#### Large Porkers.

The butchering season always brings news of large, fat porkers being killed. The largest day's butchering yet heard of took place at Andrew Harter's home, Howard in Marion township, on Monday of last week; six porkers were killed that day . When dressed they weighed as follows: one 297 pounds, one 380 pounds, three over 400 pounds and the largest tipped the beam at 706. These weights were furnished us by Elias Breon who says they are correct. That is the best weight heard of this season and we .Taylor doubt if there will be any farmer in Centre county able to beat those weights. That 706 pound porker entitles Mr. Harter to the belt.

#### President Harrison Invited.

General Beaver is on his way to dent Harrison to attend the formal of the State College, on February 22 next. Extensive preparations are being made to make this an important event. The reception in the evening will likely be held in the Armory building.
