go into effect on Dec. 1. Just what proportion the increase will be to each operator in the employ of the company is not known, but the total cost of the increase will be about \$55,000 a year over the rates now paid. New hours of work have also been fixed upon. This is the first new schedule of the telegraphers which has been signed in the east.

Bank Thieves' Heavy Sentence.

ERIE, Pa., Nov. 23.—The court room was crowded yesterday when the bank robbers Courtney and Hawley, of New York, and Evans and Smith, of Syracuse, were brought before Judge Gunnison for sentence. The faces of the men were pale, but they did not seem frightened. Courtney was given fifteen years in the penitentiary and fined \$500. Hawley was given seven years and \$500 fine. Evans and Smith were sent to the Pennsylvania reformatory.

THE DANGERS OF MINING.

Fire Fighters Narrowly Escape Death from Asphyxiation.

SCRANTON, Pa., Nov. 23.—Fierce flames are raging in the workings of the Holden colliery at Taylor, five miles from this city, which are so located as to make it almost impossible to extinguish them in any other manner than by flooding the mine. Last night a force of workmen endeavored to reach the blazing subterranean force, which is 2,000 feet from the bottom of the shaft, but the stifling afterdamp which filled the gangway quickly overcame them after they had passed the fresh airways, and one by one the men fell in the gangway.

Several of them, realizing in time the awful danger into which they were treading, turned in and succeeded in getting to a point where there was fresh air, which enabled them to appreciate the condition of those overcome further in the gangway. Quickly summoning a rescuing party and providing themselves with the necessary safeguards, they returned into the gangway and the rescued miners were carried out unconscious, and more dead than alive. Those in the most serious condition are David Davis, Benjamin Taylor, John Edmunds, Thomas Morgan and Jenkin Harris.

Then another force was formed, under Superintendent Davies, to try and get a hose upon the fire, but as they proceeded they, too, were overcome by the poisonous vapors, and it was only by having men trailing behind that they were enabled to have rescuers reach them. This time Superintendent Davies, Thomas Hughes, Carroll Fern, John Jeffers, John McAndrew, Frederick Tinney, William Dolan, David Evans, Michael Carroll, Henry Lintholt, William Goodman, Inside Foreman Evans and Daniel Williams were carried out so much overcome that the physicians had to work more than an hour upon them before they became conscious.

Davis, Carroll, Fern, O'Hara and Jeffers are in a miserable condition, and recovery is doubtful.

This is the first instance of asphyxiation in the mines of this section from this cause since 1883, when twelve men were killed at Monacaqua, near Shickshinny.

CHARGED WITH THEFT.

A Warrant Issued for the Arrest of a Hungarian Priest.

HAZLETON, Pa., Nov. 23.—The trustees of the Hungarian Catholic church of this city appeared before Alderman Gorman and caused a warrant to be issued against Rev. Father Kosolka, charging him with embezzlement. Rev. Mr. Kosolka is widely known in Hungarian circles, and the report that he had absconded created a sensation. He had been identified with The Jednota, published in this city, and his radical statements in that journal have involved him in much trouble. About a month ago he returned from Pittsburgh, where he had spent thirty days in jail, having been convicted of libeling another priest. This experience seemed to have won for him many sympathizers, and upon his return home he was given full control of affairs.

Recently, however, trouble with his newspaper associates began to manifest itself, and on Friday he left, presumably for Wilkesbarre. His continued absence aroused the suspicions of the church trustees, and an investigation was ordered. It was discovered that he had drawn from the Hazleton National bank \$2,300 belonging to the church, and all moneys which were supposed to be in the safe at the parochial residence. No trace of him could be found in Wilkesbarre, and it is now believed that he has sailed for Bremen. On the strength of this the warrants were issued.

Freight Car Thieves Bagged.

WILLIAMSPORT, Pa., Nov. 23.—An important capture of freight car robbers has been effected by the police of this city, aided by Pennsylvania railroad detectives. The detectives on Monday arrested Mrs. Matilda Jackson and Mrs. Solomon on a charge of receiving goods stolen from cars. A search brought to light a great deal of miscellaneous property which had been stolen in transit.

Yesterday they captured Martha Jackson, William Jackson and a boy named Williams, but who is known as Jesse James, the arrests being made at Harrisburg. They were brought to this city last night and given a preliminary hearing. The operations of the gang have been extensive, and many cars were broken into at points between this city and Watsonstown. The girl, Martha Jackson, is one of the toughest specimens on record. She assisted in the work and has frequently ridden on the mephitic freight cars for miles. The gang fell into the clutches of the police ever one of the most desperate that

ever fell into the clutches of the police of this city.

Clemency for a Bank Wrecker.

WASHINGTON, Nov. 22.—The president has remitted the unexecuted part of the sentence of six years imprisonment imposed May 26, 1891, in the case of James A. Simmons, of New York, convicted of aiding and abetting the president of the Sixth National bank of New York city in embezzling, abstracting, and wilfully misapplying the moneys of that bank. Clemency was bestowed in this case because of medical certificate that the prisoner is afflicted with Bright's disease and cannot live long.

A Blunder Costs Three Lives.

CHICAGO, Nov. 21.—Through the blunder of some one, a terrible collision of two heavily laden freight trains occurred on the Belt Line railway near the Archer avenue crossing yesterday. Three lives were lost and two men were injured so seriously that they may not recover.

The killed are John Beauchamp, conductor of train No. 14; Richard A. Otto, brakeman of train No. 14, and Louis Obitz, fireman of train No. 36.

Terrible Sunday Tragedy.

CHICAGO, Nov. 21.—Herman Siegler, a German, lived with his wife and three children at the residence of his wife's parents, Henry and Caroline Siles, on Paulina street. Yesterday Siegler shot and killed both of his wife's parents, wounded his wife, shot an officer who came to arrest him, and was himself wounded by the officer. He was taken to a hospital, and may die. He is probably insane.

Killed in a Smashup.

NEW ORLEANS, Nov. 23.—A confusion of orders caused a wreck on the Queen and Crescent road yesterday afternoon. The wreck took place six miles south of Derby, a small station sixty-five miles north of New Orleans. The northbound freight crashed into the southbound passenger train and a disastrous smashup resulted. A tramp was killed instantly and Charles Peck fatally injured.

PENNSYLVANIA POINTERS.

CARLEISLE, Pa., Nov. 23.—Edward Mondorf, of M. Holly, fell between the rails of the Philadelphia and Reading railroad here last night and was cut to pieces.

READING, Pa., Nov. 21.—On Mount Penn, three miles from this city, last night, John Heller, aged 40 years, fatally shot Sebastian Muehringer, aged 42 years, and then killed himself. The cause is unknown.

LANCASTER, Pa., Nov. 22.—Judge McMullin in his charge to the grand jury referred to an offense against the law to which little attention has heretofore been paid—betting on elections. He instructed the grand inquest to present for indictment all such persons known to them who made wagers on the recent election.

PHILADELPHIA, Nov. 21.—At a regular meeting of Philadelphia Typographical union a resolution was unanimously adopted urging Mr. George F. Chance, president of that organization, for the position of public printer under Mr. Cleveland's administration. The resolution will be forwarded to Mr. Cleveland at once.

PHILADELPHIA, Nov. 23.—Despite the efforts of the health authorities to stamp out diphtheria by isolation, the victims of the disease continue to increase. Health Officer Veale reports thirty-seven new cases in forty-eight hours. Last week 167 cases and 32 deaths were returned, and within a year there have been 4,176 cases and 1,241 deaths.

SHENANDOAH, Pa., Nov. 22.—John Ganghian, of William Penn, Pa., 29 years of age, was gored by a vicious bull, the property of the family, and received injuries from which he will die. He was passing through an inclosure in which the animal was confined when he was attacked. His entrails were literally torn out and several bones in his body broken.

MT. CARMEL, Pa., Nov. 22.—A slight cave in, forty yards wide by one hundred and fifty yards long, occurred here yesterday, causing considerable alarm in the neighborhood of the depression. Investigation showed that it was caused by the running of a breast in No. 3 slope. No one was injured, however, and experienced miners think there is no further danger.

ASHLAND, Pa., Nov. 22.—The excitement caused by the Centralia mine disaster subsided, and work was resumed yesterday. John Chapman and Robert Stahler, the two imprisoned men who were not rescued until 6 o'clock Saturday evening, are getting along nicely. Stahler, the more unfortunate of the two, having both legs broken. He is now at the Miners' hospital.

HARRISBURG, Nov. 23.—A fire in The Patriot building yesterday did \$50,000 damage. Hutter's bindery is a wreck, and the overall factory of Hench & Coover is practically ruined. The Patriot editorial and composing rooms were gutted and the press room is three feet deep in water. The Patriot will be published from the Sunday Telegraph office until its old quarters are restored.

PITTSBURG, Nov. 23.—In the future the Carnegie company intends to treat with its employees as individuals. Each man employed is required to sign an agreement, in which he pledges himself to refrain from belonging to any labor organization and to be governed entirely by the rules and regulations of the company. Each department superintendent is provided with these blanks, and no one can be employed unless he signs an agreement.

CENTRALIA, Pa., Nov. 21.—Seven men and two boys were entombed in the Hazel Dell colliery by a cave in which occurred Saturday morning. Two were rescued soon after, one of whom died taken into custody in a critical condition. The other seven were buried until night, when they were taken out, two of them badly hurt. The dead miner was Ira Rothelmer, who had his leg broken and was injured internally. His son William may not recover.

MEADVILLE, Pa., Nov. 23.—As a train on the New York, Pennsylvania and Ohio railroad came into this city a young man from the west, who had a ticket to Rochester, became suddenly insane, and drawing a revolver began to shoot. One bullet grazed the forehead of one of the passengers, inflicting a painful wound.

The man was soon overpowered and taken into custody. Intense excitement prevailed, and many women fainted. No one knows who the stranger is.

LANCASTER, Pa., Nov. 23.—William Moran, who came to Lancaster as an attaché of Forepaugh's circus on Oct. 5, was sentenced to an imprisonment of three years and ten months for horse stealing. Moran went to a hotel adjoining the circus grounds, untied a horse and drove away. He was caught in less than an hour with the stolen property in his possession. Moran claimed that he was drunk when the theft was committed, but the story was not believed.

HAZLETON, Pa., Nov. 22.—David Abenetta, with his brother, wound up a spree by calling at the store at Colesta Yeager, a Hungarian, at Derringer. Yeager declined to sell them liquor, not wishing to violate the law. David Abenetta, unwilling to submit to the humiliation of being refused a drink by a Hungarian, drew a revolver and shot Yeager. The storekeeper fell mortally wounded and died soon after. The murderer has not been arrested.

ALLENTOWN, Pa., Nov. 21.—Arsenic was found in the stomach of William Keck, the murderer, who died in his cell the night before he was to have been hanged. When Keck expired, Nov. 9, the physician said death was due to nervous exhaustion brought on by fright. The dead man's stomach was sent to a Philadelphia chemist, who found arsenic there. It now seems certain that poison was smuggled into his cell by some one of his numerous visitors.

WILKESBARRE, Pa., Nov. 23.—It is rumored in coal circles here that the Wilkesbarre and Eastern Railroad company have purchased the Pine Ridge colliery for \$250,000. This colliery has been operated for years past by the Delaware and Hudson Canal company under a lease which expires April 1, 1894. The present owners of the Pine Ridge colliery are Miner & Thomas, of this city, who are also largely interested in the Wilkesbarre and Eastern Railroad company.

SHAMOKIN, Pa., Nov. 19.—It is now believed that Policeman Graeff, who was found murdered near the Corbin colliery, was shot from ambush by friends of Yocobonus, whom the officer shot a couple of years ago for resisting arrest. The night watchman of the colliery testified before the coroner's jury that he heard two pistol shots near where the policeman's body was found on the night of the murder. This practically dispels the supposition that Graeff was killed for his money in a Hungarian boarding house.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

A Slight Reduction.

By an agreement effected between the Western Union and Postal telegraph companies, instead of charging the same for a sign, figure or letter as they do for a word, three of these letters will be sent as a word. This arrangement will materially reduce the cost of sending a message.

Poisoned by Scrofula.

In the sad story of many lives made miserable through no fault of their own. Scrofula is more especially than any other a hereditary disease and for this simple reason: Arising from impure and insufficient blood, the disease locates itself in the lymphatics, which are composed of a remedy for scrofula, whether hereditary or acquired. It is Hood's Sarsaparilla, which by its powerful effect on the blood, expels all trace of the disease and gives to the vital fluid the quality and color of health. If you decide to take Hood's Sarsaparilla do not accept any substitute.

The Archdeaconry.

During the past few days there have been a series of interesting services held in St. John's Episcopal church at this place. The regular meeting of the Williamsport Archdeaconry is being held and the following clergymen are in attendance: Rev. Bishop N. S. Rullison, Rev. Archdeacon Graff, of Lock Haven; Rev. C. J. Wood, of Willamsville; Rev. Mr. Coerr, of Renovo; Rev. Mr. Morrison, of Sunbury; Rev. Mr. Leverett, of Bloomsburg; Rev. Dr. Clerc, of Philipsburg; Rev. Mr. Heakes, of Muncy; Rev. M. W. Christian, of Williamsport, and Rev. Mr. Hopkins, of Tioga.

PASTOR KOENIG'S NERVE TONIC

Perfectly Well.

W. D. GRAMAM.

It Was Indeed a Miracle.

804 First St., Brooklyn, N. Y., Aug. 5, '93.

I wish to state what a wonderful benefit Pastor Koenig's Nerve Tonic has been to my brother, who has suffered from rheumatism since 1886 and has not been able to do work of any kind since that time. He has tried all kinds of medical remedies and different doctors of skill, all without benefit. He has been told to take his medicine, but it was indeed a miracle to see him restored to health.

W. D. GRAMAM.

FREE—A Valuable Book on Nervous Diseases sent free to any address. This remedy has been prepared by the Reverend Pastor Koenig, of Fort Wayne, Ind., since 1886 and is now prepared under his direct supervision.
